Nuclear Power Struggles Industrial Competition And Proliferation Control:

Nuclear Power Struggles William Walker, Måns Lönnroth, 2025-03-03 First published in 1983 Nuclear Power Struggles now with a new preface by the authors analyses the strains within the nuclear reactor industry and assesses the scale and location of future markets It looks at the strengths and weaknesses of leading exporters and considers what can be done to avoid a deterioration of trade behaviour The book examines the merits of alternative approaches to nuclear trade from political and strategic standpoints It highlights policy differences between suppliers and especially between the USA and Europe which threaten to place further stress on transatlantic relations It addresses the problems of moving from a non proliferation regime dominated by the USA and USSR to one in which responsibilities must be more widely shared and focuses on the crucial role of France This volume will be an essential reading for policymakers in the government industry and international organisations and for all those concerned with the vital issues of nuclear proliferation and industrial adjustment

Global Nuclear Energy Risks Bennett Ramberg, 2019-04-08 This book addresses the strategic challenges and proposes alternative international remedies set in historical and regulatory contexts that suggest that nations should increase international scrutiny of atomic power in order to minimize risks

South Africa and Nuclear Proliferation J.D.L. Moore, 1987-06-18 *International Nuclear Nonproliferation System* John Simpson, Anthony G. McGrew, 1984-06-18

Safeguarding the Atom David Fischer, Paul Szasz, 2020-11-19 Safeguards play a key role in verifying the effectiveness of restraints on the spread of nuclear weapons Originally published in 1985 this book is a study of the safeguards system of the International Atomic Energy Agency an important element of the non proliferation regime It breaks new ground by focusing on the politics of safeguards especially the political problems of the IAEA and of the day to day application of safeguards It contains a critical appraisal and proposals for ways of improving existing procedures and of adapting them to the political and technological changes of recent years Safeguarding the Atom gives an analysis of the following questions What are IAEA safeguards and how do they work How effective are they How can they be reinforced What sanctions can be imposed in the event of non compliance IAEA safeguards represent the world's first and so far only attempt to verify an arms control

agreement by systematic on site inspection and their applicability to other arms control measures is examined

A Web of Prevention Brian Rappert, Caitriona McLeish, 2012-05-16 Web of Prevention provides a timely contribution to the current debate about life science research and its implications for security It is an informative guide for both experts and the public It is a forward looking contribution covering both ends of the equation and creates momentum for the current discussion on effective preventive measures and effective control measures While there are no guarantees for preventing misuse there are nonetheless crucial steps the world community can take towards the overarching goal of a global network for the life sciences This book sheds light on concrete steps toward the achievement of this worthy goal This book with its collection of essays provides an in depth analysis of the various mutually reinforcing elements that together create and strengthen a web

of prevention or of assurance that is vital to ensure that the advances in the life sciences are not misused to cause harm All those engaged in the life sciences and in policy making in governments around the world should read this book so they can take steps to strengthen the web preventing biological weapons From the Foreword by Dr Gabriele Kraatz Wadsack Chief Weapons of Mass Destruction Branch Office for Disarmament Affairs United Nations Since September 11 2001 in many countries renewed attention has been given to how research in the life sciences might inadvertently or intentionally facilitate the development of biological or chemical weapons This state of the art volume examines the full extent of the issues and debates Coverage includes an overview of recent scientific achievements in virology microbiology immunology and genetic engineering with a view to asking how they might facilitate the production of weapons of mass destruction by state sub state or terrorist organizations Consideration is given to what we have and haven't learned from the past Employing both academic analysis and reflections by practitioners the book examines the security inspired governance regimes for the life sciences that are under development Ultimately the authors examine what is required to form a comprehensive and workable web of prevention and highlight the importance of encouraging discussions between scientists policy makers and others regarding the governance of vital but potentially dangerous research Dr Graham S Pearson Visiting Professor of International Security University of Bradford UK and previously Director General Chemical and Biological Defence Establishment UK

The Politics of CANDU Exports Duane Bratt, 2006-01-01 This book provides the most comprehensive history of the export of CANDU reactors to date A pressurized heavy water natural uranium power reactor designed and marketed by Atomic Energy of Canada Limited the CANDU reactor has played a significant part in Canada's international trade In this history Duane Bratt examines every CANDU sale as well as some important unsuccessful sales attempts from 1956 to the present He also outlines the impact that changes in the international political climate such as the creation and strengthening of the international nuclear non proliferation regime and the increasing importance of human rights and environmental protection have had on CANDU exports over the last fifty years

War, Torture and Terrorism Anthony F. Lang, Jr., Amanda Russell Beattie, 2008-10-27 This book seeks to demonstrate how rules not only guide a variety of practices within international politics but also contribute to the chaos and tension on the part of agents in light of the structures they sustain Four central themes practice legitimacy regulation and responsibility reflect different dimensions of a rule governed political order The volume does not provide a single new set of rules for governing an increasingly chaotic international system Instead it provides reflections upon the way in which rules can and cannot deal with practices of violence While many assume that obeying the rules will bring more peaceful outcomes the chapters in this volume demonstrate that this may occur in some cases but more often than not the very nature of a rule governed order will create tensions and stresses that require a constant attention to underlying political dynamics This wide ranging volume will be of great interest to students of International Law International Security and IR theory

