**Pliny: a Self Portrait in Letters** (the Younger) A.D.62-c.114 Pliny, Pliny Pliny (the Younger.),1978 **Pliny: A Selection of his Letters** Pliny,1979-01-26 The Women of Pliny's Letters Jo-Ann Shelton,2013 The large collection of letters by Pliny the Younger includes a number of women among its addressees and Pliny also gives us plentiful information about many women of his acquaintance This book brings together this material to build up a portrait of a peer group of women in their social setting *Pliny's Tenth Book of Letters* Alicia Mae Hoefke,2008 **Pliny's Women** Jacqueline M. Carlon,2009-06-22 Pliny's Women offers a comprehensive consideration of the many women who appear in the letters of Pliny the Younger Combining detailed prosopography with close literary analysis Jacqueline Carlon examines the identities of the women whom Pliny includes and how they and the men with whom they are associated contribute both to this presentation of exemplary Romans and particularly to his own self promotion Virtually all of the named women in Pliny's nine book corpus are considered They form six distinct groups those associated with opposition to the principate the family of Pliny's mentor Corellius Rufus his own family members women involved in testamentary disputes ideal wives and women of unseemly character Detailed analysis of each letter mentioning women includes the identity of its recipient and everyone named within its disposition within the collection Pliny's language and style and its significance to our perception of the changing social fabric of the early principate **Encyclopedia of Life Writing** Margaretta Jolly,2013-12-04 First published in 2001 This is the first substantial reference work in English on the various forms that constitute life writing As this term suggests the Encyclopedia explores not only autobiography and biography proper but also letters diaries memoirs family histories case histories and other ways in which individual lives have been recorded and structured It includes entries on genres and subgenres national and regional traditions from around the world and important autobiographical writers as well as articles on related areas such as oral history anthropology testimonies and the representation of life stories in non verbal art forms **Intertextuality in Pliny's Epistles** Margot Neger,Spyridon Tzounakas,2023-09-21 Focusing on intertextuality this book investigates Pliny the Younger's engagement with other authors and genres in his Epistles Late Antique Letter Collections Cristiana Sogno,Bradley K. Storin,Edward J. Watts,2019-11-19 Bringing together an international team of historians classicists and scholars of religion this volume provides the first comprehensive overview of the extant Greek and Latin letter collections of late antiquity ca 300 600 c e Each chapter addresses a major collection of Greek or Latin literary letters introducing the social and textual histories of each collection and examining its assembly publication and transmission Contributions also reveal how collections operated as discrete literary genres with their own conventions and self presentational agendas This book will fundamentally change how people both read these texts and use letters to reconstruct the social history of the fourth fifth and sixth centuries Roman Literary Culture Elaine Fantham,2013-07-18 This edition includes a new preface and an updated bibliography Acts of the Apostles and the Rhetoric of Roman Imperialism Drew W.

Billings,2017-07-25 Billings demonstrates that Acts was written in conformity with broader representational trends found on imperial monuments and in the epigraphic record of the early second century

**Lucretian Receptions in Prose** George Kazantzidis,2024-09-02 The examination of Lucretian reception in Latin poetry has been served well by scholars Lucretius presence in later prose writers on the other hand is a topic that warrants more investigation Susanne Gatzemeier s 2013 monograph *Ut ait Lucretius Die Lukrezrezeption in der lateinischen Prosa bis Laktanz* is an invaluable contribution to the topic but by no means exhaustive either in terms of the potential intertextualities it traces or in terms of its interpretive methods and insights At the same time recent studies implicate Lucretius name in discussions of prose writers who were not that often thought in the past to have engaged with the *De Rerum Natura* in an active way Caesar and Livy but also Vitruvius and Tacitus are some good examples The present volume taps into this discussion and broadens further our understanding of Lucretian reception in prose writers including Cicero Celsus Seneca the Younger Quintilian Pliny the Younger Plutarch and Lactantius Building on the vast scholarship on the significance of Lucretius as a model for later poets the volume sheds new light on the *De Rerum Natura* s afterlife by looking at its presence in philosophical prose medical writing oratory epistolary writing and Christian theology

**For Your Sake He Became Poor** Georges Massinelli,2021-04-19 The Pauline collection for the poor in Jerusalem is the most famous example of financial support for geographically distant groups in early Christianity Recent assessments of the Pauline collection have focused on patronage to explain the social relations between Jerusalem and the Pauline groups and the strategies adopted by Paul Through a comparison with the Greco Roman world and a close reading of the texts this study challenges the recent approach and proposes that other factors shaped Paul s stance Paul was interested in reassuring the Corinthians about the financial outcome of the collection and dispelling doubts that he might take advantage of them The collection was an action modeled on divine generosity and an exchange within a reciprocal relationship between Christian groups This study also surveys intergroup support between Christian groups in the first three centuries CE This practice involved churches from most of the Mediterranean Basin and was known even outside of Christian circles Transfers of money were organized according to a consistent pattern modeled on local charitable practices The Pauline collection had similar characteristics and can be seen as part of this widespread economic practice

