Powers Of Being David Holbrook And His Work:

Powers of Being Edwin Webb,1995 To mark the seventieth birthday of one of Britain s most prolific writers teachers and academics from the United States Canada and the United Kingdom contributed a collection of specially written essays defining and appraising Holbrook s work in all its varieties The result is Powers of Being which addresses the issues proposed by Holbrook and celebrates a singular and distinguished literary achievement English as a Vocation Christopher Hilliard,2012-05-31 This book explores how a small circle of Cambridge literary critics turned into a movement that revolutionized the way English was taught and brought popular culture into classrooms The leader F R Leavis was a well known and controversial writer The focus of this book is not on Leavis but on the people who put his ideas into practice

Sociology and Music Education Ruth Wright,2017-07-05 Sociology and Music Education addresses a pressing need to provide a sociological foundation for understanding music education The music education community academic and professional has become increasingly aware of the need to locate the issues facing music educators within a broader sociological context This is required both as a means to deeper understanding of the issues themselves and as a means to raising professional consciousness of the macro issues of power and politics by which education is often constrained The book outlines some introductory concepts in sociology and music education and then draws together seminal theoretical insights with examples from practice with innovative applications of sociological theory to the field of music education The editor has taken great care to select an international community of experienced researchers and practitioners as contributors who reflect current trends in the sociology of music education in Europe and the UK The book concludes with an Afterword by Christopher Small **Knots and their Untying: Essays on Psychological Dilemmas** Ann Belford Ulanov, Using the image of knots that are hard and sometimes impossible to untie Ann Ulanov circles around the psychic dilemmas that entangle us sometimes for decades These can be heartrending to us and destructive to others even to those we love Yet these knots so peculiarly our own also open onto human problems we share with others even across the ages Hence working on our knots takes us far down to taproots of energy and far up and out to bring that vital aliveness into shared existence with others Knots thus comprise a ladder offering footholds and handholds for descending and ascending between what Jung calls Below and Above human and divine What are such knots What to do when forgiveness does not happen What to do with the inferiority of the inferior function With the question of how much lightning can we stand With the perils of individuation These are just a few examples from the essays in this book The reader is invited to browse the essays according to personal interest or to read straight through The surprise is that these vexing knots that tie us up and hold us down also give us a mooring they bind us to a path that is uniquely our own that can bear the fruit of our service to others and to the surrounding whole *Debates in Music Teaching* Chris Philpott,Gary Spruce,2012 Encourages students and practising teachers to engage with contemporary issues and developments in music education and aims to introduce a critical approach to the

central concepts and practices that have influenced major interventions and initiatives in music teaching *Questions of English* Jeanne Gerlach, Annette Patterson, Robin Peel, 2002-11 Offers a lively and accessible guide through past and present debates about the English curriculum which will appeal to students and practising teachers *Selected Letters of William Empson* William Empson, 2006-03-09 This edited collection of letters by William Empson 1906-1984 one of the foremost writers and literary critics of the twentieth century ranges across the entirety of his career Parts of the correspondence record the development of ideas that were to come to fruition in seminal texts including *Seven Types of Ambiguity* *The Structure of Complex Words* and *Milton's God* The topics of other letters range from Shakespeare's *Dark Lady* to Marvell's marriage and Byron's bisexuality Empson relished correspondence that was combative if not downright aggressive As a result parts of this edition take the form of a serial disputation with other critics of the period including Frank Kermode Helen Gardner Philip Hobsbaum and I A Richards Other notable correspondents include A Alvarez Bonamy Dobson Leslie Fiedler Graham Hough C K Ogden George Orwell Kathleen Raine John Crowe Ransom Christopher Ricks Laura Riding A L Rowse Stephen Spender E M W Tillyard Rosemond Tuve John Wain and G Wilson Knight All readers of literary history and criticism will stand to benefit from this edition Empson is universally credited as the man who invented modern literary criticism so that all of his writings make a signal addition to the canon of his works This selection provides a context for the evaluation of Empson's total literary output and in many letters Empson seeks to defend his ideas against both published and personal attacks This volume not only fills in all the missing links it adds up to a completely new volume of critical writings by Empson

Music Education in England, 1950-2010 John Finney, 2016-04-22 John Finney examines the child-centred progressive tradition to create a fresh way of evaluating ideas and practices that have evolved since 1950 that have shaped the lives of music teachers and their pupils and that have now become disfigured residual and altogether lost in the light of social cultural and political change The book is a critique of the present situation with an intention to expose the dangers in our current pursuit of future gains that are thought to serve the making and sustaining of the social order The project draws in major debates of the period along with their protagonists counterpointed by the voices of teachers and pupils At the same time the structuring voices of policy and governance become ever louder as we reach the present time Finney presents a compelling analytical account through a series of six episodes each seeking to capture the spirit and fervour characteristic of a particular phase within the period studied In the concluding chapter the narrative developed is reviewed From this the idea of music education as an ethical pursuit is proposed Finney argues that classroom relationships can be thought of as playfully dialogic where teacher and pupil remain curious and where there is serious attention to what is to be taught and why This will always need to be negotiated with the expressed and inferred needs of children working together to find a critical approach to what is being learnt Finney's book provides fresh inspiration for practitioners and new challenges for researchers and as such is a landmark in the field of arts and music education **Thinking and Making** John Paynter, Janet

Mills, 2008-06-19 For many John Paynter has been the most significant figure in music education in Britain and beyond over the past 50 years This collection of seminal writings embraces the core topics and values of music education and includes contributions from a range of publications among them core text books and articles as well as unpublished writings **The Use of English** , 1995
