Pledge Betrayed

Mark Aarons, John Loftus

Pledge Betrayed:

The Nazi Hydra in America Glen Yeadon, 2008 This book exposes how US plutocrats launched Hitler then recouped Nazi assets to lay the post war foundations of a modern police state Fascists won WWII because they ran both sides Lays bare the tenacious roots of US fascism from robber baron days to Reichstag fire to the WTC atrocity and Homeland Security with a blow by blow account of the fascist take over of America s media

Hiding in Plain Sight Eric Stover, Victor Peskin, Alexa Koenig, 2016 Hiding in Plain Sight tells the story of the global effort to apprehend the world s most wanted fugitives Beginning with the flight of tens of thousands of Nazi war criminals and their collaborators after World War II then moving on to the question of justice following the recent Balkan wars and the Rwandan genocide and ending with the establishment of the International Criminal Court and America s pursuit of suspected terrorists in the aftermath of 9 11 the book explores the range of diplomatic and military strategies both successful and unsuccessful that states and international courts have adopted to pursue and capture war crimes suspects It is a story fraught with broken promises backroom politics ethical dilemmas and daring escapades all in the name of international justice and human rights Hiding in Plain Sight is a companion book to the public television documentary Dead Reckoning Postwar Justice from World War II to The War on Terror For more information about the documentary visit [www saybrookproductions com](http://www.saybrookproductions.com) For information about the Human Rights Center visit hrc.berkeley.edu

Art of Suppression Pamela M. Potter, 2016-06-28 One thinks of the arts in Nazi Germany as struggling in an oppressive system yet evidence has repeatedly shown that conditions were far more favourable than we assume Potter conducts a historiography of Nazi arts examining writings from the last seven decades to demonstrate how historical moral and intellectual conditions have sustained a distorted characterization of cultural life in the Third Reich Showing how past research has revealed the decentralized nature of Nazi arts policies Potter argues that the insulation of academic disciplines allowed outdated presumptions about Nazi micromanagement of the arts to persist

The Darkest Sides of Politics, I Jeffrey M. Bale, 2017-09-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The first volume in this two volume collection focuses on the history of underground neo fascist networks in the post World War II era neo fascist paramilitary and terrorist groups operating in Europe and Latin America in the 1960s and 1970s and the manipulation of those and other terrorist organizations by the security forces of various states both authoritarian and democratic A range of global case studies are included all of which focus on the lesser known activities of certain secular extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics

Erich von Manstein Benoît Lemay, 2010-07-27 A selection of the Military Book Club An informative and objective

biography of a genius commander and a study of his loyalty to the Nazi cause Library Journal To many close students of World War II Erich von Manstein is considered the greatest commander of the war if not the entire twentieth century He devised the plan that conquered France in 1940 and led an infantry corps in that campaign At the head of a panzer corps he reached the gates of Leningrad in 1941 then took command of 11th Army and conquered Sevastopol and the Crimea After destroying another Soviet army in the north he was given command of the ad hoc Army Group Don to retrieve the German calamity at Stalingrad whereupon he launched a counteroffensive that against all odds restored the German front Afterward he commanded Army Group South nearly crushing the Soviets at Kursk and then skillfully resisted their relentless attacks as he traded territory for coherence in the East Though an undoubtedly brilliant military leader whose achievements considering the forces at his disposal rivaled of Patton Rommel MacArthur and Montgomery surprisingly little is known about Manstein himself save for his own memoir and the accolades of his contemporaries In this book we finally have a full portrait of the man including his campaigns and an analysis of what precisely kept a genius like Manstein harnessed to such a dark cause A great military figure but a man who lacked a sharp political sense Manstein was very much representative of the Germano Prussian military caste of his time Though Hitler was uneasy about the influence he'd gained throughout the German Army Manstein ultimately declined to join any clandestine plots against his Führer believing they would simply cause chaos the one thing he abhorred Though he constantly opposed Hitler on operational details he considered it a point of loyalty to simply stand with the German state in whatever form Though not bereft of personal opinions his primary allegiances were first to Deutschland and second to the soldiers under his command who'd been committed against an enemy many times their strength It is thus through Manstein that the attitudes of other high ranking officers who fought during the Second World War particularly on the Eastern Front can be illuminated This book is a well researched convincingly reasoned analysis of a general widely considered one of WWII's great commanders Publishers Weekly Includes photographs

