**Review of Tracking and Data Acquisition Program** United States. Congress. House. Committee on Science and Astronautics. Subcommittee on Aeronautics and Space Technology, 1974      **Discovering Dylan Thomas** John Goodby, 2017-03-31 *Discovering Dylan Thomas* is a companion to Dylan Thomas's published and notebook poems. It includes hitherto unseen material contained in the recently discovered fifth notebook alongside poems, drafts, and critical material including summaries of the critical reception of individual poems. The introductory essay considers the task of editing and annotating Thomas, the reception of the *Collected Poems*, and the state of the Dylan Thomas industry and the nature of Thomas's reading influences, allusions, and intertextuality. It is followed by supplementary poems including juvenilia and the notebook poems *The Woman Speaks*, original versions of *Grief*, *thief of time*, and *I followed sleep*, and *Jack of Christ*, all of which were omitted from the *Collected Poems*. These are followed by annotations beginning with a discussion of Thomas's juvenilia and the relationship between plagiarism and parody in his work. Poem by poem entries offer glosses, new material from the fifth notebook, critical histories for each poem, and variants of poems such as *Holy Spring* and *On a Wedding Anniversary*, including a magnificent previously unpublished first draft of *A Refusal to Mourn The closing*. The appendices deal with text and publication details for the collections Thomas published in his lifetime, the provenance and contents of the fifth notebook, and errata for the hardback edition of the *Collected Poems*.      **Dylan Thomas** John Goodby, Chris Wigginton, 2024-12-13 An accessible introduction to the life and work of the inventive Welsh poet Dylan Thomas, author of some of the century's greatest poetry, stories, and film scripts, as well as one of the greatest radio features ever broadcast. *Under Milk Wood* is often characterized as self-indulgent. This concise and up-to-date biography challenges this depiction with a fresh portrait of the artist as a consummate professional. John Goodby and Chris Wigginton locate the source of Thomas's daring and inventive style in the poet's Anglo-Welsh origins, as well as his historical, cultural, and social contexts: the Great Depression, the 1930s literary London, surrealism, World War II, and Cold War popular culture. The result is a revealing and fresh introduction to the life and work of this important Welsh writer.      *The Poetry of Dylan Thomas* John Goodby, 2013-07-31 An important reappraisal of the poetry of Dylan Thomas in terms of modern critical theory.      [The Fifth Notebook of Dylan Thomas](#) Dylan Thomas, 2020-09-03 Between May 1930 and August 1935, Dylan Thomas kept numerous notebooks of poems. They contain the drafts of almost all of the work that would form his first two reputation-making collections, *18 Poems* (1934) and *Twenty-five Poems* (1936), and many of those in his third collection, *The Map of Love* (1939). Thomas sold four of the notebooks spanning May 1930 to May 1934 to the University of Buffalo in 1941. However, the existence of a fifth notebook covering the period June 1934 to August 1935 was unknown until 2014, the centenary of his birth. *The Fifth Notebook of Dylan Thomas* makes this newly discovered text available to readers and researchers for the first time. It contains the only existing MSS versions of Thomas's most challenging poems, *I in my intricate image* and *Altarwise*, by

owl light and fourteen other early poems It contains facsimiles and full transcripts of the originals is annotated throughout and has a full scholarly introduction Exploring the contexts of these brilliant and experimental lyrics many with substantial reworkings and variant passages this landmark publication sheds new light on the creative practice of one of the most important and well known poets of the twentieth century Wildlife Review ,1975 **Review of Tracking and Data Acquisition Program, Hearings Before the Subcommittee on Aeronautics and Space Technology Of..., 93-1 & 93-2, Oct 24, 1973; Jan. 29, 1974** United States. Congress. House. Science and Astronautics Committee,1974 **The Oxford Critical and Cultural History of Modernist Magazines** Peter Brooker,Andrew Thacker,2009-03-26 The first of three volumes charting the history of the Modernist Magazine in Britain North America and Europe this collection offers the first comprehensive study of the wide and varied range of little magazines which were so instrumental in introducing the new writing and ideas that came to constitute literary and artistic modernism in the UK and Ireland In thirty seven chapters covering over eighty magazines expert contributors investigate the inner dynamics and economic and intellectual conditions that governed the life of these fugitive but vibrant publications We learn of the role of editors and sponsors the relation of the arts to contemporary philosophy and politics the effects of war and economic depression and of the survival in hard times of radical ideas and a belief in innovation The chapters are arranged according to historical themes with accompanying contextual introductions and include studies of the New Age Blast the Egoist and the Criterion New Writing New Verse and Scrutiny as well as of lesser known magazines such as the Evergreen Coterie the Bermondsey Book the Mask Welsh Review the Modern Scot and the Bell To return to the pages of these magazines returns us a world where the material constraints of costs and anxieties over censorship and declining readerships ran alongside the excitement of a new poem or manifesto This collection therefore confirms the value of magazine culture to the field of modernist studies it provides a rich and hitherto under examined resource which both brings to light the debate and dialogue out of which modernism evolved and helps us recover the vitality and potential of that earlier discussion **W. S. Graham and Lyric Self-Consciousness** Sam Buchan-Watts,2025-01-31 This book examines the lyric poetry of the late modernist W S Graham By listening closely to his body of work it exposes the capacity of a poem to describe itself being made in the mind of a reader The study locates an idea of lyric self consciousness not only at the level of ego but as a process of form Archival material including worksheets manuscripts and notebooks is used to examine Graham s spatial conception of verse in the context of his industrial background and his dialogue with artists The book offers close readings of the adjacent poetics of William Empson and Veronica Forrest Thomson and concludes with a sustained analysis of Denise Riley s long term engagement with Graham s poetry which suggests how Graham s lyric experiments can be politicised **Resistance to Science in Contemporary American Poetry** Bryan Walpert,2011-09-26 This book examines types of resistance in contemporary poetry to the authority of scientific knowledge tracing the source of these resistances to both their literary precedents and the scientific zeitgeists

that helped to produce them Walpert argues that contemporary poetry offers a palimpsest of resistance using as case studies the poets Alison Hawthorne Deming Pattiann Rogers Albert Goldbarth and Joan Retallack to trace the recapitulation of romantic arguments inherited from Keats Shelly and Coleridge which in turn were produced in part in response to Newtonian physics modernist arguments inherited from Eliot and Pound arguments influenced in part by relativity and quantum theory and postmodernist arguments arguments informed by post structuralist theory e g Barthes Derrida Foucault with affinities to arguments for the limitations of science in the philosophy sociology and rhetoric of science Some of these poems reveal the discursive ideologies of scientific language reveal in other words the performativity of scientific language In doing so these poems themselves can also be read as performative acts and therefore as forms of intervention rather than representation Reading Retallack alongside science studies scholar Karen Barad the book concludes by proposing that viewing knowledge as a form of intervention rather than representation offers a bridge between contemporary poetry and science
