## Plume Sechappe:

**Richardson and the Philosophes** James Fowler, 2017-07-05 In mid eighteenth century Europe a taste for sentiment accompanied the rise of the novel and the success of Samuel Richardson 1689 1761 played a vital role in this James Fowler's new study is the first to compare the response of the most famous philosophes to the Richardson phenomenon Voltaire who claims to despise the novel writes four Richardsonian fictions Diderot's fascination with the English author is expressed in *La Religieuse* Rousseau's in *Julie* the century's bestseller Yet the philosophes' response remains ambivalent On the one hand they admire Richardson's ability to make the reader weep On the other they champion a range of Enlightenment beliefs which he an enthusiast of Milton vehemently opposed In death as in life the English author exacerbates the philosophes' rivalry The eulogy which Diderot writes in 1761 implicitly asks who can write a new *Clarissa* But also whose social philosophical or political ideas will triumph as a result

**Voluptuous Philosophy** Natania Meeker, 2006 In 18th century France matter itself in forms ranging from atoms to anatomies became a privileged object of study This book defines what is at stake in the emergence of an enlightened secular materialism by showing how questions of figure are consistently located at the very heart of 18th century debates on the nature of material substance

**Picture as Spectre in Diderot, Proust, and Deleuze** Thomas Baldwin, 2017-12-02 The possibility of ekphrasis the verbal representation of visual imagery is fundamental to all writing about art be it art criticism theory or a passage in a novel But there is no consensus concerning how such representation works Some take it for granted that writing about art can result in a precise match between words and visual images For others ekphrasis amounts to a kind of virtuoso rivalry in which the writer aims to outdo the pictorial image that is being described In close readings of Diderot Proust and Deleuze Thomas Baldwin shows how ekphrasis can create a spectral effect In other words ekphrastic spectres do not function as fully present stand ins for given works of art nor can they be reduced to the status of passive and absent others Baldwin also explores the ways in which the works of Diderot Proust and Deleuze inhabit each other as ghostly influences