Official Secrets Richard Breitman, 2025-09-23 Richard Breitman's *Official Secrets* is an important work based on newly declassified archives As defeat loomed over the Third Reich in 1945 its officials tried to destroy the physical and documentary evidence about the Nazis monstrous crimes about their murder of millions Great Britain already had some of the evidence however for its intelligence services had for years been intercepting decoding and analyzing German police radio messages and SS ones too Yet these important papers were sealed away as Most Secret Never to Be Removed from This Office and they have only now reappeared Integrating this new evidence with other sources Richard Breitman reconsiders how Germany's leaders brought about the Holocaust and when and reassesses Britain's and America's suppression of information about the Nazi killings His absorbing account of the tensions between the two powers and the consequences of keeping this information secret for so long shows us the danger of continued government secrecy which serves none of us well and the failure to punish many known war criminals Imagining Soldiers and Fathers in the

Mid-Victorian Era Dr Susan Walton, 2013-04-28 Beginning with the premise that women's perceptions of manliness are crucial to its construction Susan Walton focuses on the life and writings of Charlotte Yonge as a prism for understanding the formulation of masculinities in the Victorian period Yonge was a prolific writer whose bestselling fiction and extensive journalism enjoyed a wide readership Walton situates Yonge's work in the context of her family connections with the army showing that an interlocking of worldly and spiritual warfare was fundamental to Yonge's outlook For Yonge all good Christians are soldiers and Walton argues persuasively that the medievalised discourse of sanctified violence executed by upright moral men that is often connected with late nineteenth century Imperialism began earlier in the century and that Yonge's work was one major strand that gave it substance Of significance Yonge also endorsed missionary work which she viewed as an extension of a father's duties in the neighborhood and which was closely allied to a vigorous promotion of refashioned Tory paternalism Walton's study is rich in historical context including Yonge's connections with the Tractarians the effects of industrialization and Britain's Imperial enterprises Informed by extensive archival scholarship Walton offers important insights into the contradictory messages about manhood current in the mid nineteenth century through the works of a major but undervalued Victorian author The Legacy of Nuremberg David A. Blumenthal, Timothy L. H.

McCormack, 2008 In this new collection of essays the editors assess the legacy of the Nuremberg Trial asking whether the Trial really did have a civilising influence or if it constituted little more than institutionalised vengeance Three essays focus particularly on the historical context and involve rich analysis of for example the atmospherics of the Trial itself and the attitudes of German society at the time to the conduct of the Trial The majority of the essays deal with the contemporary legacies of the Nuremberg Trial and attempt to assess the ongoing relevance of the Judgment itself and of the principles encapsulated in it Some essays consider the importance of the principle of individual criminal responsibility under international law and argue that the international community has to some extent failed to fulfil the promise of Nuremberg in the decades since the Trial Other essays focus on contemporary application of aspects of the substantive law of Nuremberg particularly the international crime of aggression the law of military occupation and the use of the crime of conspiracy as an alternative basis of criminal responsibility The collection also includes essays analysing the nature and operation of a number of international criminal tribunals since Nuremberg including the permanent International Criminal Court The final grouping of essays focus on the impact of the Nuremberg Trial on Australia examining in particular Australia's post World War Two war crimes trials of Japanese defendants Australia's extensive national case law on Article 1 F of the Refugee Convention and Australia's national implementing legislation for the Rome Statute **The World Reacts to the Holocaust** David S.

Wyman, Charles H. Rosenzweig, 1996-09-24 Among the issues examined are the extent of the human destruction the degree of collaboration Jewish reactions and efforts to save the Jews **Beyond Uncertainty** David C. Cassidy, 2010-04-01

Exhaustively detailed yet eminently readable this is an important book Publishers Weekly starred review Cassidy does not so

much exculpate Heisenberg as explain him with a transparency that makes this biography a pleasure to read Los Angeles Times Well crafted and readable Cassidy provides a nuanced and compelling account of Heisenberg s life The Harvard Book Review In 1992 David C Cassidy s groundbreaking biography of Werner Heisenberg Uncertainty was published to resounding acclaim from scholars and critics Michael Frayn in the Playbill of the Broadway production of Copenhagen referred to it as one of his main sources and the standard work in English Richard Rhodes The Making of the Atom Bomb called it the definitive biography of a great and tragic physicist and the Los Angeles Times praised it as an important book Cassidy has sifted the record and brilliantly detailed Heisenberg s actions No book that has appeared since has rivaled Uncertainty now out of print for its depth and rich detail of the life times and science of this brilliant and controversial figure of twentieth century physics Since the fall of the Soviet Union long suppressed information has emerged on Heisenberg s role in the Nazi atomic bomb project In Beyond Uncertainty Cassidy interprets this and other previously unknown material within the context of his vast research and tackles the vexing questions of a scientist s personal responsibility and guilt when serving an abhorrent military regime David C Cassidy is the author of J Robert Oppenheimer and the American Century Einstein and Our World and Uncertainty

