Los Paisanos Oakah L. Jones, 1996. Little has been written about the colonists sent by Spanish authorities to settle the northern frontier of New Spain to stake Spain's claim and serve as a buffer against encroaching French explorers. Los Paisanos they were called, simple country people who lived by their own labor, isolated, threatened by hostile Indians and restricted by law from seeking opportunity elsewhere. They built their homes, worked their fields, and became permanent residents, the forebears of United States citizens as they developed their own society and culture, much of which survives today.

The Explorative-creative Way Wil Knibbeler, 1989. *El Camino Real de Los Tejas, Texas, Louisiana*. United States. National Park Service, 1998. [A Green Band in a Parched and Burning Land](#) Deni J.

Seymour, 2022-12-21. The result of decades of research, *A Green Band in a Parched and Burning Land* presents a thorough and detailed understanding of the Sobaipuri O'odham, arguably the most influential and powerful Indigenous group in southern Arizona in the terminal prehistoric and early historic periods, yet one of the least understood and under-studied to have occupied the region. Deni J. Seymour combines historical sources with fresh archaeological data and oral history to reveal an astonishingly different view of and revise conventional wisdom around the native history of the region. First and foremost irrigation farmers, the Sobaipuri O'odham permanently occupied verdant strips along all the major rivers in the region, including the headwaters of the San Pedro and various other areas thought to be beyond their domain. Seymour draws on career-spanning fieldwork, conversations with direct descendants, the O'odham residents of Wá'k, and recent breakthroughs in archaeological, ethnographic, and ethnohistorical research to shed light on their unique forms of landscape use, settlement patterns, and way of life. She details the building materials, linear site layout, and other elements of their singular archaeological signature, newly established dating for individual sites, complex building episodes, and occupational sequences, and evidence of cumulative village occupation as well as the habitation of river valleys and other locales long after supposed abandonment. The book also explains the key relationships between site distributions and landscape characteristics. Addressing some of the longest-standing archaeological and historical questions about the Sobaipuri O'odham, *A Green Band in a Parched and Burning Land* reorients the discussion of their crucial place in the history of the region in constructive new directions.
