Portraits Georg Brandes, 2019-12-09 In *Eminent Authors of the Nineteenth Century: Literary Portraits*, Georg Brandes presents a series of insightful analyses that traverse the complex literary landscape of the 1800s. Employing a richly descriptive style interwoven with critical theory, Brandes crafts profiles of influential writers, delving into their philosophies, societal influences, and the evocative elements that shaped their works. This text serves as not only a homage to the literary giants of the period but also a critical reflection on the sociopolitical context that colored their contributions, offering readers an intimate understanding of the evolution of literary movements during a transformative era. Georg Brandes, a prominent Danish literary critic and playwright, played a pivotal role in introducing European literature to a broader audience. His engagement with the naturalist movement and advocacy for literary realism stemmed from his experiences within a rapidly modernizing society. Brandes's own literary pursuits were often entwined with his personal philosophy, which emphasized the importance of examining social issues through literature, thereby providing a foundation for this collection of portraits. This book is a must-read for scholars and literature enthusiasts alike, as it not only celebrates the masters of the nineteenth century but also invites readers to engage critically with the cultural paradigms they challenged. Brandes's compelling

narratives and keen insights offer a profound understanding of how these authors shaped modern thought and continue to resonate with contemporary issues

Renaissance Rewritings Helmut Pfeiffer, Irene Fantappiè, Tobias Roth, 2017-09-25

Rewriting is one of the most crucial but at the same time one of the most elusive concepts of literary scholarship. In order to contribute to a further reassessment of such a notion, this volume investigates a wide range of medieval and early modern literary transformations, especially focusing on texts and contexts of Italian and French Renaissance literature. The first section of the book, *Rewriting*, gathers essays which examine medieval and early modern rewritings while also pointing out the theoretical implications raised by such texts. The second part, *Rewritings in Early Modern Literature*, collects contributions which account for different practices of rewriting in the Italian and French Renaissance, for instance by analysing dynamics of repetition and duplication, verbatim reproduction and free reworking, textual production and authorial self-fashioning, alterity and identity replication and multiplication. The volume strives at shedding light on the complexity of the relationship between early modern and ancient literature, perfectly summed up in the motto written by Pietro Aretino in a letter to his friend the painter Giulio Romano in 1542: *Essere modernamente antichi e anticamente moderni*.

Chaucer and the Fictions of Gender Elaine Tuttle Hansen, 2023-04-28

In *Chaucer and the Fictions of Gender*, the poet's exploration of masculinity and femininity takes center stage, offering a complex interplay between societal constructs of gender and personal identity. Focusing on the *Legend of Good Women*, the analysis delves into the feminization of male characters, unraveling how their relationships with women reveal vulnerabilities and insecurities. From Antony's loss of public honor to Pyramus's emotional fragility, Chaucer presents men as navigating perilous intersections of love, identity, and societal expectations. Their struggles are contrasted with the archetypes of virtuous women, yet these figures also challenge normative gender roles, blending power with traditional notions of sacrifice. Through these layered narratives, Chaucer critiques the rigidity of patriarchal ideals, illustrating the tensions between personal desires and societal demands. This work positions Chaucer as an artist deeply engaged with the woman question while acknowledging the limitations of interpreting his poetry solely through a proto-feminist lens. By examining the poet's characters, both male and female, the analysis highlights how Chaucer negotiates the instability of gender roles, revealing an intricate tapestry of social critique and literary innovation. The book invites readers to consider how Chaucer's works resonate with modern conversations about gender fluidity and the cultural pressures shaping identity. This nuanced exploration redefines the *Legend of Good Women* as a central piece in Chaucer's oeuvre, one that pushes the boundaries of medieval literary traditions. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1992.

and twentieth century book history Early Modern Women's Writing and Sor Juana Inés de la Cruz Stephanie Merrim, 1999
This book maps the field of seventeenth century women's writing in Spanish English and French and situates the work of Sor Juana more clearly within that field. It holds up the multi-layered proto-feminist writings of Sor Juana as a meaningful lens through which to focus the literary production of her female contemporaries. Merrim's book advances the integration of Hispanic women authors and women's issues into the panorama of early modern women's writing and opens up unexplored commonalities between Sor Juana and her sister writers. Early modern women writers whose works are explored include Marie de Gournay, Margaret Fell Fox, Catalina de Erauso, Maria de Zayas, Ana Caro, Mme de Lafayette, Anne Bradstreet, St Teresa and Margaret Lucas Cavendish. Merrim's study provides a full-bodied picture of the resources that the cultural and historical climates of the seventeenth century placed at the disposal of women writers, the manners in which women writers instrumentalized them, the building blocks and concerns of early modern women's writing and the continuities between early modern and modern women's writing. Written in an engaging clear manner, this innovative study will be of interest not only to Hispanists but also to scholars in early modern studies, women's studies, history and comparative literature. **Studies in the Psychology of Sex: Sex in relation to society** Havelock Ellis, 1910
