The Role of Religious Culture for Social Progress in East Asian Society Juan Francisco Martinez, Kwangsuk Yoo, Brian Byrd, 2023-03-29 Religious culture is an important keyword for understanding rapidly changing East Asian society especially China Japan and Korea Despite the common influence of Confucian culture on these countries each has shown a very different pattern of social progress in modern and postmodern times Although surveys report a low ratio of religious identification and membership in this region people in this area are religious in a different way from Western societies and religious culture is closely related to political economic and social subsystems A real force of changing East Asian society is not only political powers or economic classes but also an invisible culture based on religious belief and practice This book focuses on the dynamic relationship between social progress and religious culture organization or movements in each society since 1945

The Catholic Church, The Bible, and Evangelization in China Cindy Yik-yi Chu, 2022-01-01 This edited volume starts from the perspectives of Beijing in how it sees that religion should serve the interests of the state From China's viewpoint religion should act as a stabilizing force of society or else the Christian Churches will lose their reason for existence This might be incomprehensible to Western Christians who believe in the freedom of religion and their right to embrace their faith This collection of articles represents the concerted efforts of Chinese Italians and an American who live in China Europe and the United States and belong to different disciplines such as History Religious Studies and Language Studies to promote a better understanding of the Catholic Church in the world and in China

The "Inscrutably Chinese" Church Nathan Faries, 2010-01-01 The first half of the twenty first century promises to be a time of great change for the Christian church in the People's Republic of China The situation is complex and fluid and the information gap between those on the inside and those outside of China is still significant though shrinking The Inscrutably Chinese Church moves readers nearer to the Chinese Christian experience as Nathan Faries helps foreign readers to see with greater clarity just how Chinese Christians view their government and themselves in relation to those ruling powers There still exists a measure of inscrutability about China and its complex relationship with religion that must

be explained to the outsider It is this gap in understanding between insider points of view within China and those outsiders seeking knowledge about the Christian faith in China that Faries seeks to close

Christian Values in Communist China Gerda Wielander,2013-10-08 This book argues that as new political and social values are formed in post socialist China Christian values are becoming increasingly embedded in the new post socialist Chinese outlook It shows how although Christianity is viewed in China as a foreign religion promoted by Christian missionaries and as such at odds with the official position of the state Christianity as a source of social and political values rather than a faith requiring adherence to a church is in fact having a huge impact The book shows how these values inform both official and dissident ideology and provide a key underpinning of morality and ethics in the post socialist moral landscape Adopting a variety of different angles the book investigates the role Christian thought plays in the official discourse on morality and love and what contribution Chinese Christians make to charitable projects It analyses key Christian publications and dedicates two chapters to Christian intellectuals and their impact on political liberal thinking in China The concluding chapter highlights gender roles the role of the Chinese diaspora and the overlap of the government and Christian agenda in China today The book challenges commonly held views on contemporary Chinese Christianity as a movement in opposition to the state by showing the diversity and complexity of Christian thinking and the many factors influencing it **Chinese Christianity** Peter Tze Ming Ng,2012-02-03 This volume attempts to review the historical development of Chinese Christianity from a global local or glocalization perspective It includes chapters on the Boxer Movement Chinese indigenous movements and Christian higher education and also contains seven biographical chapters The author expounds upon the interplay of universal and particular aspects as well as the global and local forces which shaped the characteristics of Chinese Christianity in the late nineteenth and early twentieth century This work focused on China could have wider implications for modern scholarship both in the fields of comparative history of education and modern Chinese church history for those scholars who are exploring the dialogical interplay between global and local Christianities
