Nuclear Enchantment:

Jungian Arts-Based Research and "The Nuclear Enchantment of New Mexico" Susan Rowland, Joel Weishaus, 2020-07-26 Jungian Arts Based Research and The Nuclear Enchantment of New Mexico provides clear accessible and in depth guidance both for arts based researchers using Jung s ideas and for Jungian scholars undertaking arts based research The book provides a central extended example which applies the techniques described to the full text of Joel Weishaus prose poem The Nuclear Enchantment of New Mexico published here for the first time Designed as a how to book Jungian Arts Based Research and The Nuclear Enchantment of New Mexico explores how Jung contributes to the new arts based paradigm in psychic functions such as intuition by providing an epistemology of symbols that includes the unconscious and research strategies such as active imagination Rowland examines Jung s The Red Book as an early example of Jungian arts based research and demonstrates how this practice challenges the convention of the detached researcher by providing holistic knowing Arts based researchers will find here a psychic dimension that also manifests in transdisciplinarity while those familiar with Jung s work will find in arts based research ways to foster diversity for a decolonized academy This unique project will be essential reading for Jungian and post Jungian academics and scholars arts based researchers of all backgrounds and readers interested in transdisciplinarity

Land of Nuclear Enchantment Lucie Genay, 2019-04 Ground zero Land of cultural and economic survival The skeleton of a domestic nuclear empire The manifest destiny of atomic scientists The atomic sun shines over the desert The nuclear golden goose A federal sponsor Cloaked in secrecy Dangerous practices toxic legacies The sociocultural impacts of a scientific conquest Land lawsuits and waste Memory

Undermining Lucy R. Lippard, 2006-09-13 A marvelous slim book that weaves ideas facts images and histories into a whole about the ecology of the manmade world Rebecca Solnit In Undermining the award winning author art historian and social critic Lucy R Lippard delivers another trademark work that combines text and full color images to explore the intersection of art the environment geography and politics Kirkus Reviews Working from her own experience of life in a New Mexico village and inspired by the gravel pits in the surrounding landscape Lippard addresses a number of fascinating themes including fracking mining land art adobe buildings ruins Indian land rights the Old West tourism photography and water In her meditations she illuminates the relationship between culture industry and the land From threatened Native American sacred sites to the history of uranium mining she offers a skeptical examination of the subterranean economy Featuring more than two hundred gorgeous color images Undermining offers a provocative new perspective on the relationship between art and place in a rapidly shifting society Lippard s strength lies in the depth of her commitment her dual loyalty to tradition and modernity and her effort to restore the broken connection between the two Suzi Gablik The New York Times Book Review

National Imaginaries, American Identities Larry J. Reynolds, Gordon Hutner, 2021-03-09 From the American Revolution to the present the United States has enjoyed a rich and persuasive visual

culture These images have constructed sustained and disseminated social values and identities but this unwieldy sometimes untidy form of cultural expression has received less systematic attention than other modes of depicting American life Recently scholars in the humanities have developed a new critical approach to reading images and the cultural work they perform This practice American cultural iconography is generating sophisticated analyses of how images organize our public life The contributions to this volume exhibit the extraordinary scope and interpretive power of this interdisciplinary study while illuminating the dark corners of the nation's psyche Drawing on such varied texts and visual media as daguerreotypes political cartoons tourist posters and religious artifacts these essays explore how pictures and words combine to teach us who we are and who we are not They examine mimesis in elegant portraits of black Freemasons industrial age representations of national parks and postwar photographs of atomic destruction They consider how visual culture has described and disclosed the politics of racialized sexuality whether subconsciously affirming it in the shadows of film noir or deliberately contesting it through the interethnic incest of John Sayles's *Lone Star* Students of literature film and history will find that these essays extend the frontier of American studies The contributors are Maurice Wallace Dennis Berthold Alan Trachtenberg Shirley Samuels Jenny Franchot Cecelia Tichi Eric Lott Bryan C Taylor and Jos E Lim n **Under the Cap of**

