Plutarch's Lives IV Alcibiades And Coriolanus Lysander And Sulla Loeb Classical Library:

Plutarch's lives Plutarchus, 1968 *Plutarch's Lives* Tim Duff, 2002 The Parallel Lives of Plutarch c AD 45-120 a vast retrospective series of biographies of Greek and Roman statesmen have always been one of the most widely read of the works which survive from classical antiquity They were written when Roman imperial power was reaching its height and are sophisticated examples of a renaissance classicism linguistic literary philosophical and historical which formed a Greek reaction to Roman domination The Parallel Lives thus offer us a unique insight into the reception of Classical Greece and Republican Rome in the Greek world of the second century AD They also explore and challenge issues of psychology education morality and cultural identity In this new study discussions of Plutarch's literary techniques and moral conceptions are combined with case studies of a number of paired Lives Pyrrhos Marius Phokion Cato Minor Lysander Sulla and Coriolanus Alcibiades As the author demonstrates the parallel structure of the Lives is not only vital to their interpretation but also reflects a Greek attempt to appropriate and make sense of the pasts of both Greece and Rome Plutarch's Cities Lucia Athanassaki, Frances Titchener, 2022-02-15 Plutarch's Cities is the first comprehensive attempt to assess the significance of the polis in Plutarch's works from several perspectives namely the polis as a physical entity a lived experience and a source of inspiration the polis as a historical and sociopolitical unit the polis as a theoretical construct and paradigm to think with The book's multifocal and multi-perspectival examination of Plutarch's cities past and present real and ideal yields some remarkable corrections of his conventional image Plutarch was neither an antiquarian nor a philosopher of the desk He was not oblivious to his surroundings but had a keen interest in painting sculpture monuments and inscriptions about which he acquired impressive knowledge in order to help him understand and reconstruct the past Cult and ritual proved equally fertile for Plutarch's visual imagination Whereas historiography was the backbone of his reconstruction of the past and evaluation of the present material culture cult and ritual were also sources of inspiration to enliven past and present alike Plato's descriptions of Athenian houses and the Attic landscape were also a source of inspiration but Plutarch clearly did his own research based on autopsy and on oral and written sources Plutarch Plato's disciple and Apollo's priest was on balance a pragmatist He did not resist the temptation to contemplate the ideal city but he wrote much more about real cities as he experienced or imagined them **Imitation and Contamination of the Classics in the Comedies of Ben Jonson** Tom Harrison, 2022-10-12 This book focuses on the influence of classical authors on Ben Jonson's dramaturgy with particular emphasis on the Greek and Roman playwrights and satirists It illuminates the interdependence of the aspects of Jonson's creative personality by considering how classical performance elements including the Aristophanic Great Idea chorus Terentian Plautine performative strategies and performative elements from literary satire manifest themselves in the structuring and staging of his plays This fascinating exploration contributes to the performative turn in early modern studies by reframing Jonson's classicism as essential to his dramaturgy as well as his erudition The book is also a case study for how

the early modern education system's emphasis on imitative contaminative practices prepared its students many of whom became professional playwrights for writing for a theatre that had a similar emphasis on recycling and recombining performative tropes and structures

Grief and Sorrow in the Roman World Anthony Smart, 2024-12-26 Engaging with the long history of emotions this book provides a new narrative of how grief was defined experienced and used in Ancient Rome From studies of tears and weeping to Roman funerary monuments and inscriptions the role of female grief in navigating political conflict and letters of consolation *Grief and Sorrow in the Roman World* explores the language of grief and individuality of sorrow in Rome and asks how and why they shaped their emotions in this way Revisiting familiar sources such as Livy and Plutarch it offers new interpretations to place the Roman emotional framework against our own Can we recognise our own notions of grief in the Ancient World Do we feel pain in the same way as our Roman ancestors did Exploring these questions and more Anthony Smart challenges existing perceptions of grief and sorrow in the Roman world and places emotions at the centre of this rich culture

Plutarch's Lives: Alcibiades and Coriolanus. Lysander and Sulla Plutarch, 1959

Eratosthenes and the Measurement of the Earth's Circumference (c.230 BC) Christopher A.

Matthew, 2023-06-05 Eratosthenes and the Measurement of the Earth's Circumference c 230 BC is an innovative and thought provoking examination of one of the pivotal moments in the history of science This text analyses a debate that has been going on for more than 2 300 years over the accuracy of Eratosthenes experiment and calculations and puts to rest all prior theories that have come before This work engages with this long running debate by applying innovative and multi disciplinary methods such as linguistic analysis mathematical modelling satellite mapping archaeological investigation and historical examination that creates the first ever combined exploration of this important event in the history of astronomy

