Plundering Paradise The Struggle For The Environment In The Philippines:

Plundering Paradise Robin Broad, John Cavanagh, 2023-11-15 This gripping portrait of environmental politics chronicles the devastating destruction of the Philippine countryside and reveals how ordinary men and women are fighting back. Traveling through a land of lush rainforests the authors have recorded the experiences of the people whose livelihoods are disappearing along with their country's natural resources. The result is an inspiring informative account of how peasants, fishers and other laborers have united to halt the plunder and to improve their lives. These people do not debate global warming they know that their very lives depend on the land and oceans so they block logging trucks protest open pit mining and replant trees. In a country where nearly two thirds of the children are impoverished the reclaiming of natural resources is offering young people hope for a future. *Plundering Paradise* is essential reading for anyone interested in development the global environment and political life in the Third World. Nongovernmental Organizations in Environmental Struggles Raymond L. Bryant, 2008-10-01 Why are nongovernmental organizations NGOs so successful in today's world? How do they empower themselves? This insightful book provides important new perspectives on the strategic thinking of NGOs the way they identify themselves and how they behave. Raymond L. Bryant develops a novel theoretical perspective around the concept of moral capital and assesses that concept through in depth case studies of NGOs in the Philippines. The book's focus is on perceptions of NGOs as moral and altruistic and how such perceptions can translate into social power. Bryant examines the ambiguous qualities of NGO strategizing the ways in which the quest for moral capital is bedeviled by the need to compromise with political and economic elites and the possibilities for NGOs to achieve political goals as moral leaders.

Philippine Politics Lynn White III, 2014-12-17 Philippine political history especially in the twentieth century challenges the image of democratic evolution as serving the people and does so in ways that reveal inadequately explored aspects of many democracies. In the first decades of the twenty first century the Philippines has nonetheless shown gradual socioeconomic progress. This book provides an interpretive overview of Philippine politics and takes full account of the importance of patriotic Philippine factors in making decisions about future political policies. It analyses whether regional and local politics have more importance than national politics in the Philippines. Discussing cultural traditions of patronism it also examines how clan feuds localize the state and create strong local policies. These conflicts in turn make regional and family run polities collectively stronger than the central state institution. The book goes on to explore elections in the Philippines and in particular the ways in which politicians win democratic elections the institutionalized role of public money in this process and the role that media plays. Offering a new interpretive overview of Philippine progress over many decades the author notes recent economic and political changes.

during the current century while also trying to advance ideas that might prove useful to Filipinos Presenting an in depth analysis of the problems and possibilities of politics and society in the Philippines the book will be of interest to those researching Southeast Asian Politics Political History and Asian Society and Culture **Mass Migration in the World-system** Terry-Ann Jones, Eric Mielants, 2015-11-17 Mass Migration in the World System brings to light the multiple experiences of migrants across different zones of the world economy By engaging wide ranging ideas and theoretical viewpoints of the migration process the labor market for immigrants and the rights of migrants this book provides an important and much needed interdisciplinary perspective on the issues of mass migration **Shifting Cultivation Policies** Malcolm Cairns, 2017-11-13 Shifting cultivation supports around 200 million people in the Asia Pacific region alone It is often regarded as a primitive and inefficient form of agriculture that destroys forests causes soil erosion and robs lowland areas of water These misconceptions and their policy implications need to be challenged Swidden farming could support carbon sequestration and conservation of land biodiversity and cultural heritage This comprehensive analysis of past and present policy highlights successes and failures and emphasizes the importance of getting it right for the future This book is enhanced with supplementary resources The addendum chapters can be found at www.cabi.org/openresources 91797

Ecological Liberation Theology William Holden, Kathleen Nadeau, Emma Porio, 2017-02-15 Climate change related effects and aftermaths of natural disasters such as Typhoon Haiyan in the Philippines have wreaked havoc on local peoples lives and livelihoods especially in impoverished coastal communities This book looks at local level responses to the effects of climate change from the perspective of ecological theology and feminism which provides a solution based and gender equitable approach to some of the problems of climate change It examines how local social and religious action workers are partnering with local communities to transform and reconstruct their lives and livelihoods in the 21st century **Making World Development Work** Grégoire Leclerc, Charles A. S. Hall, 2007-06-16 The authors reexamine world development usually the province of economists as professionals trained in the natural sciences They show how we have and might use tested scientific and technical procedures and concepts as well as science itself to achieve much better results than what has been characteristic of the past Leclerc and Hall contend that to scholars with a scientific background the process of development and the economic logic behind it often look almost surrealistic The basic question at the foundation of this review is this Why should something so important as world development something capable of absorbing such vast sums of money and of human goodwill something that impacts the people and the environment so much continue to be organized and planned using economic techniques and theories that are both unconfirmed experimentally and proven to have led to development failures **BOOK JACKET The Rough Guide to the Philippines** David Dalton, Stephen Keeling, 2013-10-10 The Rough Guide to the Philippines is the ultimate companion for exploring this stunning Southeast Asian archipelago Discover the Philippines highlights in full colour with information on everything from the sun kissed islands of the Visayas to

A ^AGreener Faith Roger S. Gottlieb,2006-06-15 Gottlieb deftly analyzes the growing synthesis of the environmental movement s religious social and political aspects as well as the challenges it faces in consumerism fundamentalism and globalization Highly engaging and passionately argued this book is an indispensable resource for people of faith environmentalists scholars and anyone who is concerned about our planet s future

A Generation Later James F. Eder,1999-09-01 A Generation Later moves beyond analytical models of rural change that focus on the peasant agricultural aspect of rural communities and makes a convincing case for an approach that integrates farm and nonfarm occupations and does justice to the conditions of occupational multiplicity that characterize to an increasing extent many of the rural communities in Asia In this context it challenges conventional and simplistic peasant to proletarian views of change Rather than finding a dreary and dispirited landscape of sameness and hardship it offers some empirical support for amore optimistic view of the region s future one of growing household prosperity and widespread individual opportunity

The Politics of NGOs in Southeast Asia Gerard Clarke,2006-05-17 The Politics of NGOs in Southeast Asia traces the history of the emergence of NGOs in the Philippines and southeast Asia and the political factors which encouraged this The main focus is on the period from the mid 1990s when NGOs first became a notable force in the region It documents the complex relations between NGOs and other political actors including the state organised religion foreign donors the business sector and underground insurgent groups and their impact on NGO strategy

Against the Grain Bradley B. Walters,2008 To rise to the increasingly urgent challenge of understanding the relationship between human beings and the environment scholars need to step back and re evaluate their basic premises about how current explanations should shape the form and content of their research Against the Grain addresses a variety of topics in the field of human ecology including ecological anthropology evolutionary psychology environmental history and geography and challenges scholars to re think the adequacy of their methods and assumptions Andrew P Vayda concludes the volume with a critical commentary on these issues and more widely on the subject of explanation The result is an extremely useful and provocative prZcis for thinking about re evaluating and rectifying scholarly research
