important The less we communicate face to face the greater the opportunity for misunderstandings Of course all writing communicates your message to people you cannot see and may never meet It means you can influence more widely it also means you must take care not to make assumptions about your reader especially those who see your public postings Successful copywriting is constructed from carefully selected words each with a clear purpose It is written to prompt feelings thoughts or actions It is clear concise and at times comforting It is also comprehensible even to those not yet confident users of your language Reading this book and following the techniques it introduces will make you a more effective writer Expertise in grammar is not needed as all the necessary jargon is simply defined and anyway some forms of business writing deliberately ignore rules This book is for people who want to write for results Each of the seven chapters in Copywriting In A Week covers a different aspect Sunday Focusing your message Monday Using layout pictures and colour to make words memorable Tuesday Writing effective letters Wednesday Making advertising work for you Thursday Communicating clearly with the media Friday Preparing promotional print Saturday Composing proposals and presentation visuals
