Stillion, Eugene E. McDowell, 1996 Twenty nine collected essays represent a critical history of Shakespeare s play as text and as theater beginning with Samuel Johnson in 1765 and ending with a review of the Royal Shakespeare Company production in 1991 The criticism centers on three aspects of the play the love friendship debate Treatment Of Suicidal People Robert A. Neimeyer, John T. Maltsberger, Antoon A. Leenaars, 2013-02-01 Treatment of suicidal people takes three forms prevention strategies to avert conditions leading to suicide intervention treatment and care during the crisis and postvention response after the event has occurred Unlike other current literature here the focus is on the state of the art of intervention This type of examination is essential because suicidal people themselves are in need of such treatments crisis intervention psychotherapy psychopharmacology and hospitalization Written by professionals in the field the Treatment of Suicidal People allows readers to participate in a learning experience First is a case presentation of an individual Arthur Inman and his long road toward suicide as chronicled in his personal diary The second section puts forth guidelines for the evaluation of suicide risk and crisis intervention A focus on more sustained efforts in psychotherapy is next a theme which is continued in the fourth part by addressing psychiatric issues that are essential for treatment of highly disturbed and lethal patients The following section examines a number of clinical and legal issues that transcend any one population of suicidal people and any particular treatment approach or context And lastly the volume returns to Arthur Inman with case consultations providing alternative perspectives and recommendations on his treatment Suicide and related forms of self injurious behaviour can be circumvented if the involved professionals are sufficiently trained in assessment and prevention **Grief After Suicide**

John R. Jordan, John L. McIntosh, 2011-01-19 A suicide leaves behind more victims than just the individual And yet there are very few professional resources that provide the necessary background research and tools to effectively work with the survivors This edited volume addresses the need for an up to date professionally oriented summary of the clinical and research literature on the impact of suicide bereavement on survivors

The Encyclopedia of Aging George L. Maddox, 2013-12-11 Comprehensive multidisciplinary encyclopedia dealing with aging processes and older adults Intended for the educated inquirer who needs a brief authoritative introduction to key topics and issues in aging Signed entries contain cross references Contains lengthy

bibliography General index **Death 101** Sandra Helene Straub, 2016-12-05 Human beings experience many losses in a lifetime but the death of a loved one is among the most traumatic While grieving is a natural part of life it still challenges our daily existence The purpose of Death 101 A Workbook for Educating and Healing 2nd edition is to provide an understanding of dying death and bereavement that will assist individuals to cope better with and understand their own death and the death of others It enables us to examine cultural attitudes and assumptions about dying and death Death 101 2nd edition introduces the dying process grief work and ethical and legal issues while providing personal insight and sensitivity The workbook is meant as a supplement to textbooks on dying and death to accompany the academic material necessary to increase our knowledge about death education At the same time it is intended to be an independent method of working through loss a personal guide for the journey through grief Death 101 2nd edition includes activities that may be used in part or in whole sequentially or at random by individuals or a group Different professionals including counselors teachers clergy medical personnel and caregivers may utilize these activities The therapeutic exercises in Death 101 2nd edition will help the lay reader cope effectively with loss and death and allow a more effective life when faced with grief Scattered throughout the workbook are stories poems and comments from others who have traveled through the grieving process **The Encyclopedia of Aging** Linda S. Noelker, PhD, Kenneth Rockwood, MD, FRCPC, Richard L. Sprott, Ph.D., 2006-03-17 A COMPREHENSIVE RESOURCE ON GERONTOLOGY AND GERIATRICS Since its inception in 1987 The Encyclopedia of Aging has proven to be the definitive resource for scholars and students across the burgeoning and increasingly interdisciplinary fields of gerontology and geriatrics Like its three esteemed predecessors the fourth edition contains concise readable explorations of hundreds of terms concepts and issues related to the lives of older adults as well as timely coverage of the many new programs and services for the elderly Updated under the distinguished stewardship of editor in chief Richard Schulz to reflect the infusion of new information across the scientific disciplines this new edition brings readers up to the moment significant advances in biology physiology genetics medicine psychology nursing social services sociology economics technology and political science While retaining the format and standard of excellence that marked the first three editions the fourth edition encompasses a wealth of new information from the social and health sciences It contains the most current bibliography of an expanding literature an exhaustive index and extensive cross references This much anticipated update of the field's most authoritative resource will take its place as an indispensable reference for specialists and non specialists across a broad range of disciplines that now comprise the field of aging SPRINGER SERVING THE HEALTHCARE AND HELPING PROFESSIONS FOR MORE THAN 55 YEARS **Bioethics** Megan-Jane Johnstone, 2008-11-04 The 5th edition of Bioethics provides nursing students with the necessary knowledge and understanding of the ethical issues effecting nursing practice Groundbreaking in its first edition Bioethics continues its role as a vital component of nursing education and provides a framework for students to understand the obligations responsibilities and ethical challenges they will be

