Wiyot Grammar and Texts Gladys Amanda Reichard, 1925 **Eskimo Grammar** Canada. Interior Department. Northwest territories and Yukon branch, 1883 **Love** Anna G. Jónasdóttir, Ann Ferguson, 2013-11-12 This unique timely book of original essays sets the stage for a new materialist feminist debate on the analysis ethics and politics of love The contributors raise questions about social power and domination situating their research in a materialist feminist perspective that investigates love historically in order to understand changing ideologies representations and practices The essays range from studies of particular representations and examples of love feminist translation mass media images and internet love blogs to feminist theories of love and marriage to ethical and political theories describing critiquing or advocating the use of love in groups as a radical force They break new ground in bringing together questions of gendered interests in love temporal dimensions of loving practices and the politics of love in radical transformations of society **Love and Freedom** Jorge N. Ferrer, 2021-06-24 In *Love and Freedom* Jorge Ferrer proposes a paradigm shift in how romantic relationships are conceptualized a step forward in the evolution of modern relationships In the same way that the transgender movement surmounted the gender binary Ferrer defines how a parallel step can and should be taken with the relational style binary This book offers the first systematic discussion of relationship modes beyond monogamy and polyamory as well as introduces the notion of relational freedom as the capability to choose one's relational style free from biological psychological and sociocultural conditionings To achieve these goals Ferrer first discusses a number of critical categories specifically monopride polyphobia and polypride monophobia that mediate the contemporary mono poly wars that is the predicament of mutual competition among monogamists and polyamorists The ideological nature of these mono poly wars is demonstrated through a review of available empirical literature on the psychological health and relationship quality of monogamous and polyamorous individuals and couples Then after showing how monogamy and polyamory ultimately reinforce each other Ferrer articulates three relational pathways to living in between through and beyond the mono poly binary fluidity hybridity and transcendence Moving beyond that binary opens a fuzzy liminal and multivocal relational space that Ferrer calls novogamy In this groundbreaking book readers will learn practical tools to not only transform jealousy but also enhance their relational freedom while being aware of key issues of diversity and social justice They will also learn novel criteria to evaluate the success of their intimate relationships and be introduced to a transformed vision of romantic love beyond both monocentrism and emerging polynormativities *The Grammar of English Grammars* Gould Brown, 1860 **The Grammar of English Grammars, with an Introduction, Historical and Critical** Gould Brown, 1869 **A Universal and Critical Dictionary of the English Language** Joseph Emerson Worcester, 1846 **A Dictionary of the English Language** Joseph Emerson Worcester, 1859 **Encyclopædia Americana** Francis Lieber, Edward Wigglesworth, 1831 Smith's New Grammar Roswell Chamberlain Smith, 1861 *Thousand words of Mohawk* Gunther Michelson, 1973-01-01 This is a brief

relatively non technical introduction to Mohawk grammar followed by a root list from Mohawk to English and English to Mohawk Published in English **A Middle English Syntax** Tauno F. Mustanoja, 2016-08-18 For a good orientation into the history of English grammar several books are indispensable One of those is Mustanoja's *A Middle English Syntax* However for a long time this work was not readily available the present edition changes that This is a fac simile reprint from the 1960 publication which appeared as volume XXIII in *Moires de la Soci t N ophilologique de Helsinki* with a new Introduction by Elly van Gelderen Compared to Old English Middle English has fewer grammars and textbooks devoted to it This book provides an interesting supplement by going deeper into certain questions and especially into exceptions The book points out differences with Old English and certain peculiarities of the Middle English system It was originally written for students of Middle English literature but serves a linguist well in detailed descriptions of the parts of speech the use of the various cases gender and number Word order complex sentences and conjunctions were meant to be dealt with in a second volume which was never published **The Popular Encyclopedia; Or "Conversations Lexicon": Being a General Dictionary of Arts, Science, Literature, Biography, History, Ethics and Political Economy** Encyclopaedias, 1841 English Grammar, on the Productive System Roswell Chamberlain Smith, 1849 *Illicit Monogamy* William R. Jankowiak, 2023-03-28 Angel Park is a Mormon fundamentalist polygamous community where plural marriages between one man and multiple women are common In contrast to mainstream America's idealization of the nuclear family and romantic love its residents esteem notions of harmonious familial love a spiritual bond that unites all family members In their view polygyny is not only righteous and sanctified it is also conducive to communal life and social stability Based on many years of in depth ethnographic research in Angel Park this book explores daily life in a polygamous community William R Jankowiak considers the plural family from the points of view of husbands wives and children giving a balanced account of its complications and conflicts He finds that people in polygynous marriages especially cowives experience an ongoing struggle to balance the longing for romantic intimacy with the obligation to support the larger family They feel tension between deeply held religious convictions and the desire for emotional exclusivity which can threaten the stability and harmony of the polygamous family Men and women often form exclusive romantic pairs within plural marriages which are tolerated if not openly acknowledged showing the limits of the community's beliefs Jankowiak also challenges stereotypes of polygamous families as bastions of patriarchal power showing the weight that interpersonal and social expectations place on men Offering an unparalleled look at the complexity of a polygamous religious community *Illicit Monogamy* also helps us reconsider relationships love and family dynamics across cultures and settings **The Metaphysics of Knowledge** Keith Hossack, 2007-09-20 The *Metaphysics of Knowledge* presents the thesis that knowledge is an absolutely fundamental relation with an indispensable role to play in metaphysics philosophical logic and philosophy of mind and language Knowledge has been generally assumed to be a propositional attitude like belief But Keith Hossack argues that knowledge is not a relation to a content rather it a

relation to a fact This point of view allows us to explain many of the concepts of philosophical logic in terms of knowledge Hossack provides a theory of facts as structured combinations of particulars and universals and presents a theory of content as the property of a mental act that determines its value for getting knowledge He also defends a theory of representation in which the conceptual structure of a content is taken to picture the fact it represents This permits definitions to be given of reference truth and necessity in terms of knowledge Turning to the metaphysics of mind and language Hossack argues that a conscious state is one that is identical with knowledge of its own occurrence This allows us to characterise subjectivity and by illuminating the I concept allows us to gain a better understanding of the concept of a person Language is then explained in terms of knowledge as a device used by a community of persons for exchanging knowledge by testimony The Metaphysics of Knowledge concludes that knowledge is too fundamental to be constituted by something else such as one's functional or physical state other things may cause knowledge but do not constitute it
