Love For Sale The Words And Pictures Of Barbara Kruger:

LOVE FOR SALE., 1990 **A to Z of American Women in the Visual Arts** Carol Kort, Liz Sonneborn, 2014-05-14
Presents biographical profiles of American women of achievement in the field of visual arts including birth and death dates major accomplishments and historical influence **Baudrillard and Signs** Gary Genosko, 2002-03-11 This book relates Baudrillard's work to contemporary social r4248y The author traces the connections between Baudrillard's work and Marx and Marxism Lefebvre and structuralist method the works of Saussure Bataille Barthes Foucault Mauss Peirce McLuhan and the Prague School The result is an authoritative and stimulating account of Baudrillard and modern social theory

Endless Propaganda Paul Rutherford, 2000-01-01 Rutherford shows how politics social behaviour and public morals have become subject to the philosophy and discipline of marketing *From Text to Hypertext* Silvio Gaggi, 2015-07-27 It is a tenet of postmodern writing that the subject the self is unstable fragmented and decentered One useful way to examine this principle is to look at how the subject has been treated in various media in the premodern modern and postmodern eras Silvio Gaggi pursues this strategy in *From Text to Hypertext* analyzing the issue of subject construction and deconstruction in selected examples of visual art literature film and electronic media Gaggi concentrates on a few paradigmatic works in each chapter he contrasts van Eyck's *Wedding of Arnolfini* with the photography of Cindy Sherman and Barbara Kruger examines fiction that centers on an elusive subject in works by Conrad Faulkner and Calvino and explores the ability of such films as Coppola's *One from the Heart* and Altman's *The Player* to emancipate the subject through cinematography and editing In considering electronic media Gaggi takes his argument to an entirely new level He focuses on computer controlled media specifically examples of hypertextual fiction by Michael Joyce and Stuart Moulthrop Besides recognizing how the computer has enabled artists to create works of fiction in which readers themselves become decentered Gaggi also observes the impact of literature created on computer networks where even the limitations of CD ROM are lifted and the notion of individual authorship may for all practical purposes be lost *Unpackaging Art of the 1980s* Alison Pearlman, 2003-06-15 American art of the 1980s is as misunderstood as it is notorious Critics of the time feared that market hype and self promotion threatened the integrity of art They lashed out at contemporary art questioning the validity of particular media and methods and dividing the art into opposing camps While controversies have since subsided critics still view art of the 1980s as a stylistic battlefield Alison Pearlman rejects this picture which is truer of the period's criticism than of its art Pearlman reassesses the works and careers of six artists who became critics' biggest targets In each of three chapters she pairs two artists the critics viewed as emblematic of a given trend Julian Schnabel and David Salle in association with Neo Expressionism Jean Michel Basquiat and Keith Haring vis vis Graffiti Art and Peter Halley and Jeff Koons in relation to Simulationism Pearlman shows how all these artists shared important but unrecognized influences and approaches a crucial and overwhelming inheritance of 1960s and 1970s Conceptualism a Warholian understanding of public identity and a deliberate and nuanced use of past styles and media

Through in depth discussions of works from Haring's body paintings of Grace Jones to Schnabel's movie Basquiat Pearlman demonstrates how these artists' interests exemplified a broader generational shift unrecognized by critics. She sees this shift as starting not in the 1980s but in the mid 1970s when key developments in artistic style, art world structures and consumer culture converged to radically alter the course of American art. *Unpackaging Art of the 1980s* offers an innovative approach to one of the most significant yet least understood episodes in twentieth century art. **After Modern Art 1945-2000**

David Hopkins, 2000-09-14 Following a clear timeline the author highlights key movements of modern art giving careful attention to the artists' political and cultural worlds. Styles include Abstract Expressionism, Pop Art, Minimalism, Conceptualism, Postmodernism and performance art. 65 color illustrations, 65 halftones. *Sublime Economy* Jack Amariglio, Joseph W.

Childers, Stephen E. Cullenberg, 2008-11-25 Over the last two centuries artists, critics, philosophers and theorists have contributed significantly to such representations of the economy as sublime. It might even be said that much of the emergence of a distinctly modern art in the West is inextricably linked to the perception of art's own autonomy and therefore its privileged, mostly critical gaze at the terrible mixture of wonder and horror of capitalist economic practices and institutions. The premise of this collection is that despite this perceptual sharing, sublime economy has yet to be investigated in a purely cross disciplinary way. *Sublime Economy* seeks to map this critical territory by exploring the ways diverse concepts of economy and economic value have been culturally constituted and disseminated through modern art and cultural practice. Comprising of 14 individual essays along with an editor's introduction, *Sublime Economy* draws together work from some of the leading scholars in the several fields currently exploring the intersection of economic and aesthetic practices and discourses. A pressing issue of this cross disciplinary conversation is to discern how artists, writers and cultural scholars' constructions of distinct conceptions of economic value as pertains to aesthetic objects as well as to more everyday objects and relations of mass consumption have contributed to the ways value functions in and across disparate discourses. Thus this book looks at how cultural critics and theorists have put forward working notions of economic value that have regularities and effects similar to those of the expert conceptions and discourses about value that have been the preserve of professional economists. The Swastika Malcolm Quinn, 2005-07-26 Despite the enormous amount of material on the subject of Nazism there has been no substantial work on its emblem, the swastika. This original and controversial contribution examines the role that the swastika played in the construction of the Aryan myth in the nineteenth century and its use in Nazi ideology as a symbol of party, nation and race, treating it as a symbolic phenomenon in a cultural context. By identifying the swastika as a boundary or liminal image, Malcolm Quinn allies visual analysis to issues of material culture and history. *Pin-Up Grrrls*

Maria Elena Buszek, 2006-05-31 A visual history about how feminist artists have appropriated and incorporated the signification of the pin up genre within their own work. Moffitt, 2005-05-01 The purpose of this book is to reveal the antique pedigree of a now commonplace term Inspiration an essential creation myth now propelling notions of self expression in modern art making Knowledge of the ancient sources of such supposedly modernist fixations will make a significant contribution to historical cultural thinking particularly by showing in detail the facts of an unrecognized evolutionary continuity In order to personify Inspiration this study initially focuses upon Michelangelo s Bacchus of 1496 so revealing now forgotten meanings once typically to be attached in a generic way to any Bacchus Then it demonstrates how these Dionysiac concepts arose in ancient Greece Later developments particularly from the Middle Ages through the Renaissance are traced here for the first time Due to further modifications by Friedrich Nietzsche Dionysiac expressionism eventually became a staple of modern art theory and practice