Invisibility Lucie Genay, 2025-05-13 Pantex was built during World War II near the town of Amarillo Texas The site was converted early in the Cold War to assemble nuclear weapons and produce high explosives For nearly fifty years Pantex has been the sole assembly and disassembly plant for nuclear weapons in the United States Today most of the activities of the plant consist of the manufacture of high explosive components and the dismantlement or life extension of weapons including retrofitting aging warheads in the United States's arsenal Unlike the much more famous nuclear weapons production sites at Los Alamos Oak Ridge Hanford and Rocky Flats the Pantex plant has drawn little attention hidden under a metaphoric cap of invisibility Lucie Genay now lifts that invisibility cap to give the world its first in depth look at Pantex and the people who have spent their lives as neighbors and employees of this secretive industry The book investigates how Pantex has impacted local identity by molding elements of the past into the guaranty of its future and its concealment It further examines the multiple facets of Pantexism the reasons for embracing nuclear weapons production as a solution to economic woes the resulting dependence on this industry and the unconditional support for the facility through the voices of native and adoptive Panhandlers

Museum Frictions Ivan Karp, Corinne A. Kratz, Lynn Szwaja, Tomas Ybarra-Frausto, 2006-12-07 Museum Frictions is the third volume in a bestselling series on culture society and museums The first two volumes in the series *Exhibiting Cultures* and *Museums and Communities* have become defining books for those interested in the politics of museum display and heritage sites Another classic in the making Museum Frictions is a lavishly illustrated examination of the significant and varied effects of the increasingly globalized world on contemporary museum heritage and exhibition practice The contributors scholars artists and curators present case studies drawn from Africa Australia North and South America

Ecocide Franz Broschimmer,2002-09-20 We live in an age of ecocide Changes of enormous ecological significance are occurring on our planet the ozone layer is beginning to disintegrate Since 1970 the world s forests have almost halved A quarter of the world s fish have been depleted 70% of biologists believe the world is now in the midst of the fastest mass

extinction of species in the planet's 4.5 billion year history Biodiversity loss is rated as a more serious environmental problem than the depletion of the ozone layer global warming or pollution and contamination How have we come to this and what can be done to conserve our environment for the future Ecocide examines the facts behind the figures to offer a disturbing account of the ecological impact that the human species has on the planet It shows how we are wilfully destroying our world Highlighting important countermovements who are working for ecological democracy this unique book is essential for anyone who cares about conserving our environment for the future

Moving Images Jasmine Alinder, 2009 When the American government began impounding Japanese American citizens after Pearl Harbor photography became a battleground The control of the means of representation affected nearly every aspect of the incarceration from the mug shots criminalizing Japanese Americans to the prohibition of cameras in the hands of inmates The government also hired photographers to make an extensive record of the forced removal and incarceration In this insightful study Jasmine Alinder explores the photographic record of the imprisonment in war relocation centers such as Manzanar Tule Lake Jerome and others She investigates why photographs were made how they were meant to function and how they have been reproduced and interpreted subsequently by the popular press and museums in constructing versions of public history Alinder provides calibrated readings of the photographs from this period including works by Dorothea Lange Ansel Adams Manzanar camp inmate Toyo Miyatake who constructed his own camera to document the complicated realities of camp life and contemporary artists Patrick Nagatani and Masumi Hayashi Illustrated with more than forty photographs *Moving Images* reveals the significance of the camera in the process of incarceration as well as the construction of race citizenship and patriotism in this complex historical moment

The Mobilized American West, 1940-2000 John M. Findlay, 2023-07 In the years between 1940 and 2000 the American Far West went from being a relative backwater of the United States to a considerably more developed modern and prosperous region one capable of influencing not just the nation but the world By the dawn of the twenty first century the population of the West had multiplied more than four times since 1940 and western states had transitioned from rural to urban becoming the most urbanized section of the country Massive investment both private and public in the western economy had produced regional prosperity and the tourism industry had undergone massive expansion altering the ways Americans identified with the West In *The Mobilized American West* 1940

2000 John M Findlay presents a historical overview of the American West in its decades of modern development During the years of U S mobilization for World War II and the Cold War the West remained a significant distinct region even as its development accelerated rapidly and in many ways it became better integrated into the rest of the country By examining events and trends that occurred in the West Findlay argues that a distinctive region wide political culture developed in the western states from a commitment to direct democracy the role played by the federal government in owning and managing such a large amount of land and the way different groups of westerners identified with and defined the region While illustrating western distinctiveness Findlay also aims to show how in its sustaining mobilization for war the region became tethered to the entire nation more than ever before but on its own terms Findlay presents an innovative approach to viewing the American West as a region distinctive of the United States one that occasionally stood ahead of at odds with and even in defiance of the nation

