Plot To Kill The Pope:

The Plot to Kill the Pope, 1983 *The Plot to Kill the Pope* Paul B. Henze, 1983 A former top government official presents evidence that the kremlin was the instigator and the Bulgarian Secret Service the Supcontractor in the attack on Pope John Paul II on May 13 1981 **The Darkest Sides of Politics, I** Jeffrey M. Bale, 2017-09-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The first volume in this two volume collection focuses on the history of underground neo fascist networks in the post World War II era neo fascist paramilitary and terrorist groups operating in Europe and Latin America in the 1960s and 1970s and the manipulation of those and other terrorist organizations by the security forces of various states both authoritarian and democratic A range of global case studies are included all of which focus on the lesser known activities of certain secular extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics **God's Bankers** Gerald Posner, 2015-09-15 From a master chronicler of legal and financial misconduct a magnificent investigation nine years in the making this book traces the political intrigue and inner workings of the Catholic Church Decidedly not about faith belief in God or religious doctrine this book is about the church s accumulation of wealth and its byzantine entanglements with financial markets across the world Told through 200 years of prelates bishops cardinals and the Popes who oversee it all Gerald Posner uncovers an eyebrow raising account of money and power in perhaps the most influential organization in the history of the world God s Bankers has it all a rare expos and an astounding saga marked by poisoned business titans murdered prosecutors mysterious deaths of private investigators and questionable suicides a carnival of characters from Popes and cardinals financiers and mobsters kings and prime ministers and a set of moral and political circumstances that clarify not only the church s aims and ambitions but reflect the larger dilemmas of the world s more recent history And Posner even looks to the future to surmise if Pope Frances can succeed where all his predecessors failed to overcome the resistance to change in the Vatican s Machiavellian inner court and to rein in the excesses of its seemingly uncontrollable financial quagmire Part thriller part financial tell all this book shows with extraordinary precision how the Vatican has evolved from a foundation of faith to a corporation of extreme wealth and power *Murder on Camac* Joseph R. G. DeMarco, 2009 When author Helmut Brandt is killed in an apparent mugging P I Marco Fontana is hired by Brandt s partner who suspects this was premeditated murder Brandt s work on the death of Pope John Paul I angered people in and out of the Church and made him more than a few enemies His death happens soon after Brandt claims to have incontrovertible new evidence implicating people never before suspected Fontana doesn t believe in coincidences and takes the case A former

Catholic himself he knows that uncovering Brandt's killer means more than exposing a thirty year old plot to kill the Pope it could also ruin the people named in the documents Brandt is supposed to have Of course if Brandt's enemies have killed once over this information they won't hesitate to murder a P I who gets too close to the truth Entering the arcane world of the Catholic Church Fontana encounters forces determined to keep him from getting to the truth Though he manages to gain access to the upper levels of the Archdiocesan hierarchy Fontana realizes that the web of power and deceit is every bit as intricate tangled and deadly as he imagined As the owner of StripGuyz a troupe of male strippers Fontana is no stranger to the seamier parts of the Philadelphia gayborhood But in this case he finds that there is an even murkier side to life in the city of Brotherly Love

THE VATICAN CONSPIRACY Peter Kross, 2018-02-04 The Vatican Conspiracy Intrigue in St Peter's Square tells the untold story of the secret Vatican US connection from World War II to the 1980s under President Reagan You will learn a little known story of an American military officer who was killed some say by his own men in Italy during the war culminating in a congressional investigation when the war ended You will learn of James Angleton's work as an American spy in Italy during the war and his relationship with the Church and how the OSS infiltrated agents into the Vatican to aid the efforts to oust Hitler Kross then goes extensively into the so called Rat Line which allowed Nazi leaders like Josef Mengele Klaus Barbie and Adolf Eichmann to escape to South America with the help of the US The book covers Operation Paperclip and Operation Safehaven in which Switzerland laundered money from Germany in order to pay that nation's cost of the war The final chapters delve into the most recent intrigues in the Vatican including the attempted assassination of Pope John Paul II in Rome and who might have been behind it the Soviet Union or Bulgaria and the mysterious death of Pope John Paul I in Rome who died after serving only 33 days in office Also covered is the Vatican Bank scandal involving Roberto Calvi and an American Bishop named Paul Marcinkus The final chapter involves the murders of two Swiss Guardsmen by one of their own men This is a tale that most readers of history do not know but one that must be told History is never what it seems to be not cut and dried not exactly what we were led to believe