**Women Classical Scholars** Rosie Wyles,Edith Hall,2016 *La 4e de couverture indique* the first written history of the pioneering women born between the Renaissance and 1913 who played significant roles in the history of classical scholarship

Letters of Pliny The Younger Pliny,2022-09-15 In *Letters of Pliny* Gaius Plinius Caecilius Secundus known as Pliny the Younger presents a profound collection of personal correspondence that offers an invaluable glimpse into the life and society of Rome during the first century AD This epistolary work is characterized by its eloquent prose rich observations and insightful reflections on both mundane and significant events encapsulating themes of friendship politics and the human condition Pliny s letters addressed to notable contemporaries and even emperors serve not only as personal notes but also as

historical documents that illuminate the nuances of Roman life at the height of the Empire revealing the complexities of its social hierarchies and cultural values Pliny the Younger a lawyer and a prominent figure in Roman society was greatly influenced by his uncle Pliny the Elder whose scholarly pursuits and tragic fate during the eruption of Vesuvius shaped his worldview Through his correspondence Pliny reflects the intellectual currents of his time showcasing his upbringing in a wealthy and educated milieu while navigating the intricate dynamics of political life in Rome His letters reveal a mind deeply engaged with the philosophical and civic questions of his era making him a key figure in the intellectual landscape of ancient Rome Readers seeking a sophisticated exploration of personal and social dynamics in the ancient world will find Letters of Pliny to be an essential text Its combination of literary finesse and historical significance invites rich reflection on the nature of communication power and the human experience This collection not only enriches our understanding of Roman culture but also resonates with timeless themes that continue to echo in contemporary discourse

### **Ancient Roman Literary Gardens**

K. Sara Myers, 2024 Beginning with Cicero and Varro and ending with Statius and Pliny the Younger this chapter offers a chronological investigation of the ways in which real and literary gardens developed from the first century BCE to the first century CE as a means of elite masculine self representation and the reactions of elite Roman men to the increased social and cultural power of villa and horti estates and their grounds Gardens served as powerful symbols of wealth and as creative displays of the cultural aspirations of their owners in ways that challenged traditional definitions of gardens and of Roman manliness Since these large scale gardens are primarily associated with leisure otium authors are concerned with describing and justifying their activities in these sites as befitting Roman masculine ideals We can trace a change in attitude towards leisure and the private display of wealth and consequently gardens largely attributed to changes in the socio political circumstances of the Roman elite in the works of Statius and his contemporary Pliny the Younger who use laudatory descriptions of extensive villas and grounds as a means of expressing social and literary power

### The Translator's Art

William Radice, Barbara Reynolds, 1987 *Letters and Communities* Paola Ceccarelli, Lutz Doering, Thorsten Fögen, Ingo Gildenhard, 2018-08-16 The writing of letters often evokes associations of a single author and a single addressee who share in the exchange of intimate thoughts across distances of space and time This model underwrites such iconic notions as the letter representing an image of the soul of the author or constituting one half of a dialogue However justified this conception of letter writing may be in particular instances it tends to marginalize a range of issues that were central to epistolary communication in the ancient world and have yet to receive sustained and systematic investigation In particular it overlooks the fact that letters frequently presuppose and were designed to reinforce communities or indeed to constitute them in the first place This volume explores the interrelation of letters and communities in the ancient world examining how epistolary communication aided in the construction and cultivation of group identities and communities whether social political religious ethnic or philosophical A theoretically informed Introduction establishes the interface of epistolary discourse and

group formation as a vital but hitherto neglected area of research and is followed by thirteen case studies offering multi disciplinary perspectives from four key cultural configurations Greece Rome Judaism and Christianity The first part opens the volume with two chapters on the theory and practice of epistolary communication that focus on ancient epistolary theory and the unavoidable presence of a letter carrier who introduces a communal aspect into any correspondence while the second comprises five chapters that explore configurations of power and epistolary communication in the Greek and Roman worlds from the archaic period to the end of the Hellenistic age Five chapters on letters and communities in Ancient Judaism and Early Christianity follow in the third part before the volume concludes with an envoi examining the trans historical or indeed timeless philosophical community Seneca the Younger construes in his Letters to Lucilius Roman Literary Cultures Alison Keith,Jonathan Edmondson,2016-06-16 Drawing on the historicizing turn in Latin literary scholarship Roman Literary Cultures combines new critical methods with traditional analysis across four hundred years of Latin literature from mid republican Rome in the second century BC to the Second Sophistic in the second century AD The contributors explore Latin texts both famous and obscure from Roman drama and Menippean satire through Latin elegies epics and novels to letters issued by Roman emperors and compilations of laws Each of the essays in this volume combines close reading of Latin literary texts with historical and cultural contextualization making the collection an accessible and engaging combination of formalist criticism and historicist exegesis that attends to the many ways in which classical Latin literature participated in ancient Roman civic debates Handbook of Autobiography / Autofiction Martina Wagner-Egelhaaf,2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e g the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self portraits and autofiction as well as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers
