Playing The Field:

Playing the Field Jim Kaplan, 1987-01-01 Discusses defensive strategy in baseball describes the responsibilities of each position and looks at the all time best defensive players and some of their memorable plays Playing the Field Charles C. Euchner, 1994-09 Can a sports franchise blackmail a city into getting what it wants a new stadium say or favorable leasing terms by threatening to relocate In 1982 the owners of the Chicago White Sox pledged to keep the team in Chicago if the city approved a 5 million tax exempt bond to finance construction of luxury suites at Comiskey Park The city council approved it A few years later when Comiskey Park was in need of renovation the owners threatened to move the team to Florida unless a new stadium was built A site was chosen near the old stadium property condemned residents evicted and a new stadium built We had to make threats the owners said If we didn't have the threat of moving we wouldn't have gotten the deal Sports is not a dominant industry in any city writes Charles Euchner yet it receives the kind of attention one might expect to be lavished on major producers and employers In *Playing the Field* Euchner looks at why sports attracts this kind of attention and what that says about the urban political process Examining the relationships between Los Angeles and the Raiders Baltimore and the Colts and the Orioles and Chicago and the White Sox Euchner argues that in the absence of public standards for equitable arbitration between cities and teams the sports industry has the ability to steer negotiations in a way that leaves cities vulnerable According to Euchner this greater leverage of sports franchises is due at least in part to their overall economic insignificance Since the demands of a franchise do not directly affect many interest groups opponents of stadium projects have difficulty developing coalitions to oppose them The result is that civic leaders tend to succumb to the blackmail tactics of professional sports rather than developing and supporting sound economic policies **Playing the Field** Phil Bildner, 2006 Darcy Miller wants to play for the boys high school baseball team but in just a few short months Darcy goes from typical high school senior to a trash talk show candidate as the ridiculous meets the sublime in this debut novel

Playing the Field Sascha Pöhlmann, 2019-08-19 American Studies has only gradually turned its attention to video games in the twenty first century even though the medium has grown into a cultural industry that is arguably the most important force in American and global popular culture today There is an urgent need for a substantial theoretical reflection on how the field and its object of study relate to each other This anthology the first of its kind seeks to address this need by asking a dialectic question first how may American Studies apply its highly diverse theoretical and methodological tools to the analysis of video games and second how are these theories and methods in turn affected by the games The eighteen essays offer exemplary approaches to video games from the perspective of American cultural and historical studies as they consider a broad variety of topics the US American games industry Puritan rhetoric cultural geography mobility and race urbanity and space digital sports ludic textuality survival horror and the eighteenth century novel gamer culture and neoliberalism terrorism and agency algorithm culture glitches theme parks historical guilt visual art sonic meaning making and nonverbal
