Power Of Public Ideas:

The Power of Public Ideas Robert B. Reich, 1988 *Downsizing Democracy* Matthew A. Crenson, Benjamin Ginsberg, 2020-03-03 Originally published in 2002 In *Downsizing Democracy* Matthew A Crenson and Benjamin Ginsberg describe how the once powerful idea of a collective citizenry has given way to a concept of personal autonomous democracy Today political change is effected through litigation lobbying and term limits rather than active participation in the political process resulting in narrow special interest groups dominating state and federal decision making At a time when an American s investment in the democratic process has largely been reduced to an annual contribution to a political party or organization *Downsizing Democracy* offers a critical reassessment of American democracy **Creating Public Value** Mark H. Moore, 1997-03-25 Moore presents his summation of 15 years of research observation and teaching about what public sector executives should do to improve the performance of public enterprises This book explicates some of the richest cases used at Harvard s Kennedy School of Government and illuminates their broader lessons for government managers **Public Administration** B Guy Peters, Tero Erkkilä, Patrick von Maravić, 2015-09-16 *Public Administration Research Strategies Concepts and Methods* explores how scholars of public administration and institutional politics can improve their analysis by focusing on the contextual particularities of their research problems and considering the use of multiple theories and methods The book functions as an introduction to central themes of public administration and related traditions of research but also proposes a new pluralist approach for studying public institutions **Legislating Privacy** Priscilla M. Regan, 1995 This book explores the dynamics of congressional policy formulation on privacy issues and explains why legislation has lagged so far behind technological development **Managing Organizations to Sustain Passion for Public Service** James L. chapters provide perspectives on fundamental questions that have been guiding recent research on wellbeing in schools How do school communities flourish together How does supporting educator wellbeing connect to teaching learning leading in schools What characteristics qualities and strategies support the wellbeing of the whole school community This book is unique in that it answers these questions from the perspectives of teachers students administrators in K 12 schools as well as from university and the wider community Importantly these chapters provide a repertoire of varied answers to the question that underpins this shift in research toward a positive organizational perspective How can we leverage what works well to grow more to instill in each community member a sense of their value and capacity to contribute These chapters serve as examples invitations and inspiration for readers to notice in their own contexts ways they can grow wellbeing through a focused attention on building appreciative strengths based positive approaches to teaching learning and leading in all schools
