Miguel A. Cabañas, Jeanne Dubino, Veronica Salles-Reese, Gary Totten, 2015-06-26 This collection examines the intersections between the personal and the political in travel writing and the dialectic between mobility and stasis through an analysis of specific cases across geographical and historical boundaries The authors explore the various ways in which travel texts represent actual political conditions and thus engage in discussions about national transnational and global citizenship how they propose real world political interventions in the places where the traveler goes what tone they take toward political or socio political violence and how they intersect with political debates Travel writing can be viewed as political in a purely instrumental sense but as this volume also demonstrates travel writing's reception and ideological interventions also transform personal and cultural realities This book thus examines the ways in which politics material effects inform and intersect with personal experience in travel texts and engage with travel's dialectic of mobility and stasis In spite of globalization and efforts to eradicate the colonial vision in travel writing and in travel writing criticism this vision persists in various and complex ways While the travelogue can be a space of discursive and direct oppression these essays suggest that the travelogue is also a narrative space in which the traveler employs the genre to assert authority over his or her experiences of mobility This book will be an important contribution for interdisciplinary scholars with interests in travel writing studies global and transnational studies women's studies multicultural studies the social sciences and history **The Polar Adventures of a Rich American Dame** Joanna Kafarowski, 2017-11-04 The first comprehensive biography of Louise Arner Boyd the intrepid American socialite who reinvented herself as the leading female polar explorer of the twentieth century Born in the late 1880s to a gritty mining magnate who made his millions in the California gold rush and a well bred mother descended from one of New York's distinguished families society beauty Louise Arner Boyd was raised during a glittering era After inheriting a staggering family fortune she began leading a double life She fell under the spell of the north in the late 1920s after a sailing excursion to the Arctic Ocean Over the next three decades she achieved international notoriety as a rugged and audacious polar explorer while maintaining her flamboyant lifestyle as a leading society woman Yet despite organizing financing and directing seven daring Arctic expeditions between 1926 and 1955 she is virtually unknown today **The Polar Adventures of a Rich American Dame** Joanna Kafarowski, 2017-11-04 Louise Arner Boyd inherited the family millions in her thirties Expected to lead a respectable life she instead fell under the captivating spell of the north Over the next thirty years she organized and led seven hazardous expeditions around Greenland and was showered with international awards *Kids InfoBits Presents: Famous Explorers* Gale, Cengage Learning, Who was the first woman to fly over the North Pole What continents are named after the explorer Amerigo Vespucci Who is famous for his unsuccessful
