**We Are Becoming the Problem Now!** Michael Abayomi Alabi, 2019-02-09 When we leave our destiny in the hands of others and live our life in the past we immediately destroy our future Scientists in the human genome industry have proved that all humans are 99.9 percent the same Why then are some ethnicities progressive and others nonprogressive Our current problems are not with the slave or colonial masters We Are Becoming the Problem Now Had we continued in the legacy of our ancestors simply known as slaves we ought to have been the pride and joy of the whole world They went through unimaginable pain sorrow hardship and torment They survived and even succeeded by leaving a godly legacy behind in the Negro spiritual songs and in arts education industry and every conceivable field Our current major problems as blacks in Africa and all over the world simply put are leadership and disunity We do the dirty work by self destroying ourselves and each other Only few illiterate Caucasians would engage in overt discrimination The majority of us have been trained in the art and act of covert self destruction and in the destruction of the whole We have so much zeal but without knowledge We must bear in mind that zeal without knowledge is dead so also knowledge without zeal is equally lifeless Romans 10:2 Not until we harness our zeal and knowledge comprehensively can we live a progressive life It has been said that if the West is to stand still and halt all development and progress Africa would never catch up Yet we have PhDs in every conceivable field Do we blame that on the ancestors of the slave or colonial masters No We are to be blamed We Are Becoming the Problem Now

Those who have ears to hear let them hear because time is of the essence      **Touching Surfaces** Anca Cristofovici, 2009-01-01 Who isn't seduced by the idea of an affinity between aging and aesthetics? Yet when does aging truly begin? What attributes does the aesthetic embrace? Looking into startling photographic art of the past three decades, this book is prompted by such questions and turns them into a meditation on how aesthetics mediates our relation to time. The photographic approach of the corporeal is at the center of the book. Within a phenomenological framework, Cristofovici brings into focus the physical and the psychic body to read aging as a process of change and becoming over time. Her understanding of aging sees beyond difference into larger patterns of perceptions that we share. Offering valuable insights into aging as a process of subject construction, this book will be of interest to students and scholars of visual culture, photography, art history, age studies, and theories of knowledge. This cross-disciplinary study that puts theory to the test of life's and art's paradoxes in an evocative style will also appeal to a wider readership interested in how photography and aging illuminate each other.

**THE SOCIETY - LIFE THEN & NOW** Ajay Kumar Srivastava, 2021-08-19 This book is the baby I have nurtured with love and pain in last 35 years. My inspiration comes from reading Ramayan repeatedly which represents a glorious balanced society. The book provides a glimpse of my life and feelings about the present-day society. The story will take you through the life of two main characters: Suraj (life then) and Vineet (life now). All along, I have endeavored to compare two generations 50 years or so apart in a realistic fiction form. I wish I could have written about 50 years before this also. As for pre-climax, I have described a meeting and discussion between Suraj and Vineet where Suraj gives his views on the two societies miles apart, making Vineet curious, captivated, and impressed to the extent that he arranges a lecture for Suraj at an international platform in New York, which is also ultimately where the climax of the book occurs.      **Objective Becoming** Bradford Skow, 2015 Bradford Skow presents an original defense of the block universe theory of time, often said to be a theory according to which time does not pass. Along the way, he provides in-depth discussions of alternative theories of time, including those in which there is robust passage of time or objective becoming, presentism, the moving spotlight theory of time, the growing block theory of time, and the branching time theory of time. Skow explains why the moving spotlight theory is the best of these arguments and rebuts several popular arguments against the thesis that time passes. He surveys the problems that the special theory of relativity has been thought to raise for objective becoming and suggests ways in which fans of objective becoming may reconcile their view with relativistic physics. The last third of the book aims to clarify and evaluate the argument that we should believe that time passes because somehow the passage of time is given to us in experience. He isolates three separate arguments this idea suggests and explains why they fail.      *Intrepid's Last Secrets: Then and Now* Bill Macdonald, 2019-05-16 In this engrossing follow-up to *The True Intrepid*, author Bill Macdonald explores secrets only hinted at in that book. Amelie Baumann, 2021-11-27 While it has been argued that anonymity in gamete donation has been brought to an end by legal changes and technological developments Amelie Baumann suggests that this is in fact still in transformation By focusing on the narratives of those who were conceived with anonymously donated gametes in the UK and Germany she examines this transformative process and the role which donor conceived persons play in it This book shows that it is not someone's decision to procreate that turns being donor conceived into a meaningful categorisation Rather kinship knowledge gets activated by the donor conceived in specific ways for being donor conceived to become a powerful identification

**The Pragmatics of Quoting Now and Then** Jenny Arendholz, Wolfram Bublitz, Monika Kirner-Ludwig, 2015-07-31 In examining the phenomenon of quoting from multiple angles The Pragmatics of Quoting Now and Then offers a fresh view on the forms functions and usage of quoting as a meta communicative act in various forms of old printed and new electronically mediated communication setting it apart from seemingly related acts like repeating or referring Recent interest in the formal copy paste quoting and ethical quoting as plagiarizing aspects of quoting has been gaining considerable momentum in linguistics and other disciplines predominantly fuelled by enormous technological progress and the impact on both the

procedure of quoting itself and its appraisal in public discourse Embracing a broad interdisciplinary perspective the authors pay special tribute to the inherent complementarity of both synchronic and diachronic perspectives With contributions pinpointing the formal and functional evolution of quoting and tracing trends in linguistic variation this volume brings together interpersonal pragmatics sociolinguistics historical cognitive and text linguistics as well as cultural studies In this way the present title provides a more comprehensive and integral understanding of the nature of quoting

**Being and Becoming in the Classroom** Wolff-Mich Roth,2002-05-30 Highlights the current chasm between teacher education theories praxeologies and the actual experience of teaching praxis Many traditional teacher education programs emphasize teaching based on reflection and deliberation yet when a new teacher is in a unique situation there is not always time to step back and look at it objectively Through Roth s extensive experience as a teacher he has learned that a teacher must live in the heat of the moment but also develop room to maneuver in the moment These skills come only by actually being in the classroom working at the elbow of experienced teachers and discussing the events of the day with other teachers Roth develops his theory by introducing the previously ignored element of temporality in teaching When there is no time out for reflection a teacher must develop on the spot decision making skills In part one he presents the ideas of being in the classroom with students and being with other teachers Other concepts that emerge are habitus perceptions and expectations that lead to action Spielraum room to maneuver in situations and relationality knowing how to act without reflection based on student teacher rapport In part two Roth asserts that when novice teachers coteach and engage in subsequent cogenerative dialoguing with seasoned professionals they are in the process of becoming in the classroom Teachers college students majoring in education and professors will all benefit immensely from this book

**Becoming Brothers** Howard Waskow,1993 The authors grew up during the 1940s and 1950s in a quiet Baltimore neighborhood and in this profoundly honest and evocative book they reconstruct their lifelong struggle to be brothers A book for the growing audience of men who are exploring their feelings of friendship and brotherhood