The Nazi Holocaust Ronnie S. Landau,2016-02-12 The Nazi Holocaust is one of the most momentous events in human history Yet it remains on many levels a baffling and unfathomable mystery By shunning simplistic explanations Ronnie Landau has set out in a clear thought provoking and enlightened fashion to mediate between this vast often unapproachable subject and the reader who wrestles with its meaning Locating the Holocaust within a number of different contexts Jewish history German history genocide in the modern age the larger story of human bigotry and the triumph of ideology over conscience Landau penetrates to the very heart of its moral and historical significance Deeply concerned lest the Holocaust as a unique phenomenon be cordoned off from the rest of human history and ghettoized within the highly charged realm of Jewish experience he is at pains to show that transmitting understanding of the Holocaust is about connecting with all humanity Intended both for the general reader and for students and academics especially in history psychology literature and the humanities this work is an important breakthrough in the struggle to perpetuate the memory of a tragedy which the world is all too ready to forget

The Seventh Million Tom Segev,2000-11-14 The Seventh Million is the first book to show the decisive impact of the Holocaust on the identity ideology and politics of Israel Drawing on diaries interviews and thousands of declassified documents Segev reconsiders the major struggles and personalities of Israel s past including Ben Gurion Begin and Nahum Goldmann and argues that the nation s legacy has at critical moments the Exodus affair the Eichmann trial the case of John Demjanjuk have been molded and manipulated in accordance with the ideological requirements of the state The Seventh Million uncovers a vast and complex story and reveals how the bitter events of decades past continue to shape the experiences not just of individuals but of a nation Translated by Haim Watzman

Bombing, States and Peoples in Western Europe 1940-1945 Claudia Baldoli,Andrew Knapp,Richard Overly,2011-06-30

This is the first book to treat bombing during WWII as a European phenomenon and not just the Blitz on Britain and Germany. With Western Europe now at the heart of a united continent it is even more difficult to explain how only 70 years ago European states destroyed much of the urban landscape from the air. There were many blitzes between 1940 and 1945 with an estimated 700 000 people killed. The purpose of this book is to provide the basis for a comparison of the experience of western states under the impact of bombing. In particular it considers the political, cultural and social responses to bombing rather than the military, strategic and social dimensions which have formed the core of the discussion hitherto. This book will correct the popular perception of the British Blitz as the key bombing experience by exposing the reality of life under the bombs for communities as far apart as Brest, Palermo and Rostock. An international panel of historians consider the issues raised amidst the bombing of human rights and protection of civilians in this seminal event in 20th history. *From Crusade to Hazard* Bianca J. Adams, 2009-10-01. *From Crusade to Hazard: The Denazification of Bremen* Germany relates how the American and British combat forces and military government officers occupied, administered and denazified Bremen and its environs from 1945 to 1947. The three distinct phases in administering Bremen had a profound impact on the denazification of the city. Denazification legislation was first determined by the Americans, then by the British and then again by the Americans. Throughout denazification teams tried to find a middle way between the American dictum of a radical purge of the whole population and the less ambitious British goal of only cleansing the administration. This delicate balancing act led to an implementation of a purge that was unique to the Bremen enclave. While it succeeded in discovering and punishing many of the main functionaries of the Nazi regime, it also fell victim to its own ambition and collapsed underneath the weight of its administrative processes. As deadlines and waning governmental support forced a quick end to the program, the bloated denazification bureaucracy resorted to classifying most of the remaining cases as benign followers even when they hardly deserved that label. At a time when interest in de-politicizing old classes of administrators affiliated with dictatorial regimes is being increasingly fueled by contemporary world events, this book is a particularly valuable contribution.

Kenneth; or, The rear guard of the Grand Army ... By the author of "Scenes and characters" [i.e. Charlotte Mary Yonge], etc Charlotte Mary Yonge, 1850. **Nazis after Hitler** Donald M McKale, 2023-06-14. The stories of thirty war criminals who escaped accountability from a historian praised for his well-written, scrupulously researched work. *The New York Times*. This deeply researched book traces the biographies of thirty typical perpetrators of the Holocaust, some well known, some obscure, who survived World War II. Donald M McKale reveals the shocking reality that the perpetrators were rarely if ever tried or punished for their crimes and nearly all alleged their innocence in Germany's extermination of nearly six million European Jews. He highlights the bitter contrasts between the comfortable postwar lives of many war criminals and the enduring suffering of their victims and how, in the face of exhaustive evidence showing their culpability, nearly all claimed ignorance of what was going on and insisted they had done nothing wrong. McKale ends the book with a haunting

question whether life would be different today if the Allies had pursued Holocaust criminals more aggressively after WWII

