### Act on the Safe Use of Nuclear Energy (ASUNE)

- The Act regulates the social relations associated with the State regulation of the safe use of nuclear energy and ionizing radiation and with the safety of radioactive waste management and spent fuel management, as well as the rights and duties of licensees implementing these activities, to ensure nuclear safety, radiation protection and physical protection.
- Adopted by the Parliament 2002, Amended and supplemented 2013

### Regulations

- 21 Regulations on implementation of the ASUNE
- Adopted by the Council of Ministers

### Regulatory guides

- 10 Regulatory guides - The safety guides interpret the requirements established by the regulations on the application of the ASUNE. Their objective is to help the applicants to better understand the criteria used by the BNRA to assess the set of documents justifying the safety of the facilities and activities, and the practice ensuring safety. The Guides are of a recommendatory nature. The application and use of other methods and criteria for justification of safety is acceptable. In such cases the BNRA needs to be adequately convinced that safety has not been compromised.
- Issued by the BNRA Chairman
