Osiris Vol 17 Science And Civil Society:

Science, Literature and Rhetoric in Early Modern England David Burchell, 2017-03-02 These essays throw new light on the complex relations between science literature and rhetoric as avenues to discovery in the seventeenth and eighteenth centuries Scholars from a variety of disciplinary backgrounds examine the agency of early modern poets playwrights essayists philosophers natural philosophers and artists in remaking their culture and reforming ideas about human understanding Analyzing the ways in which the works of such diverse writers as Shakespeare Bacon Hobbes Milton Cavendish Boyle Pope and Behn related to contemporary epistemological debates these essays move us toward a better understanding of interactions between the sciences and the humanities during a seminal phase in the emergence of modern Western thought

Politics and Kinship Erdmute Alber, Tatjana Thelen, 2021-12-15 *Politics and Kinship* A Reader offers a unique overview of the entanglement of these two categories in both theoretical debates and everyday practices The two despite many challenges are often thought to have become separated during the process of modernisation Tracing how this notion of separation becomes idealised and translated into various contexts this book sheds light on its epistemological limitations Combining otherwise distinct lines of discussion within political anthropology and kinship studies the selection of texts covers a broad range of intersecting topics that range from military strategy DNA testing and child fostering to practices of kinning the state Beginning with the study of politics the first part of this volume looks at how its separation from kinship came to be considered a modern phenomenon with significant consequences The second part starts from kinship showing how it was made into a separate and apolitical field an idea that would soon travel and be translated globally into policies The third part turns to reproductions through various transmissions and future making projects Overall the volume offers a fundamental critique of the epistemological separation of politics and kinship and its shortcomings for teaching and research Featuring contributions from a broad range of regional temporal and theoretical backgrounds it allows for critical engagement with knowledge production about the entanglement of politics and kinship The different traditions and contemporary approaches represented make this book an essential resource for researchers instructors and students of anthropology

The Russian Medical Humanities Melissa L. Miller, Konstantin Starikov, 2021-09-20 For the first time in English *The Russian Medical Humanities Past and Present* argues that the medical humanities is a vibrant and emerging field in Post Soviet Russia In a unique collaboration that brings together diverse experts from both Russia and America this

volume showcases the Russian medical humanities as an interdisciplinary project that combines insights from philosophy bioethics anthropology history and literature in order to provide more compassionate medical care to patients in the twenty first century The chapters in this volume explore past and present humanistic trends in Russian medical training as well as examine how Russian authors and cultural figures some physician writers some without professional background in medicine of any kind have positioned healthy and ailing bodies in their creative work This volume s contributors who range from literary scholars educators translators and poets to medical historians librarians museum curators and social workers provide empathetic insight into the experience of medical encounters which all cultures grapple with Their work will prove useful not only to current and future health practitioners but also to a broader audience of readers who are seeking to make compassionate and informed decisions about healthcare for their loved ones and for themselves **Chinese Science**

Fiction Mingwei Song,Nathaniel Isaacson,Hua Li,2024-04-27 This volume brings together emerging approaches and addresses shifting paradigms in Chinese science fiction studies offering a window on fan cultures internet fiction gender eco criticism post humanism and biomedical discourse These studies present a second wave of Chinese sf studies re evaluating the canon of Chinese sf print and cinematic production and expand the range of critical approaches to the subject The structure of the volume is both chronological and theme focused These studies also demonstrate that Chinese science fiction represents a significant contribution to modern Chinese cultural production both in terms of its value speaking powerfully to our modern condition and its sheer volume in terms of production and consumption Chinese science fiction speaks to both China s rapidly shifting reality its political multiplicity and its formless future voicing the anticipations and anxieties of a new epoch filled with accelerating alterations and increasing uncertainty Comparative Archaeologies Ludomir R

Lozny,2011-04-06 Archaeology as with all of the social sciences has always been characterized by competing theoretical propositions based on diverse bodies of locally acquired data In order to fulfill local regional expectations different goals have been assigned to the practitioners of Archaeology in different regions These goals might be entrenched in local politics or social expectations behind cultural heritage research This comprehensive book explores regional archaeologies from a sociological perspective to identify and explain regional differences in archaeological practice as well as their existing similarities This work covers not only the currently dominant Anglo American archaeological paradigm but also Latin America Western and Eastern Europe Asia and Africa all of which have developed their own unique archaeological traditions The contributions in this work cover these alternative archaeologies in the context of their own geographical political and socio economic settings as well as the context of the currently accepted mainstream approaches **Becoming China**

Jeanne-Marie Gescher,2017-11-09 An account of China s past and present how a small group of people at the edges of the Yellow River evolved to become the state of China today Despite decades of a relatively open door relationship with the rest of the world China is still a mystery to many outside it How does China work what does it want why does it want it and what

does its rise to global power mean for the rest of the world As the twenty first century looks set to be the stage for a battle about competing geopolitical ideals these are urgent questions for everyone with an interest in what the future might bring A world of its own China is both a microcosm and an amplification of questions and events in the wider world China s story offers us an opportunity to hold a mirror to ourselves to our own assumptions to our values and to our ideas about the most important question of all what it means to be human in the world of the state Epic in scope this is the story of how China became the state it is today and how its worldview is based on what has gone before Weaving together inspirations ideas wars and dreams Jeanne Marie Gescher reveals the heart of what it means to be Chinese and how the past impacts the present

When Science & Christianity Meet David C. Lindenberg, Ronald L. Numbers, 2024-05-31 This book in language accessible to the general reader investigates twelve of the most notorious most interesting and most instructive episodes involving the interaction between science and Christianity aiming to tell each story in its historical specificity and local particularity Among the events treated in When Science and Christianity Meet are the Galileo affair the seventeenth century clockwork universe Noah s ark and flood in the development of natural history struggles over Darwinian evolution debates about the origin of the human species and the Scopes trial Readers will be introduced to St Augustine Roger Bacon Pope Urban VIII Isaac Newton Pierre Simon de Laplace Carl Linnaeus Charles Darwin T H Huxley Sigmund Freud and many other participants in the historical drama of science and Christianity Taken together these papers provide a comprehensive survey of current thinking on key issues in the relationships between science and religion pitched as the editors intended at just the right level to appeal to students Peter J Bowler Isis

Pride, Manners, and Morals Andrea Branchi, 2021-11-29 In Pride Manners and Morals Bernard Mandeville s Anatomy of Honour Andrea Branchi offers a reading of the Anglo Dutch physician and thinker s philosophical project from the hitherto neglected perspective of his lifelong interest in the theme of honour Through an examination of Mandeville s anatomy of early eighteenth century beliefs practices and manners in terms of motivating passions the book traces the development of his thought on human nature and the origin of sociability By making honour and its roots in the desire for recognition the central thread of Mandeville s theory of society Andrea Branchi offers a unified reading of his work and highlights his relevance as a thinker far beyond the moral problem of commercial societies opening up new perspectives in Mandeville s studies

Science and Societies in Frankfurt am Main Ayako Sakurai, 2016-09-12 The nineteenth century saw science move from being the preserve of a small learned elite to a dominant force which influenced society as a whole Sakurai presents a study of how scientific societies affected the social and political life of a city As it did not have a university or a centralized government Frankfurt am Main is an ideal case study of how scientific associations funded by private patronage for the good of the local populace became an important centre for natural history