History buffs and students of the Holocaust will be fascinated Publishers Weekly Gripping and important reading Eric A Johnson author of *What We Knew* **Battling for Souls** Alex Grobman, 2004 Despair and disaster had taken their toll on the survivors of the Holocaust Many of them were ready to give up on God yet others sought the sustenance of Orthodox Judaism to nourish them after all their losses To keep whatever spark of Jewish spirit was alive in the hearts of the refugees to make it glow and burst into flame the men and women of the Vaad Hatzala Rescue Committee worked long and hard This is the story of a special breed of people led by Rabbi Nathan Baruch They dedicated themselves to a thankless task at the request of the greatest rabbinical leaders of the 20th century and prevailed in their mission despite the lack of funds the lack of people the hostility of local populations and other Jewish organizations and the chaos in Europe at the end of the war What follows is the story of their battle for Jewish souls *The German Underworld (Routledge Revivals)* Richard J. Evans, 2015-06-03 This book which was first published in 1988 deals with the neglected history of the lowest layers of German society of marginal outcast and deviant groups such as arsonists witches bandits infanticides poachers murderers prostitutes vagrants and thieves from the end of the thirteenth century to the middle of the twentieth This book is ideal for students of history particularly the German history Beyond Charity: International Cooperation and the Global Refugee Crisis Gil Loescher, 1996-08-08 With more than 18 million refugees worldwide the refugee problem has fostered an intense debate regarding what political changes are necessary in the international system to provide effective solutions in the 1990s and beyond In the past refugees have been perceived largely as a problem of international charity but as the end of the Cold War triggers new refugee movements across the globe governments are being forced to develop a more systematic approach to the refugee problem Beyond Charity provides the first extensive overview of the world refugee crisis today asserting that refugees raise not only humanitarian concerns but also issues of international peace and security Gil Loescher argues persuasively that a central challenge in the post Cold War era is to develop a comprehensive refugee policy that preserves the right of asylum while promoting greater political and diplomatic efforts to address the causes of flight He presents the contemporary crisis in a historical framework and explores the changing role of the Office of the United Nations High Commissioner for Refugees Loescher suggests short term and long term reforms that address both the current refugee crisis and its underlying causes The book also details the ways governmental structures and international organizations could be strengthened to assume more effective assistance protection and political mediation functions Beyond Charity helps frame the debate on the global refugee crisis and offers directions for more effective approaches to refugee problems at present and in the future **Unholy Trinity** Mark Aarons, John Loftus, 1998-06-15 Written in riveting fashion by the coauthors of *The Secret War Against the Jews* Mark Aarons and John Loftus's *Unholy Trinity* tells one of the darkest tales of World War II After the war had ended fearing a surge of Soviet growth the Papacy entered into an espionage alliance with British and

American intelligence agents Subsuming justice to the nascent Cold War ideology these three powers ferreted Nazi criminals out of Europe so that they could be used in the supposedly greater fight against Communism The Vatican's Nazi smuggling network was penetrated by Prince Anton Turkul the great Soviet double agent who turned the operations into a sting for his masters in the Kremlin Unholy Trinity exposes Turkul's Red Nazi operation for the first time and shows how Kim Philby the infamous British Soviet double agent and his network were nearly sacrificed to preserve Turkul's Vatican operation Exploring the Vatican's role in aiding Nazi criminals to escape punishment for their crimes this book originally published in 1991 first revealed the Vatican Swiss bank connection to Nazi gold and documented the hidden links to Western investors in Nazi Germany Since its publication major revelations about the role of Swiss banks have confirmed Unholy Trinity's expose of the flight of the Nazis' stolen treasures the new introduction and new final chapters written by Aarons and Loftus for this edition bring the book completely up to date and show how the media have missed the vital Vatican connection in the Swiss bank story Among other things the authors demonstrate that U S and British code breakers were fully aware of the Holocaust as early as 1941 but lied to the Western press that the code breakers bugged the Swiss banks and then buried secrets of Nazi gold transfers to protect U S intelligence chief Allen Dulles and that the Australian British and Canadian governments are still waging a campaign to keep their citizens ignorant about the Nazi war criminals living among them Covering all these topics and more Unholy Trinity is the definitive history of a series of profoundly disturbing cover ups involving the Holy See Allen Dulles the Swiss banks and the remnants of the Third Reich

Thank you very much for downloading **Pledge Betrayed**. Maybe you have knowledge that, people have look hundreds times for their favorite readings like this Pledge Betrayed, but end up in infectious downloads. Rather than enjoying a good book with a cup of coffee in the afternoon, instead they cope with some harmful bugs inside their desktop computer.

Pledge Betrayed is available in our digital library an online access to it is set as public so you can get it instantly. Our books collection saves in multiple locations, allowing you to get the most less latency time to download any of our books like this one.

Kindly say, the Pledge Betrayed is universally compatible with any devices to read
