**Maroons and the Marooned** Richard Bodek, Joseph Kelly, 2020-04-20  
Contributions by Richard Bodek, Claire P. Curtis, Joseph Kelly, Simon Lewis, Steve Mentz, J. Brent Morris, Peter Sands, Edward Shore, and James O. Neil Spady. Commonly, the word maroon refers to someone cast away on an island. One becomes marooned usually through a storm at sea or by a captain as a method of punishment. But the term originally denoted escaped slaves. Though being marooned came to be associated mostly with white European castaways, the etymology invites comparison between true maroons (escaped slaves establishing new lives in the wilderness) and people who were marooned through maritime disaster. This volume brings together literary scholars, historians, and encompassing both literal maroons (such as in Brazil and South Carolina) as well as metaphoric scenarios in time travel novels and postapocalyptic narratives. Included are examples from *The Tempest*, Margaret Atwood's *MaddAddam* trilogy, *A Connecticut Yankee in King Arthur's Court*, and Octavia Butler's *Kindred*. Both runaways and castaways formed new societies in the wilderness. But true maroons (escaped slaves) were not cast away; they chose to fly towards the uncertainties of the wild in pursuit of freedom. In effect, this volume gives these maroons proper credit at the very heart of American history.

Social factors such as class, age, race, region, gender, occupation, religion, and criminality are discussed in British and American English. From familiar words such as popcorn, porridge, and café to less common words like burgoo, califont, etna, and phrases like kiss me quick, monkey parade, slap bang shop, *The Social Life of Words* demonstrates some of the many ways a new word or phrase can develop social affiliations. Detailed yet accessible chapters cover key areas of historical sociolinguistics, including concepts such as social networks, communities of practice, indexicality, and enregisterment, prototypes and stereotypes, polysemy, onomasiology, language regard, lexical appropriation, and more. The first book to take a focused look at lexis as a topic for sociolinguistic analysis, *The Social Life of Words* introduces sociolinguistic theories and shows how they can be

applied to the lexicon Demonstrates how readers can apply sociolinguistic theory to their own analyses of words in English and other languages Provides an engaging and amusing new look at many familiar words inviting students to explore the sociolinguistic properties of words over time for themselves Part of Wiley Blackwell s acclaimed Language in Society series The Social Life of Words is essential reading for upper level undergraduate students graduate students postdoctoral researchers and linguists working in sociolinguistics lexical semantics English lexicology and the history and development of modern English

**Reproductive Freedom, Torture and International Human Rights** Ronli Sifris, 2013-12-13 This book contributes to a feminist understanding of international human rights by examining restrictions on reproductive freedom through the lens of the right to be free from torture and other cruel inhuman or degrading treatment Ronli Sifris challenges the view that torture only takes place within the traditional paradigm of interrogation punishment or intimidation of a detainee arguing that this traditional construction of the concept of torture prioritises the experiences of men over the experiences of women given that the pain and suffering from which women disproportionately suffer frequently occurs outside of this context She does this by conceptualising restrictions on women s reproductive freedom within the framework of the right to be free from torture The book considers the gendered nature of international law and the gender dimensions of the right to be free from torture It

examines the extension of the prohibition of torture to encompass situations beyond the traditional detainee context in recent years to encompass situations such as rape and female genital mutilation It goes on to explore in detail whether denying access to abortion and involuntary sterilization constitutes torture or other cruel inhuman or degrading treatment under international law The book looks at whether limitations on reproductive freedom meet the determining criteria of torture which are severe pain or suffering being intentionally inflicted being based on discrimination linked in some way to a State official whether they constitute lawful sanctions and the importance of the concept of powerlessness In doing so the book also highlights how this right may be applicable to other gender based abuses including female genital mutilation and how this right may be universally applied to allow women worldwide the right to reproductive freedom The Maroon Narrative Cynthia James, 2002 This book analyzes the concept of the maroon to provide a better understanding of Caribbean literature
