Power Of Ideas, The: The Rising Influence Of Thinkers And Think Tanks In China Cheng Li, 2017-03-14 China's momentous socioeconomic transformation is not taking place in an intellectual vacuum Chinese scholars and public intellectuals are actively engaged in fervent discussions about the country's domestic and foreign policies demographic constraints and ever growing integration into the world community This book focuses on

China's major think tanks where policies are initiated and on a few prominent thinkers who influence the way in which elites and the general public understand and deal with the various issues confronting the country. The book examines a number of factors contributing to the rapid rise of Chinese think tanks in the reform era. These include the leadership's call for scientific decision making, the need for specialized expertise in economics and finance as China becomes an economic powerhouse, the demand for opinion leaders in the wake of a telecommunication revolution driven by social media, the accumulation of human and financial capital, and the increasing utility of the revolving door nature of think tanks. It has been widely noted that think tanks and policy advisors have played an important role in influencing the strategic thinking of the top leadership, including the formation of ideas such as the Three Represents, China's peaceful rise, One Belt One Road, and the founding of the Asian Infrastructure Investment Bank (AIIB). In 2014, President Xi Jinping made think tank development a national strategy, and he claimed that building a new type of think tank with Chinese characteristics is an important and pressing mission. Though the media outside China has often reported on this important development, it has all but escaped rigorous scholarly scrutiny. This book will categorize Chinese think tanks by their various forms, such as government agencies, university-based think tanks, private think tanks, business research centers or consultancies, and civil society groups. It will not only analyze the problems and challenges in China's think tank development but also reveal the power of ideas.

The Power of Ideas Jonathan Sacks, 2021-10-11. Britain's most authentically prophetic voice, Daily Telegraph. The choice with which humankind is faced is between the idea of power and the power of ideas. From his appointment as Chief Rabbi in 1991 through to his death in November 2020, Rabbi Lord Jonathan Sacks made an incalculable contribution not just to the religious life of the Jewish community but to the national conversation and increasingly to the global community on issues of ethics and morality. Commemorating the first anniversary of his death, this volume brings together a compelling selection of Jonathan Sacks' BBC Radio 4 Thought for the Day broadcasts, Credo columns from The Times, and a range of articles published in the world's most respected newspapers, along with his House of Lords speeches and keynote lectures. First heard and read in many different contexts, these pieces demonstrate with striking coherence the developing power of Sacks' ideas on faith and philosophy alike. In each instance, he brings to bear deep insights into the immediate situation at the time, and yet it is as if we hear him speaking to us afresh, giving us new strength to face the challenges and complexities of today's world. These words of faith and wisdom shine as a beacon of enduring light in an increasingly conflicted cultural climate and prove the timeless nature and continued relevance of Jonathan Sacks' thought and teachings. One of the great moral thinkers of our time, Robert D. Putnam, author of *Bowling Alone*.
