Plutarch's Lives

Tim Duff, 2002 *The Parallel Lives of Plutarch* c AD 45-120 a vast retrospective series of biographies of Greek and Roman statesmen have always been one of the most widely read of the works which survive from classical antiquity. They were written when Roman imperial power was reaching its height and are sophisticated examples of a renaissance classicism linguistic literary philosophical and historical which formed a Greek reaction to Roman domination. The *Parallel Lives* thus offer us a unique insight into the reception of Classical Greece and Republican Rome in the Greek world of the second century AD. They also explore and challenge issues of psychology education morality and cultural identity. In this new study discussions of Plutarch's literary techniques and moral conceptions are combined with case studies of a number of paired Lives: Pyrrhos, Marius, Phokion, Cato Minor, Lysander, Sulla and Coriolanus, Alkibiades. As the author demonstrates the parallel structure of the *Lives* is not only vital to their interpretation but also reflects a Greek attempt to appropriate and make sense of the pasts of both Greece and Rome.

Shakespearean Intersections Patricia Parker, 2018-05-02 What does the keyword continence in *Love's Labor's Lost* reveal about geopolitical boundaries and their breaching? What can we learn from the contemporary identification of the quince with weddings that is crucial for *A Midsummer Night's Dream*? How does the evocation of Spanish occupied Brabant in *Othello* resonate with contemporary geopolitical contexts? Wordplay on Low Countries and fears of sexual territorial occupation. How does *supposes* connote not only sexual submission in *The Taming of the Shrew* but also the transvestite practice of boys playing women and what does it mean for the dramatic recognition scene in *Cymbeline*? With dazzling wit and erudition Patricia Parker explores these and other critical keywords to reveal how they provide a lens for interpreting the language contexts and preoccupations of Shakespeare's plays. In doing so she probes classical and historical sources theatrical performance practices geopolitical interrelations hierarchies of race gender and class and the multiple significances of preposterousness including reversals of high and low male and female Latinate and vulgar sinister or backward writing and latter ends both bodily and dramatic. Providing innovative and interdisciplinary perspectives on Shakespeare from early to late and across dramatic genres Parker's deeply evocative readings demonstrate how easy to overlook textual or semantic details reverberate within and beyond the Shakespearean text and suggest that the boundary between language and context is an incontinent divide.