presented with throughout their careers This latest edition responds to new and emerging developments in the field and marks a significant turning point in nursing ethics in that it serves not only to inform but also to revitalise and progress debate on the issues presented

Control Balance Charles R Tittle, 2018-02-02 A major contribution to the field of crime deviance this volume by noted criminologist Charles R Tittle puts forth an integrated theory of deviance control balance Its central premise is that the total amount of control people are subjected to relative to the control they can exercise will affect the probability and type of their deviant behavior In developing control balance Tittle critically reviews other general theories such as anomie Marxian conflict social control differential association social learning labelling and routine activities and offers reasons why those theories are insufficient Using real world examples to illustrate his argument he contends that deviance results from the convergence of four variables each of which represents an interactive nexus of several inputs including most prominently a control imbalance The variables are predisposition motivation opportunity and constraint Control balance theory also explains six basic types of deviance ranging from predation defiance and submissiveness on one end of a control ratio continuum to exploitation plunder and decadence on the other Tittle conceives of control balance as a continuation or temporary culmination of the collective efforts of crime deviance scholars who have gone before presenting it as a vehicle for trying to achieve a fully adequate general theory of deviance

Depression ,1995-05-23 Some degree of depression is commonly experienced by such a broad spectrum of the population that depression can be viewed as the common cold of psychological disorders But there is more to depression than its psychological aspects there are also biochemical aspects All facets of depression are examined in this annotated guide which provides diverse yet easy to access information on depression The information represents more than seven decades of print and nonprint sources including books videocassettes brochures online databases audiocassettes and CD ROM materials With the aid of a comprehensive subject index this book provides easy to access facts and where to look for more detailed information It not only refers the reader to traditional information such as books and articles but also to online databases CD ROM and videocassettes An author index and list of acronyms serve to further assist the reader Although doctors nurses psychologists social workers and sociologists are the intended audience there is something in this volume for virtually anyone interested in depression

Women and Suicidal Behavior Silvia Sara Canetto, 1995 This volume fills a major gap in the literature on suicide and contrasts with previous works that have addressed suicidal behavior in women from a male perspective In the past researchers have focused on suicide mortality a less frequent and typically male phenomenon and from that have drawn conclusions about nonfatal suicidal behavior a more frequent and typically female phenomenon In

an effort to avoid inherent research biases in suicidology this book critically reviews the most current research on suicide and women from a woman s perspective The contributors consider the social and cultural factors involved including age related and ethnic issues and also provide useful intervention strategies This volume is a worthy addition to the libraries of clinicians academics and students concerned with the psychology of women suicide and death studies Suicide and the Unconscious Antoon A. Leenaars, David Lester, 1996 Today there is a wealth of experience in the study of suicide from many diverse perspectives including anthropology criminology epidemiology medicine psychiatry psychology and sociology However when unconscious processes are neglected research fails to provide us with an adequate understanding of the wish to kill oneself **Southern California Review of Law and Women's Studies** ,1998