The Spartan Scytale and Developments in Ancient and Modern Cryptography Martine Diepenbroek, 2023-11-16 This book offers a comprehensive review and reassessment of the classical sources describing the cryptographic Spartan device known as the scytale Challenging the view promoted by modern historians of cryptography which look at the scytale as a simple and impractical stick Diepenbroek argues for the scytale's deserved status as a vehicle for secret communication in the ancient world By way of comparison Diepenbroek demonstrates that the cryptographic principles employed in the Spartan scytale show an encryption and coding system that is no less complex than some 20th century transposition ciphers The result is that contrary to the accepted point of view scytale encryption is as complex and secure as other known ancient ciphers Drawing on salient comparisons with a selection of modern transposition ciphers and their historical predecessors the reader is provided with a detailed overview and analysis of the surviving classical sources that similarly reveal the potential of the scytale as an actual cryptographic and steganographic tool in ancient Sparta in order to illustrate the relative sophistication of the Spartan scytale as a practical device for secret communication This helps to establish the conceptual basis that the scytale would in theory have offered its ancient users a secure method for secret communication over long distances

An

Invincible Beast Christopher Matthew, 2015-11-30 An innovative study of the Macedonian war machine's sarissa-wielding infantry under such leaders as Philip II and Alexander the Great. The Hellenistic pike phalanx was a true military innovation transforming the face of warfare in the ancient world. For nearly 200 years, from the rise of the Macedonians as a military power in the mid-fourth century BC to their defeat at the hands of the Romans at Pydna in 168 BC, the pike-wielding heavy infantryman, the phalangite, formed the basis of nearly every Hellenistic army to deploy on battlefields stretching from Italy to India. And yet, despite this dominance and the vast literature dedicated to detailing the history of the Hellenistic world, there remains fierce debate among modern scholars about how infantry combat in this age was actually conducted. Christopher Matthews critically examines phalanx combat by using techniques such as physical reconstruction, experimental archaeology, and ballistics testing, and then comparing the findings of this testing to the ancient literary, artistic, and archaeological evidence, as well as modern theories. The result is the most comprehensive and up-to-date study of what heavy infantry combat was like in the age of Alexander the Great and his successors.

The American Historical Review John Franklin Jameson, Henry Eldridge Bourne, Robert Livingston Schuyler, 1917 American Historical Review is the oldest scholarly journal of history in the United States and the largest in the world. Published by the American Historical Association, it covers all areas of historical research.

Plutarch's Lives in Eleven Volumes Plutarch, 1916

Recreating Ancient History: Episodes from the Greek and Roman Past in the Arts and Literature of the Early Modern Period, 2021-10-25 This volume deals with the question: how did scholars and artists in the early modern period represent or rather recreate Greek and Roman history? It appears that ancient history was not just studied so as to reconstruct the past; it was used as a way of understanding and legitimizing the present. Sixteen authors from various disciplines have studied the works of scholars and artists in different media so as to reveal how they used ancient history as a rich field of raw material that could be used, recycled, and adapted to new needs and purposes. The studies in this volume are important for historians of the early modern period from all disciplines and for all those interested in the reception of classical antiquity. Contributors include Maria Berbera, Jan Bloemendal, Anton Boschloo, Jeanine De Landtsheer, Jan L. de Jong, Karl Enenkel, Marc Laureys, Olga van Marion, Alicia Montoya, Mark Morford, Bettina Noak, Sjaak Onderdelinden, Paul Smith, Wilfried Stroh, Francesca Terrenato, Arnoud Visser, and Bart Westerweel. This publication has also been published in paperback; please click here for details.

The Classical Journal, 1917

Thucydides on International Law and Political Theory Iacovos Karelak, 2020-01-20 Thucydides on International Law and Political Theory demonstrates that in classical times, especially in the era of the Peloponnesian War, international law and strategy existed in an advanced form among the city-states of ancient Greece. It shows how the work of Thucydides and classical Greek international law and politics have influenced aspects of modern international law and international politics. Iacovos Karelak extensively analyzes Thucydidean political realism and indicates how it differs from modern realist and neo-realist theories of politics and presents that the just war theory of Thucydides's time formed the legal

