The Future of East Asia Peter Hayes, Chung-In Moon, 2017-12-04 This book collects some of the most influential scholars in international relations who focus on Asia globally in exploring the challenges of diplomacy faced in Asia as US policy drastically changes The president elect has suggested policies which if implemented would radically transform the way that the region functions what will this mean in practice China's government is also retrenching nationalist positions what is the future of China and what does that mean for the region A wide range of distinguished scholars concerned about the future have contributed their thoughts in an attempt to spark a global dialogue

Nuclear Proliferation in Northeast Asia A. O'Neil, 2007-10-01 To what extent does the failing strategy of nonproliferation pose serious challenges for Northeast Asia's security environment Are there alternative strategies for managing nuclear weapons in the region Should the presence of nuclear weapons in Northeast Asia necessarily be seen in exclusively negative terms as many experts believe

Routledge Handbook of Nuclear Proliferation and Policy Joseph Pilat, Nathan Busch, 2015-05-15 This new Handbook is a comprehensive examination of the rich and complex issues of nuclear proliferation in the early 21st century The future of the decades long effort to prevent the further spread of weapons of mass destruction is at a crossroads today If international nonproliferation efforts are to be successful an integrated multi tiered response will almost certainly be necessary A serious thorough and clear eyed examination of the range of threats challenges and opportunities facing the international community is a necessary first step This Handbook which presents the most up to date analysis and policy recommendations on these critical issues by recognized leading scholars in the field intends to provide such an examination The volume is divided into three

major parts Part I presents detailed threat assessments of proliferation risks across the globe including specific regions and countries Part II explains the various tools developed by the international community to address these proliferation threats Part III addresses the proliferation risks and political challenges arising from nuclear energy production including potential proliferation by aspiring states and nonstate groups This Handbook will be of great interest to students and practitioners of nuclear proliferation arms control global governance diplomacy and global security and IR general Getting to Nuclear Zero in Northeast Asia Gregory Kulacki, Keiko Nakamura, Jae-Jung Suh, Tatsujiro Suzuki, 2025-06-27 This book presents realistic alternatives to security policies based on nuclear weapons for the Northeast Asian region Northeast Asian governments and populations feel less secure than ever and the governments of the USA Russia China and North Korea are all expending considerable resources on increasing their nuclear arsenals This book presents realistic alternatives to security policies dependent on threats to use nuclear weapons and demonstrations of the resolve to use them in a war Those alternatives are grounded in the well established concept of common security The long term goal of these alternatives is the establishment of a nuclear weapon free zone in Northeast Asia This book demonstrates that lessons learned during the creation of existing nuclear weapon free zones can be successfully adapted using the proposed alternatives to nuclear threats to the considerably more challenging circumstances that exist in contemporary Northeast Asia More importantly it makes the case that the mere process of pursuing this objective even if the goal is not realized for many decades would help facilitate regional risk reduction measures and global nuclear arms control measures that could lead in the long term to the general and complete disarmament promised by the Nuclear Nonproliferation Treaty NPT and the Treaty on the Prohibition of Nuclear Weapons TPNW of 2021 This book will be of interest to students of nuclear proliferation Asian security foreign policy and International Relations *Japan's Security Policy and Arms Control in North East Asia* Yasuhide Yamanouchi, 1991

America's Challenge Michael D. Swaine, 2012-05-01 The emergence of the People's Republic of China on the world scene constitutes the most significant event in world politics since the end of World War II As the world's predominant political economic and military power the United States faces a particularly significant challenge in responding to China's rising power and influence especially in Asia Offering a fresh perspective on current and future U.S. policy toward China Michael Swaine examines the basic interests and beliefs behind U.S. China relations recent U.S. and Chinese policy practices in seven key areas and future trends most likely to affect U.S. policy American leaders he concludes must reexamine certain basic assumptions and approaches regarding America's position in the Western Pacific integrate China policy more effectively into a broader Asian strategy and recalibrate the U.S. balance between cooperative engagement and deterrence toward Beijing

Guide to Specialists, 2009 United States Institute of Peace, 2009 Guide to specialists 2008 United States Institute of Peace Energy Security in Asia and Eurasia Mike M. Mochizuki, Deepa M. Ollapally, 2016-12-01 Many states appear to have strong sentiment on energy security and energy transit vulnerability Some analysts see the rapidly increasing demand for energy and competition for energy resources leading to nationalistic energy policies Others argue that global trends with efficient energy markets and growing options on renewables suggest more relaxed energy outlooks This book focuses on Asia where global demand for energy is now concentrated in the aspiring and rising powers of the region China India Japan and South Korea and also recognises the importance of Russia as a growing energy supplier Contributions by experts in the field provide detailed and parallel case studies Shedding light on the ongoing debate in the literature regarding energy outlooks of major Asian states they analyse whether energy policies are expected to evolve along market oriented cooperative lines or more competitive and even destructive mercantile nationalist lines The book argues that states are not unitary actors even in the key energy security arena and there are competing and contrasting viewpoints in Asian states on energy security It suggests that domestic debates structure thinking on energy security making energy policy more contingent than assumed by purely market or geopolitical logics Providing a strong contribution to comparative energy security studies the book fills an important gap in the literature on energy and national security and offers a basis for conducting further inter state interactive analysis It will be of interest to researchers on Asian Studies energy politics and international relations **Guide to Specialists** United States Institute of Peace, **Security Policy Dynamics** Byung-ok Kil, 2017-10-05 This title was first published in 2001 Byung ok Kil s thorough analysis deals with both the broad area of public policy and the specific topic of national security policy change in Korea Using an historical comparative approach he tests the relative importance of international and domestic developments as determinants of security policy change Drawing extensively on carefully selected sources of quantitative and qualitative data including original documents and interviews this engaging text is of theoretical methodological and applied policy relevance to the academic community and of substantive interest to a broader audience of governmental officials in national security and related policy areas
