much. It's too much already. In this book, parent and scholar David Dutwin Ph.D. shows parents everywhere how to cut the digital cord and free their children to play and learn the old-fashioned way actively. Organized in three sections, this practical prescriptive book offers a balanced and realistic approach for every age, including how to introduce toddlers to TV or not let little kids use computers, control pre-teens' online access, evaluate the pros and cons of video games, filter the Internet for teens, combat the impact of the media, and counteract all that sex and violence. This guide arms parents with all the tricks and tools they need to make sure their kids remain happy, healthy, active, and aware, no matter how pervasive the digital world we live in becomes.

Football Fanatic Ken Ferris, 2013-03-01 This is the book which landed the author in the Guinness Book of Records for his record-breaking 20,000-mile tour of every Football League Ground in England. The first edition was hugely successful and was listed by Sportspages Bookshop as one of the bestselling football books of the year. This new and enlarged edition features reports on all 93 grounds visited by the author and is a comprehensive and entertaining guide for every football fanatic.

Gender, Age, and Digital Games in the Domestic Context Alison Harvey, 2015-03-27 Western digital game play has shifted in important ways over the last decade with a plethora of personal devices affording a range of increasingly diverse play experiences. Despite the celebration of a more inclusive environment of digital game play, very little grounded research has been devoted to the examination of familial play and the domestication of digital games as opposed to evolving public and educational contexts. This book is the first study to provide a situated investigation of the site of family play, the shared spaces and private places of gameplay within the domestic sphere. It carries out an empirically grounded and critical analysis of what marketing and sales discourses about shifts in the digital games audience actually look like in the space of the home, as well as the social and cultural role these ludic technologies take in the everyday practices of the family in the domestic context. It examines the material realities of video game technologies in the home, including time management and spatial organization, as well as the discursive role these devices play in discussions of technological competence and its complex relationship to age, generational differences, and gender performance. Harvey's interdisciplinary approach and innovative methodology will hold great critical appeal for those studying digital culture, children's media, and feminist studies of new media, as well as critical theories of technology and leisure and sport theory.