and political basis of contemporary kinds of military intervention Further interstate treaties as listed in the work of Thucydides are categorized interpreted and commented upon The military strategy of classical Greece and the role of religion in foreign policy decision making are also emphasized A Storm of Spears Christopher Matthew,2012-05-09 A practical and thought provoking study of the ancient military tactic known as the phalanx the classic battle formation used in historic Greek warfare The Historian In ancient Greece warfare was a fact of life with every city brandishing its own fighting force And the backbone of these classical Greek armies was the phalanx of heavily armored spearmen or hoplites These were the soldiers that defied the might of Persia at Marathon Thermopylae and Plataea and more often than not fought each other in countless battles between the Greek city states For centuries they were the dominant soldiers of the classical world in great demand as mercenaries throughout the Mediterranean and Middle East Yet despite the battle descriptions left behind and copious evidence in Greek art and archaeology there are still many aspects of hoplite warfare that are little understood or the subject of fierce academic debate Christopher Matthew s groundbreaking work combines rigorous analysis with the new disciplines of reconstructive archaeology reenactment and ballistic science He examines the equipment tactics and capabilities of the individual hoplites as well as how they used juggernaut masses of men and their long spears to such devastating effect This is an innovative reassessment of one of the most important early advancements in military tactics and indispensable reading for anyone interested in ancient warfare The New York Military Affairs Symposium *Beyond the Gates of Fire* Philip de Souza,2013-05-19 The Battle of Thermopylae in 480 BC is one of the most famous battles in history The heroism of the 300 Spartans who opted to remain behind to face the full might of the Persian host while their Greek allies made good their escape has become the stuff of legend The story still inspires novelists and film makers today Frank Miller s fanciful 300 was a huge hit in 2007 and the film rights to Steven Pressfield s more historical novel Gates of Fire were bought by George Clooney the film expected to finally surface in 2011 or 2012 But what is the truth behind the legends and why was this bloody defeat immediately accorded a halo of glory that has endured for nearly two and a half millennia Beyond the Gates of Fire brings together experts on the classical period from Australia New Zealand and the United States to take a fresh look at various aspects of the battle A substantial introductory section by the editors outlines the background to the conflict as well as the arms armor and fighting styles of the opposing sides The following chapters 9 of them then discuss such questions as whether the defense of the pass really was a suicide mission the exact topography of the battlefield itself in 480 BC using the latest geological research and core samples the impact of the battle on the Greek psyche commemoration of the war dead the impact of the original battle on the conduct of later battles in the pass right up to the German invasion of 1941 For the classical scholar or the general reader whose interest has been piqued by the popular books and films this book is sure to shed refreshing new light on the most famous last stand in history **Revenge, Compensation, and Forgiveness in the Ancient World** Thomas Kazen,Rikard Roitto,2024-03-21 Handling moral infringement is complicated

and this was as true in antiquity as it is today Should one retaliate demand compensation be merciful ignore the infringement or forgive Thomas Kazen and Rikard Roitto compare how Greeks Romans Jews and Christians in antiquity navigated different ideas practices and rituals for moral repair How did they think about morality and did this affect ideas about moral repair What practices of moral repair did they use within and beyond the court In what different ways did they involve the gods in interpersonal conflicts through ritual Insights from contemporary research on human behaviour guide the comparative work since as the authors argue human moral behaviour and cognition is the result of both innate and cultural factors

The Oedipus Casebook Mark R. Anspach, 2020-02-01 Who killed Laius Most readers assume Oedipus did At the play's end he stands convicted of murdering his father marrying his mother and triggering a deadly plague With selections from a stellar assortment of critics including Walter Burkert Terry Eagleton Michel Foucault Ren Girard and Jean Pierre Vernant this book reopens the Oedipus case and lets readers judge for themselves The Greek word for tragedy means goat song Is Oedipus the goat Helene Peet Foley calls him the kind of leader a democracy would both love and desire to ostracize The Oedipus Casebook readings weigh the evidence against Oedipus place the play in the context of Greek scapegoat rites and explore the origins of tragedy in the festival of Dionysus This unique critical edition includes a new translation of the play by distinguished classics scholar Wm Blake Tyrrell and the authoritative Greek text established by H Lloyd Jones and N G Wilson

Imperial Cults Rebecca Robinson, 2023 Imperial Cults looks at the role of religious institutions in shaping imperial authority in Ancient China and Rome By examining the changes made by rulers of each state Emperor Wu of Han and Octavian Augustus in Rome it demonstrates that both rulers reshaped their respective religious institutions in order to consolidate both religious and political authority

Discourse on the State of the Jews Simone Luzzatto, 2019-07-08 In 1638 a small book of no more than 92 pages in octavo was published appresso Gioanne Calleoni under the title Discourse on the State of the Jews and in particular those dwelling in the illustrious city of Venice It was dedicated to the Doge of Venice and his counsellors who are labelled lovers of Truth The author of the book was a certain Simone Sim a Luzzatto a native of Venice where he lived and died serving as rabbi for over fifty years during the course of the seventeenth century Luzzatto's political thesis is simple and at the same time temerarious if not revolutionary Venice can put an end to its political decline he argues by offering the Jews a monopoly on overseas commercial activity This plan is highly recommendable because the Jews are wellsuited for trade much more so than others such as foreigners for example The rabbi opens his argument by recalling that trade and usury are the only occupations permitted to Jews Within the confines of their historical situation the Venetian Jews became particularly skilled at trade with partners from the Eastern Mediterranean countries Luzzatto's argument is that this talent could be put at the service of the Venetian government in order to maintain or more accurately recover its political importance as an intermediary between East and West He was the first to define the role of the Jews on the basis of their economic and social functions disregarding the classic categorisation of Judaism's alleged privileged

religious status in world history Nonetheless going beyond the socio economic arguments of the book it is essential to point out Luzzatto s resort to sceptical strategies in order to plead in defence of the Venetian Jews It is precisely his philosophical and political scepticism that makes Luzzatto s texts so unique This edition aims to grant access to his works and thought to English speaking readers and scholars By approaching his texts from this point of view the editors hope to open a new path in research into Jewish culture and philosophy that will enable other scholars to develop new directions and new perspectives stressing the interpenetration between Jews and the surrounding Christian and secular cultures

Plutarchs Lives Iv Alcibiades And Coriolanus Lysander And Sulla Loeb Classical Library: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Pape, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
