two dozen families in the city of Bologna elegantly weaving together Harper's outsider perspective with Faccioli's intimate knowledge of the local customs. The authors interview and observe these families as they go shopping for ingredients, cook together and argue over who has to wash the dishes. Throughout, the authors elucidate the guiding principle of the Italian table: a delicate balance between the structure of tradition and the joy of improvisation. With its bite-sized history of food in Italy, including the five hundred year old story of the country's cookbooks and Harper's mouth watering photographs, *The Italian Way* is a rich repast, insightful, informative and inviting.

Slow Living Geoffrey Craig, Wendy Parkins, 2006-02-01 Speed is the essence of the modern era, but our faster, more frenetic lives often trouble us and leave us wondering how we are meant to live in today's world. *Slow Living* explores the philosophy and politics of slowness as it investigates the growth of Slow Food into a worldwide eco-gastronomic movement. Originating in Italy, Slow Food is not only committed to the preservation of traditional cuisines and sustainable agriculture, but also the pleasures of the table and a slower approach to life in general. Craig and Parkins argue that slow living is a complex response to processes of globalization. It connects ethics and pleasure, the global and the local, as part of a new emphasis on everyday life in contemporary culture and politics. The global everyday is not a simple tale of speed and geographical dislocation. Instead, we all negotiate different times and spaces that make our quality of life and an ethics of living more pressing concerns. This innovative book shows how slow living is about the challenges of living a more mindful and pleasurable life.
