Playing Self Person And Meaning In The Planetary Society:

The Playing Self Alberto Melucci, 1996-07-13 The *Playing Self* is a groundbreaking new work from influential cultural sociologist and clinical psychologist Alberto Melucci best known for his work on social movements and collective identities In this book he delves deeper into questions about the self as both a psychological and socio cultural entity particularly in the context of a global society for which information has become a basic resource His phenomenological approach accounts for the self both as a site of highly subjective and intimate experiences such as crying laughing and loving and in relation to social structural dynamics through more impersonal experiences such as the experience of time and links of the self to politics Melucci explores the critical search for meaning at the boundary of visible collective processes and individual day to day experience

Anthony Giddens The third approach covered is that of the governmentality perspective which builds on Michel Foucault's work Three other chapters examine in detail the relationship between concepts of risk and concepts of selfhood and the body the notion of Otherness and how this influences the ways in which people respond to and think about risk and the pleasures of voluntary risk taking including discussion of edgework An entirely new chapter has been added to this edition focusing on the risks posed by misinformation and denial in the context of climate change and the COVID 19 pandemic This chapter discusses the politics of post truth cultures and the powerful networks of actor and organizations that together work to challenge science and manufacture dissent against attempts to tackle these crises This new edition of Risk is an essential introduction to the topic of risk for students and academics in the social sciences and humanities

Muslims all over the world have gone through contradictory transformations Though public attention commonly rests on the turn toward violence this book s stories of transformation to moderate Islam in a previously radical district in Istanbul exemplify another experience In a shift away from distrust of the state to partial secularization Islamists in Turkey transitioned through a process of absorption into existing power structures With rich descriptions of life in the district of Sultanbeyli this unique work investigates how religious activists organized how authorities defeated them and how the emergent pro state Justice and Development Party incorporated them As Tu al reveals the absorption of a radical movement was not simply the foregone conclusion of an inevitable world historical trend but an outcome of contingent struggles With a closing comparative look at Egypt and Iran the book situates the Turkish case in a broad historical context and discusses why Islamic politics have not been similarly integrated into secular capitalism elsewhere **International Encyclopedia of**

transgression and disruption of cultural boundaries Strangers migrants and nomads are celebrated in our postmodern world of hybrids and cyborgs But we pay a price for this celebration of hybridity the non hybrid figures in our societies are ignored rejected silenced or exterminated This book tells the story of these non hybrid figures the anti heroes of our pop culture The main example of non hybrids in an otherwise hybridized world is that of deep old age Hazan shows how we fervently distance ourselves from old age by grading and sequencing it into stages such as the third age the fourth age and so on Aging bodies are manipulated through anti aging techniques until it is no longer possible to do it anymore at which point they become untransformable and non marketable objects and hence commercially and socially invisible or masked Other examples are used to elucidate the same cultural logic of the non hybrid pain the Holocaust autism fundamentalism and corporeal death On the face of it these examples may seem to have nothing in common but they all exemplify the same cultural logic of the non hybrid and provoke similar reactions of criticism terror abhorrence and moral indignation This highly original and iconoclastic book offers a fresh critique of contemporary Western culture by focusing on that which is perceived as its other the non hybrid in our midst often rejected ignored or silenced and deemed to be in need of globally manageable correction
