Commodity Culture in British Romanticism Daniela Garofalo,2016-02-17 Offering a new understanding of canonical
Romanticism Daniela Garofalo suggests that representations of erotic love in the period have been largely misunderstood
Commonly understood as a means for transcending political and economic realities love for several canonical Romantic
writers offers instead a contestation of those realities Garofalo argues that Romantic writers show that the desire for
transcendence through love mimics the desire for commodity consumption and depends on the same dynamic of delayed
fulfillment that was advocated by thinkers such as Adam Smith As writers such as William Blake Lord Byron Sir Walter Scott
John Keats and Emily Bront engaged with the period s concern with political economy and the nature of desire they
challenged stereotypical representations of women either as self denying consumers or as intemperate participants in the
market economy Instead their works show the importance of women for understanding modern economics with women s
desire conceived as a force that not only undermines the political economy s emphasis on productivity growth and perpetual
consumption but also holds forth the possibility of alternatives to a system of capitalist exchange Discovering Musicals
