Actor as Storyteller is intended for serious beginning actors. It opens with an overview explaining the differences between theater and its hybrid mediums, the part an actor plays in each of those mediums. It moves on to the acting craft itself with a special emphasis on analysis and choice making, introducing the concept of the actor as storyteller, then presents the specific tools an actor works with. Next, it details the process an actor can use to prepare for scene work and rehearsals, complete with a working plan for using the tools discussed. The book concludes with a discussion of mental preparation, suggestions for auditioning, a process for rehearsing a play, and an overview of the realities of show business. Included in this updated edition are: A detailed examination of script analysis of the overall play and of individual scenes; A sample of an actor's script filled with useful script notations; Two new short plays, one written especially for this text; Updated references, lists of plays and recommended further reading.

The Cambridge Introduction to Theatre Directing Christopher Innes, Maria Shevtsova, 2013-05-02 This Introduction is an exciting journey through the different styles of theatre that twentieth century and contemporary directors have created. It discusses artistic and political values, rehearsal methods, and the diverging relationships with actors, designers, other collaborators, and audiences, and treatment of dramatic material. Offering a compelling analysis of theatrical practice, Christopher Innes and Maria Shevtsova explore the different rehearsal and staging principles and methods of such earlier groundbreaking figures as Stanislavsky, Meyerhold, and Brecht, revising standard perspectives on their work. The authors analyse as well a diverse range of innovative contemporary directors including Ariane Mnouchkine, Elizabeth LeCompte, Peter Sellars, Robert Wilson, Thomas Ostermeier, and Oskar Koronovos among many others. While tracing the different roots of directorial practices across time and space and discussing their artistic, cultural, and political significance, the authors provide key examples of the major directorial approaches and reveal comprehensive patterns in the craft of directing and the influence and collaborative relationships of directors.

Acting Companies and their Plays in Shakespeare's London Siobhan Keenan, 2014-05-08 *Acting Companies and their Plays in Shakespeare's London* explores the intimate and dynamic relationship between acting companies and playwrights in this seminal era in English theatre history. Siobhan Keenan's analysis includes chapters on the traditions and workings of contemporary acting companies, playwrighting practices, stages and staging, audiences and patrons, each illustrated with detailed case studies of individual acting companies and their plays, including troupes such as Lady Elizabeth's players, Beeston's Boys, and the King's Men, and works by Shakespeare, Jonson, Middleton, Brome, and Heywood. We are accustomed to focusing on individual playwrights; *Acting Companies and their Plays in Shakespeare's London* makes the case that we also need to think about the companies for which dramatists wrote and with whose members they collaborated if we wish to better understand the dramas of the English Renaissance stage.