Reading Aridity in Western American Literature Jada Ach, Gary Reger, 2020-12-14 In literary and cinematic representations deserts often betoken collapse and dystopia Reading Aridity in Western American Literature offers readings of literature set in the American Southwest from ecocritical and new materialist perspectives This book explores the diverse epistemologies histories relationships futures and possibilities that emerge from the representation of American deserts in fiction film and literary art and traces the social cultural economic and biotic narratives that foreground deserts prompting us to reconsider new provocative modes of human nonhuman engagement in arid ecogeographies

Digging Earth Catherine Bernard, 2024-02-09 Digging Earth Extractivism and Resistance on Indigenous lands of the Americas is a collection of essays and artists contributions that documents the practices of extractivism on indigenous lands of the American continent and the opposition to the politics of land appropriation and exploitation by indigenous movements activists and artists Authors and artists address the extractivism of neo colonial operations its impact on local and indigenous communities and their environment while tracing back its practices to settler colonialism in the Americas and the vision of the natural world as ready to plunder In addition to the economic impact some contributions look at extractivism from the point of view of the extraction of cultural knowledge and ontologies Artists and authors highlight topics of indigenous sovereignty land rights environmental justice the stewardship of the land and the history of indigenous environmental practices The diversity of the contributors backgrounds brings fresh perspectives to the issues surrounding the practices of the extractive industries and the exploitation of indigenous lands and resources Their reflections and analyses convey the urgency of rethinking our politics towards the earth and its resources as we are warned of an approaching collective ecocide

Exploring Color Photography Robert Hirsch, 2014-12-17 Robert Hirsch s Exploring Color Photography is the thinking photographer s guide to color imagemaking Now in its sixth edition this pioneering text clearly and concisely instructs students and intermediate photographers in the fundamental aesthetic and technical building blocks needed to create thought provoking digital and analog color photographs Taking both a conceptual and pragmatic approach the book avoids

getting bogged down in complex ever changing technological matters allowing it to stay fresh and engaging Known as the Bible of Color Photography its stimulating assignments encourage students to be adventurous and to take responsibility for learning and working independently The emphasis on design and postmodern theoretical concepts stresses the thought process behind the creation of intriguing images It s extensive and inspiring collection of images and accompanying captions allow makers to provide insight into how photographic methodology was utilized to visualize and communicate their objectives The text continues to deliver inspiring leadership in the field of color photography with the latest accurate information ideas commentary history a diverse collection of contemporary images and expanded cellphone photography coverage A Problem Solving and Writing chapter offers methods and exercises that help one learn to be a visual problem solver and to discuss and write succinctly about the concepts at the foundation of one s work Exploringcolorphotography.com the companion website has been revamped and updated to feature more student and teacher resources including a new web based timeline As It Happened A Chronological History of Color Photography Discordant Memories Alison Fields, 2020-02-06 On two separate days in August 1945 the United States dropped atomic bombs over the Japanese cities of Hiroshima and Nagasaki As the seventy fifth anniversary of these cataclysmic bombings draws near American and Japanese citizens are seeking new ways to memorialize these events for future generations In Discordant Memories Alison Fields explores through the lenses of multiple disciplines ongoing memories of the two bombings Enhanced by striking color and black and white images this book is an innovative contribution to the evolving fields of memory studies and nuclear humanities To reveal the layered complexities of nuclear remembrance Fields analyzes photography film and artworks offers close readings of media and testimonial accounts traces site visits to atomic museums in New Mexico and Japan and features artists who give visual form to evolving memories According to Fields such expressions of memory both inspire group healing and expose struggles with past trauma Visual forms of remembrance such as science museums peace memorials photographs and even scars on human bodies serve to contain or manage painful memories And yet the author claims distinct cultures lay claim to vastly different remembrances of nuclear history Fields analyzes a range of case studies to uncover these discordant memories and to trace the legacies of nuclear weapons production and testing Her subjects include the Bradbury Science Museum in Los Alamos New Mexico the Hiroshima Peace Memorial Museum in Japan the atomic photography of Carole Gallagher and Patrick Nagatani and artworks and experimental films by Will Wilson and Nanobah Becker In the end Fields argues the trauma caused by nuclear weapons can never be fully contained For this reason commemorations of their effects are often incomplete and insufficient Differences between individual memories and public accounts are also important to recognize Discordant Memories illuminates such disparate memories in all their rich complexity
