Lost Children Of Wilder The Epic Struggle To Change Foster Care:

The Lost Children of Wilder Nina Bernstein, 2011-03-23 In 1973 Marcia Lowry a young civil liberties attorney filed a controversial class action suit that would come to be known as Wilder which challenged New York City's operation of its foster care system Lowry's contention was that the system failed the children it was meant to help because it placed them according to creed and convenience not according to need The plaintiff was thirteen year old Shirley Wilder an abused runaway whose childhood had been shaped by the system's inequities Within a year Shirley would give birth to a son and relinquish him to the same failing system Seventeen years later with Wilder still controversial and still in court Nina Bernstein tried to find out what had happened to Shirley and her baby She was told by child welfare officials that Shirley had disappeared and that her son was one of thousands of anonymous children whose circumstances are concealed by the veil of confidentiality that hides foster care from public scrutiny But Bernstein persevered *The Lost Children of Wilder* gives us in galvanizing and compulsively readable detail the full history of a case that reveals the racial religious and political fault lines in our child welfare system and lays bare the fundamental contradiction at the heart of our well intended efforts to sever the destiny of needy children from the fate of their parents Bernstein takes us behind the scenes of far reaching legal and legislative battles at the same time as she traces in heartbreaking counterpoint the consequences as they are played out in the life of Shirley's son Lamont His terrifying journey through the system has produced a man with deep emotional wounds a stifled yearning for family and a son growing up in the system's shadow In recounting the failure of the promise of benevolence *The Lost Children of Wilder* makes clear how welfare reform can also damage its intended beneficiaries A landmark achievement of investigative reporting and a tour de force of social observation this book will haunt every reader who cares about the needs of children

Gelles, 2017 Despite efforts to create revise reform and establish an effective child welfare system in the United States the system continues to fail to ensure the safety and well being of maltreated children *Out of Harm's Way* presents four specific changes that would lead to a more effective system and unlike many other studies of this system the changes recommended here are affordable scalable and proven

site of poverty governance or state control and management of poor families Chapters bring together empirical research from diverse settings across the US highlighting the system s interactions with other state systems and its wide impact on marginalized families Together the chapters illustrate the failure of the child welfare system to protect children and families from the structural inequalities that shape the lives of poor and other marginalized families Another Mother Sarah Gerstenzang,2007 The author describes her experiences being a foster parent discussing home visits intervention evaluation parenting training sessions transracial placement and other related topics *Parenting for the State* Teresa Toguchi Swartz,2020-11-25 Through careful ethnography and rich in depth interviews at a non profit foster family agency this book takes a look behind the scenes of our troubled foster care system Child Care Policy at the Crossroads Sonya Michel,Rianne Mahon,2013-12-16 Whether childcare is seen as part of society s educational policy welfare policy or employment policy affects not only its form and content but also its public image The contributors in this volume use current polices for the care of infants and preschool children to analyze debates and track the emergence of new state welfare practices across a variety of social and political configurations and offer some conclusions about which methods work the best
