**Chest Pain** John Albarran, Jenny Tagney, 2008-04-15 Chest Pain Advanced Assessment and Management promotes a systematic approach to the assessment and management of patients presenting with chest pain and related undifferentiated symptoms. Specifically it equips practitioners with the knowledge and clinical skills needed to effectively differentiate and respond to clinical presentations where the primary symptom for seeking healthcare advice involves chest pain. Introductory chapters in section one explore the principles of physical assessment, history taking and differential diagnosis to provide the framework for subsequent chapters which explore cardiac and non cardiac causes of chest pain. Section two examines the advanced assessment and overall management of patients with pain in the chest. A range of clinical conditions that trigger chest pain and other related symptoms are covered including angina, acute coronary syndromes, pericarditis and myocarditis, aortic dissection, pulmonary embolism, oesophago-gastric disorders, musculoskeletal causes, pulmonary and respiratory causes, coronary heart disease, myocardial infarction, chest pain caused by trauma or cardiac syndrome X, cocaine misuse and Herpes zoster.

**Pocket Guide to Inflammatory Bowel Disease** Sunanda Kane, Sunanda V. Kane, Marla C. Dubinsky, 2005-05-16 This easy to read, easy to use pocket guide has been written with the busy health care provider in mind. Patients with Crohn's disease and ulcerative colitis collectively known as Inflammatory Bowel Disease (IBD) present special challenges for practitioners whether in the office, in the clinic or on the telephone. IBD patients typically require lifetime care and grapple with a wide range of changing intestinal symptoms and extraintestinal concerns that can be confusing for the nonspecialist who may not know what to ask or what to do next. This guide has been written by respected clinicians in the field of IBD to help anyone who cares for these patients identify the problems and make decisions about treatment. Each chapter is devoted to a particular symptom and follows the same format for rapid access. The book also contains a comprehensive table of IBD medications and chapters on other management issues like long term complications, nutrition and alternative therapies.

MCQs in Intensive Care Medicine Steve Benington, Peter Nightingale, Maire Shelly, 2009-05-01 This book provides 300 practice MCQs divided into three practice papers. Correct answers follow accompanied by short referenced notes drawing from recent important journal articles, major critical care textbooks and selected internet resources. Since there is no other dedicated intensive care MCQ book on the market, this book is relevant to the following groups: junior intensive care trainees, senior intensive care nursing staff wishing to enhance their medical knowledge, intensive care consultants as a teaching aid and trainees preparing for professional examinations. This MCQ book will also be ideal in preparation for the European Diploma in Intensive Care Medicine (EDIC) Part 1 examination as the questions are matched as closely as possible in style and difficulty to those in the EDIC Part 1. The EDIC is an internationally recognised qualification for medical trainees in intensive care set by the European Society for Intensive Care Medicine (ESICM). It is a two part examination consisting of a 100 question multiple choice paper (Part 1) and a clinical and viva

voce examination Part 2 To ensure relevance the questions are designed with reference to the training syllabus provided by the ESICM *Gastroenterology* S. P. L.
