A History of Modern Mercenary Warfare Harry McCallion,2024-04-18

Explores the development of modern mercenary forces from the British operation in Yemen in late 1960 s to today s War in Ukraine Since before the time of Alexander the Great trained soldiers have sold their expertise on battlefield around the World fighting and dying in other people s wars for money glory or the lust for violence and combat In this book Harry McCallion explores the development of modern mercenary forces from the British SAS led deniable operation in Yemen in late 1960 s during which the Israelis were persuaded to arm the SAS led Yemeni tribesmen through the bush wars in Africa Britain s ill fated intervention in the war in Afghanistan right up to today s War in Ukraine Many of the modern day British mercenaries were known to the author personally including such notably figures as the legendary SAS Fijian warriors Tak Takevesia who although in his early sixties shot his way out of an ambush in Bagdad and Fred Big Fred Mrafano who devoted himself to the cause of the people of Serra Leone SAS veteran Bill Scully who received the Queen s Gallantry Medal single handedly protected 1 300 civilians from rebel troops during the uprising in May 1997 after the Sierra Leone coup and American Vietnam veteran Major Mac Mackenzie who although badly wounded in Vietnam rose from trooper to command a Rhodesian SAS squadron and was one of the units most highly decorated soldiers Also included are more notorious figures like Costas Georgiou also known by his alias Colonel Callan who served in the 1st Battalion of the Parachute Regiment but was dishonorably discharged and sentenced to five years in prison for a post office robbery later he proclaimed himself a Colonel and led a group of psychopathic mercenaries in the Angolan War of Independence before being captured and executed by Angolan forces The book explores the roles of modern day mercenaries who s use has expanded precisely because they are mercenaries fighting for money and not love of country their deaths are not seen as a patriotic sacrifice often they go unreported and in turn helps to conceal the true tragic human cost of waging a war As one former private military contractor recently stated to Australian TV If you want to conquer in the 21st century you use mercenaries special forces things to keep war secret and nobody s better at secret wars than mercenaries

The Modern Doctrines of Champerty and Maintenance Rachael Mulheron, 2023-07-27 This book explores the modern complexities of champerty and maintenance and concludes with a consideration of key reform issues It looks comparatively at jurisdictions attitudes towards champerty and maintenance together with an analysis of law reform studies in the area both in England and elsewhere **The Future of Indigenous Museums** Nick Stanley, 2008 Indigenous museums and cultural centres have sprung up across the developing world and particularly in the Southwest Pacific This book looks to the future of museum practice through examining how these museums have evolved to incorporate the present and the future in the display of culture **Law, Anthropology, and the Constitution of the Social** Alain Pottage, Martha Mundy, 2004-06-24 This collection of interdisciplinary essays explores how persons and things the central elements of the social are fabricated by legal rituals and institutions The contributors legal and anthropological theorists alike focus on a set of specific institutional and ethnographic contexts and some unexpected and thought provoking analogies emerge from this intellectual encounter between law and anthropology For example contemporary anxieties about the legal status of the biotechnological body seem to resonate with the questions addressed by ancient Roman law in its treatment of dead bodies The analogy between copyright and the transmission of intangible designs in Melanesia suddenly makes western images of authorship seem quite unfamiliar A comparison between law and laboratory science presents the production of legal artefacts in new light These studies are of particular relevance at a time when law faced with the inventiveness of biotechnology finds it increasingly difficult to draw the line between persons and things **Experiments in Holism** Ton Otto, Nils Bubandt, 2010-10-25 *Experiments in Holism* *Theory and Practice in Contemporary Anthropology* presents a series of essays that critically examine the ongoing relevance of holism and its theoretical and methodological potential in today's world Contributions from a diverse collection of leading anthropologists reveal how recent critiques of the holistic approach have not led to its wholesale rejection but rather to a panoply of experiments that

critically reassess and reemploy holism The essays focus on aspects of holism including its utilization in current ethnographic research holistic considerations in cultural anthropology the French structuralist tradition the predominantly English tradition of social anthropology and many others Collectively the essays show how holism is simultaneously central to and problematically a part of the theory and practice of anthropology Experiments in Holism reveals how contemporary attempts to rescale and retool anthropology entail new ways of coming to terms with anthropology s heritage of holism seeking to obviate its current excesses while recapturing its critical potential to meet the challenges of our contemporary world