The Relations between Defence and Civil Technologies Philip

Gummett, Judith Reppy, 2013-03-09 This book arises from a meeting held at Wiston House Sussex UK in September 1987 The meeting brought together academic governmental and industrial experts from eight countries to discuss the increasingly important subject of the relations between civil and defence technologies It was primarily funded under the Advanced Research Workshops Programme of NATO's Scientific Affairs Division and was the first science policy workshop funded by the Programme Additional financial support came from the Leverhulme Trust The choice of topic of speakers and finally of papers to be published was entirely ours The conclusions reached were our own and those of the participants They were not in any way guided by NATO nor do they represent NATO policy We speak for all the participants in offering our thanks to the NATO Scientific Affairs Division especially Secretary General Durand and Dr Craig Sinclair for their generosity and encouragement Without them this book would not exist We thank the Leverhulme Trust for enabling assistance to be provided to the Workshop Directors in the form of Iain Bate who himself played a major part in the success of the meeting The staff of Wiston House must also be thanked for providing an admirable environment for the meeting For secretarial support prior to the meeting we thank Gill Miller and Lesley Price Finally we offer special thanks to Mrs Yvonne Aspinall for converting all the papers in whatever state they were presented into camera ready copy with such professionalism and good humour

Encyclopedia of Government and Politics M. E. Hawkesworth, Maurice Kogan, 1992

Corporate Governance and the Nuclear Industry Barry Pemberton, 2015-09-16 Corporate Governance and the Nuclear Industry explores the UK nuclear Legacy governance issues associated with the decommissioning of a range of early generation civil nuclear facilities This book traces how we got here and the risks that have been taken whilst presenting new research and thinking that is required to manage our nuclear Legacy The book addresses a new analytical approach using notions of governance to review key historic events This approach analyses these events using concepts of stakeholder control accountability and regulation Using these concepts and undertaking a more detailed analysis of the Legacy's current governance arrangements the conventional public sector based solutions that attempt to harness private sector expertise this book will contrast these with government responses to determine the degree of control over the Legacy and any possible control issues Corporate Governance and the Nuclear Industry concludes that we need to recognise the legacy's problems as exceptional rather than prosaic and suggests that this requires exceptional governance solutions rather than the current form that is clearly failing

Indian Nuclear Policy Harsh V. Pant, Yogesh Joshi, 2018-07-16 India has come a long way from being a nuclear pariah to a de facto member of the nuclear club The transition in its nuclear identity has been accompanied by its transformation into a major economic power and underlines a pragmatic turn in its foreign policy thinking This book provides a historical narrative of the evolution of India's nuclear policy since 1947 as the country continues its pursuit for complete integration into the global nuclear order Situating India's nuclear behaviour in this context the book explains how India's engagement with the atom is unique in international nuclear history and politics Aided by declassified archival

documents and oral history interviews it focuses on how status security domestic politics and the role of individuals have played a key role in defining and shaping India's nuclear trajectory policy choices and their consequences

Nuclear Non-Proliferation John Simpson, 1987-11-12 Originally published in 1987 this book is concerned with the possible acquisition of nuclear weapons by states not in possession of them and the international concern caused by this Since 1968 the international arrangements designed to prevent this had been based upon the Nuclear Non Proliferations Treaty which had over 130 states as signatories at the time of publication The initial period of application of this treaty ended in 1995 and a conference was held then to discuss its extension This volume was the first public attempt to explore the problems surrounding this conference to examine issues likely to determine its outcome and to analyse the consequences if the conference were to fail to reach any agreement on extension The international contributors were among the foremost students and practitioners in the area and brought unique knowledge and experience to the subject The result was a pathbreaking attempt to investigate a critical problem for international security in the 1990s and to identify methods whereby international nuclear non proliferation arrangements could be extended into the next century

Anglo-American Relations Alan Dobson, Steve Marsh, 2013-01-17 This book provides an examination of contemporary Anglo American relations Sometimes controversially referred to as the Special Relationship Anglo American relations constitute arguably the most important bilateral relationship of modern times However in recent years there have been frequent pronouncements that this relationship has lost its specialness This volume brings together experts from Britain Europe and North America in a long overdue examination of contemporary Anglo American relations that paints a somewhat different picture The discussion ranges widely from an analysis of the special relationship of culture and friendship to an examination of both traditional e g nuclear relations and more recent e g environment policies Contemporary developments are discussed in the context of longer term trends and contributing authors draw upon a range of different disciplines including political science diplomacy studies business studies and economics Coupled with a substantive introduction and conclusion the result is an insightful and engaging portrayal of the complex Anglo American relationship The book will be of great interest to students of US and UK foreign policy diplomacy and international relations in general
