Agnew,1874 Expansion and Crisis in Louis XIV's France Darryl Dee,2009 New insights on the growth of the territorial state in early modern Europe the nature of the French absolute monarchy and the political legacy of the Sun King Driven by a desire for glory and renown Louis XIV presided over France s last great burst of territorial expansion in Europe During the first three decades of his rule his armies conquered numerous territories along France s borders After 1688 however the tide of conquest turned as the kingdom was plunged into crisis For the remainder of his reign the king and his people endured wars against grand alliances of European powers ecological disasters economic depression state bankruptcy and demographic stagnation Expansion and Crisis in Louis XIV s France examines these central yet understudied aspects of the age of the Sun King through the experience of Franche Comt a possession of the Spanish empire with a long

history of autonomy conquered by Louis XIV in 1674 Dee's detailed research reconstructs the ensuing dialogue sometimes harmonious sometimes discordant between the king and the elites who ruled this province The integration of Franche Comté into France proved to be a protracted process involving confrontation negotiation and compromise The resulting regime was then severely tested by the challenges of Louis XIV's late reign its survival demonstrated how the king had brought a distinctly early modern state to the height of its development This study offers significant new insights on the growth of the territorial state in early modern Europe the nature of the French absolute monarchy and the political legacy of the Sun King Darryl Dee is Assistant Professor of History Wilfrid Laurier University Waterloo Canada