Antiterrorist Initiatives John B. Wolf, 2012-12-06 Traditionally terrorist bands operating in rural or urban areas use violence to cast themselves as a legitimate political force Necklacing placing an oil soaked tire around the neck of an informer and then igniting it and knee capping positioning a handgun behind the kneecap of a tout a police informer and then squeezing the trigger are among the enforcement methods used by clandestine groups to administer revolutionary justice Necklacing is used by the African National Congress A N C Knee capping is a traditional Irish Republican Army I R A tactic Governments frequently lend credibility to the terrorists claim of legitimacy by not implementing measures intended to extirpate them Frequently democratic societies fear that rigid control measures pose a threat to civil liberties Reluctant to move a democracy is often hamstrung by terrorists bent on manipulating its values A media campaign intended to mobilize public opinion against the terrorists and garner mass support for the government and its control measures is the linchpin of any antiterrorist campaign Centralized intelligence gathering

is another essential component Terrorism when it becomes a regular campaign of bombings and other atrocities is no longer a problem for just the police and the army The entire society is affected For example all groups comprising the multi ethnic population of Sri Lanka and South Africa are presently exposed to the terrorist threat

Dictionary of Terrorism John Richard Thackrah, 2013-09-05 This revised and updated second edition of a major reference work in the area contains definitions and descriptions of all aspects of terrorism and political violence

Shame the Devil Wayne J. Guglielmo, 2023-04-15 When the press loses sight of truth and falls prey to bias American press critics push back to safeguard our free and democratic nation Journalists are no strangers to criticism and some have even seen disagreements turn to outrage and acts of violence There is another history of press criticism though This one as a rule doesn't resort to physical threat or denunciation Nevertheless it can be merciless when critics think the press has become too slanted in one direction has fallen short of some ideal is too concentrated for its own good or seems to be underreporting or ignoring some critical story of the day Shame the Devil is a sweeping look at this other history Beginning with Walter Lippmann rightly regarded as the first modern press critic Shame the Devil provides a chapter by chapter profile and analysis of his successors Many critics work within the profession of journalism while some consider it from the outside These include George Seldes A J Liebling Ben Bagdikian Reed Irvine Neil Postman and Noam Chomsky A concluding chapter brings together a diverse group of contemporary critics including Sharyl Attkisson Brooke Gladstone Eric Deggans Amy Goodman Janine Jackson and Candace Owens Merging history biography and a candid analysis of various critical points of view Shame the Devil moves from press commentary in the bitter aftermath of World War I to the head spinning paradoxes of the post truth era Throughout some of America's best critics contend with both the big events of their day and the big issues of journalism to ask the always vital question How can the press help to create and sustain a more democratic society

Dark Mysteries of the Vatican H. Paul Jeffers, 2010 Arranged chronologically and thematically Dark Mysteries of the Vatican sifts fact from fiction and illuminates the truth of what lies in the archives From murder in Holy Orders to financial scandal and UFOs this is the definitive volume on the most secretive place on earth Most books about the Vatican are dense and scholarly but Jeffers delivers an easy to read fact driven investigation covering historical as well as current events

Heroin, Organized Crime, and the Making of Modern Turkey Ryan Gingeras, 2014-06-20 Heroin Organized Crime and the Making of Modern Turkey explores the history of organized crime in Turkey and the roles which gangs and gangsters

have played in the making of the Turkish state and Turkish politics Turkey's underworld which has been at the heart of several devastating scandals over the last several decades is strongly tied to the country's long history of opium production and heroin trafficking As an industry at the centre of the Ottoman Empire's long transition into the modern Turkish Republic as important as the silk road had been in earlier centuries the modern rise of the opium and heroin trade helped to solidify and complicate long standing relationships between state officials and criminal syndicates Such relationships produced not only ongoing patterns of corruption but helped fuel and enable repeated acts of state violence Drawing upon new archival sources from the United States and Turkey including declassified documents from the Prime Minister's Archives of the Republic of Turkey and the Central Intelligence Agency Heroin Organized Crime and the Making of Modern Turkey provides a critical window into how a handful of criminal syndicates played supporting roles in the making of national security politics in the contemporary Turkey The rise of the Turkish mafia from its origins in the late Ottoman period to its role in the deep state revealed by the so called Susurluk and Ergenekon scandals is a story that mirrors troubling elements in the republic's establishment and emphasizes the transnational and comparative significance of narcotics and gangs in the country's past

Worst-Case Scenario? Doctor Stuart Price, 2013-07-04 In this original and provocative new book Stuart Price identifies the existence of a practice that lies at the core of the western security regime the worst case scenario This consists of the projection of a significant material threat made by an authoritative or executive power used to bolster the security agenda of the neo liberal state This in turn has altered the conduct of military and police operations which are increasingly directed against any substantial expression of dissent Using a wide range of official sources and case studies from 9 11 to the Stockwell shooting Price analyses the paramilitary political economic and cultural manoeuvres of the security regime as it attempts to reproduce a command structure within civil society In doing so he demonstrates that unlike the openly totalitarian states of the past bureaucratic rule is favoured over charismatic leadership and the ostentatious display of coercive authority is characterised as a temporary measure It is he argues a process that must be recognised and resisted
