Playwriting In Process Thinking And Working Theatrically:

Playwriting in Process Michael Wright, 2009-08-01 *Playwriting in Process Thinking and Working Theatrically* is written to encourage new and experienced playwrights to build techniques for a greater range of creative expression in writing for the stage. The book uses exercises to guide playwrights towards thinking and working theatrically. The exercises help playwrights start or revise their work by providing alternate ways of thinking about their subject and their processes. New to the second edition: new exercises, a general updating such as the use of the internet, a new chapter for teachers and playwriting group leaders on using this book in class, and end of chapter Call Out exercises. Useful for playwrights at all levels. **Signature**

Pedagogies for the Playwriting Classroom Andrew Black, 2025-06-12 Drawing on qualitative research exploring the techniques of playwriting instructors, this book outlines signature pedagogies within playwriting instruction for novice writers and how they may be reimagined and reinvigorated. Through research gathered in interviews with 11 instructors and surveying their methods, syllabi, and handouts, Andrew Black interrogates key challenges within dramatic writing pedagogy: the myth that it, along with creativity, cannot be taught; the lack of clarity about the instructional value of playwriting education for diverse contemporary audiences; the tendency to allow the writing product to drive instruction rather than process; and the tension between traditional and experimental models of play construction and how this can confound instructional techniques. Identifying 3 indispensable and signature pedagogies that are consistently used in the classroom, the writing exercise, the use of mentor texts, and the workshopping of student material, this book describes key strategies and practices used by seasoned instructors which bring these pedagogical strategies to life. Strategies and practices which can support instructors in reimagining their playwriting classrooms. An intervention for lore-based pedagogical models that are often out of date and reflect the biases of previous generations. Black offers a starting point for instructors developing their inclusive lesson plans, offering a comprehensive understanding of pedagogical options available to the instructors.

Embodied Playwriting Hillary Haft Bucs, Charissa Menefee, 2023-07-27 *Embodied Playwriting Improv and Acting Exercises for Writing and Devising* is the first book to compile new and adapted exercises for teaching playwriting in the classroom, workshop, or studio through the lens of acting and improvisation. The book provides access to the innovative practices developed by seasoned playwriting teachers from around the world who are also actors, improv performers, and theatre directors. Borrowing from the embodied art of acting and the inventive practice of improvisation, the exercises in this book will engage readers in performance-based methods that lead to the creation of fully imagined characters, dynamic relationships, and vivid drama. Step-by-step guidelines for exercises, as well as application and coaching advice, will support successful lesson planning and classroom implementation for playwriting students at all levels, as well as individual study. Readers will also benefit from curation by editors who have experience with high-impact educational practices and are advocates for the use of varied teaching strategies to increase accessibility, inclusion, skill building, and student success.

Performed Ethnography and Communication D Soyini Madison, 2018-04-27 *Performed Ethnography and Communication* explores the relationships between these three key terms, addressing the impact of ethnography and communication on the cutting edge of performance studies. Ranging from digital performance, improvisation and the body to fieldwork and staged collaboration, this volume is divided into two main sections: Embodied technique and practice, which addresses improvisation, devised theatre, making and body work to consider what makes bodies move, sound, behave, mean or appear differently, and the effects of these differences on performance; Oral history and personal narrative performance, which is concerned with the ways personal stories and histories might be transformed into public events, looking at questions of perspective, ownership and reception. Including specific historical and theoretical case studies, exercises and activities, and practical applications for improvisation, ethnography and devised and digital performance, *Performed Ethnography and Communication* represents an invaluable resource for today's student of performance studies, communication studies or cultural studies.

Troubling Violence M. Heather Carver, Elaine J. Lawless, 2010-02-17 *Troubling Violence: A Performance Project* follows the collaboration between performance studies professor M. Heather Carver and ethnographic folklorist Elaine J. Lawless. The book traces the creative development of a performance troupe in which women take the stage to narrate true harrowing experiences of domestic violence and then invite audience members to discuss the tales. Similar to the performances, the book presents real-life narratives as a means of heightening social awareness and dialogue about intimate partner violence. *Troubling Violence* refers not only to the cultures in our society that are troubling but also to the authors' intent to trouble perceptions that enforce social, cultural, legal and religious attitudes that perpetuate abuse against women. Performance, this book argues, enhances ethnographic research and writing by allowing ethnographers to approach both their field studies and their ethnographic writing as performance. The book also demonstrates how ethnography enhances the study of performance. The authors discuss the development of the *Troubling Violence Performance Project* in conjunction with their own performances within the academy.
