Gender Matters in Global Politics, 2010

Welcome to the Suck Stacey Peebles, 2011-04-15 Our collective memories of World War II and Vietnam have been shaped as much by memoirs novels and films as they have been by history books In Welcome to the

Suck Stacey Peebles examines the growing body of contemporary war stories in prose poetry and film that speak to the American soldier's experience in the Persian Gulf War and the Iraq War. Stories about war always encompass ideas about initiation, masculinity, cross-cultural encounters, and trauma. Peebles shows us how these timeless themes find new expression among a generation of soldiers who have grown up in a time when it has been more acceptable than ever before to challenge cultural and societal norms and who now have unprecedented and immediate access to the world away from the battlefield through new media and technology. Two Gulf War memoirs by Anthony Swofford, *Jarhead*, and Joel Turnipseed, *Baghdad Express*, provide a portrait of soldiers living and fighting on the cusp of the major political and technological changes that would begin in earnest just a few years later. The Iraq War, a much longer conflict, has given rise to more and various representations. Peebles covers a blog by Colby Buzzell, *My War*; memoirs by Nathaniel Fick, *One Bullet Away*, and Kayla Williams, *Love My Rifle More Than You*; a collection of stories by John Crawford, *The Last True Story I'll Ever Tell*; poetry by Brian Turner, *Here Bullet*; the documentary *Alive Day Memories*; and the feature films *In the Valley of Elah* and the winner of the 2010 Oscar for Best Picture, *The Hurt Locker*, both written by the war correspondent Mark Boal. Books and other media emerging from the conflicts in the Gulf have yet to receive the kind of serious attention that Vietnam War texts received during the 1980s and 1990s. With its thoughtful and timely analysis, *Welcome to the Suck* will provoke much discussion among those who wish to understand today's war literature and films and their place in the tradition of war representation more generally.

Veteran Narratives and the Collective Memory of the Vietnam War John A. Wood, 2016-04-25 In the decades since the Vietnam War, veteran memoirs have influenced Americans' understanding of the conflict. Yet few historians or literary scholars have scrutinized how the genre has shaped the nation's collective memory of the war and its aftermath. Instead, veterans' accounts are mined for colorful quotes and then dropped from public discourse; are accepted as factual sources with little attention to how memory, no matter how authentic, can diverge from events or are not contextualized in terms of the race, gender, or class of the narrators. *Veteran Narratives and the Collective Memory of the Vietnam War* is a landmark study of the cultural heritage of the war in Vietnam as presented through the experience of its American participants. Crossing disciplinary borders in ways rarely attempted by historians, John A. Wood unearths truths embedded in the memoirists' treatments of combat, the Vietnamese people, race relations in the United States, military male/female relationships in the war zone, and veterans' postwar troubles. He also examines the publishing industry's influence on collective memory, discussing for example the tendency of publishers and reviewers to privilege memoirs critical of the war. *Veteran Narratives* is a significant and original addition to the literature on Vietnam veterans and the conflict as a whole.

Åhäll,2015-02-11 Historically there has been reluctance from mainstream IR scholars as well as feminists to seriously engage with women's agency in warfare. Instead, scholarship has tended to focus on women's activism for peace or to ignore women's agency altogether. This book rectifies this omission by exploring the cultural understanding of actors, agents, and structures of war and how we can make sense of attitudes towards women's agency and war today. By using a poststructuralist feminist perspective and by analysing empirical cases from a Western war on terror cultural context, Åhäll argues that all types of stories are informed by ideas about motherhood and maternal reproduction as the foundation of sexual difference. This does not only mean that women are judged and valued based on the shape of their maternalised bodies rather than what they actually do, but it means that ideas about motherhood, not motherhood itself, function to police contemporary gender norms and contemporary understandings of agency in war. Overall, this book argues that maternalist war stories function to reiterate traditional heteronormative gender roles. This is how a body politics of war is not only policing gender norms but actually writing sex itself. The body politics of war told through maternalist war stories is a process in which the sexing of war means the policing of gender borders with motherhood acting as the border agent. This work will be of interest to students and scholars in areas such as gender, political violence, and international relations. Gender for the Warfare State Robin Truth Goodman,2016-10-14 Gender for the Warfare State is the first scholarly investigation into the written works of U.S. women combat veterans in twenty-first century wars. Most recent studies quantify military participation, showing how many women participate in armed services and what their experiences are in a traditionally male institution. Many of these treatments regard women as victims solely of enemy fire, even as they are also often victims of their own military apparatus and of their own involvement in global aggression. By applying literary analysis to a sociological question, Gender for the Warfare State views women's experiences through story and literary traditions that carry meaning into present practices. Goodman shows that women in combat are not just entering and being victimized in male institutions but are also actively changing the story of gender and thus the structure of power that is constructed through gender. Moreover, this book unveils a new narrative of care that affects economic relations more broadly and the contemporary politics of the liberal social contract. Women's participation in combat is not just a U.S. event but global and therefore has a deeper historical range than current sociological accounts imply. The book compares the political contexts of women's entry into war now with their prior twentieth-century contributions to wars in other cultural settings and then uses this comparison to show a variety of meanings at play in the gender of war.
