Economic Empowerment Of Women In The Islamic World: Theory And Practice Toseef Azid,Jennifer L Ward-batts,2020-06-22 The book Economic Empowerment of Women in the Islamic World discusses the economic social and political rights and status of women in Islam which is theoretically given by the Islamic Jurisprudence Shariah law The chapters in this volume will address historical practices in comparison to the status of women in the contemporary Muslim world Men and women in Islam regardless of their age social class and education are equal as citizens and individuals but not identical in their rights and responsibilities It can be observed from Islamic history that in the early age of Islam women were given full confidence trust and high responsibilities in leadership educational guidance and decision making This volume will try to clarify the confusion in the status of the women in Islam that is presented by the media as it is assumed that theoretical Islamic empowerment of women bears little relation to the real conditions of women in modern Muslim societies It has been widely claimed in the media that Muslim women suffer more than men in Muslim societies and communities in terms of insecurity domestic abuse and low access to education and medical care It is also stated in the press and media that absence of good governance also results in gender inequality and violation of the rights of Muslim women This volume also aims to provide the solutions for the empowerment of women in the Islamic world We assumed that without good governance the status of women is not likely to improve Muslim women have the potential to play a fundamental role in curbing corruption social ills violence and crime in the Muslim world This volume will make the case that in order to achieve stability and prosperity the government must ensure a platform for women to participate in decision making and hence benefit from the rights they are accorded in Islam By covering a range of perspectives on the economic lives of Muslim women around the world it hopes to shed light on the problems faced and to offer possible solutions to the empowerment of women in the Islamic world
