Moving Up, Moving Out Will Cooley, 2018-10-19 In Moving Up Moving Out Will Cooley discusses the damage racism and discrimination have exacted on black Chicagoans in the twentieth century while accentuating the resilience of upwardly mobile African Americans Cooley examines how class differences created fissures in the black community and produced quandaries for black Chicagoans interested in racial welfare While black Chicagoans engaged in collective struggles they also used individualistic means to secure the American Dream Black Chicagoans demonstrated their talent and ambitions but they entered through the narrow gate and whites denied them equal opportunities in the educational institutions workplaces and neighborhoods that produced the middle class African Americans resisted these restrictions at nearly every turn by moving up into better careers and moving out into higher quality neighborhoods but their continued marginalization helped create a deeply dysfunctional city

African Americans settled in Chicago for decades inspired by the gains their forerunners were making in the city Though faith in Chicago as a land of promise wavered the progress of the black middle class kept the city from completely falling apart In this important study Cooley shows how Chicago in all of its glory and faults was held together by black dreams of advancement *Moving Up Moving Out* will appeal to urban historians and sociologists scholars of African American studies and general readers interested in Chicago and urban history **Moving Up and Getting On** Jill Rutter,2015-07-01 In most developed countries immigration policy is high on the political agenda But what happens to migrants after their arrival integration and social cohesion has received less attention yet these conditions matter to migrants and to wider society Drawing on fieldwork in London and eastern England *Moving up and getting on* is the first accessible yet comprehensive text to critique the effectiveness of recent integration and social cohesion policies and calls for a stronger political leadership Written for those interested in public policy the book argues that if the UK is to be successful in managing migration there needs to be greater emphasis on the social aspects of integration and opportunities for meaningful social contact between migrants and longer settled residents particularly in the workplace *Moving Up Against the Odds* Jack Andrews,2010-03

counter intuitive way Urbanizing Carescapes of Hong Kong Two Systems One City considers the post colonial picturing of One Country Two Systems as insufficient if not misleading in understanding the city of Hong Kong and its changing ties with the world Huang illustrates the way in which each urban citizen is propelled to be a self enterprising subject and local urban initiatives are becoming cross border investments upon global mobility In an era when putatively both the talents and capital are moving toward Asia the book illuminates how dynamism of colonialism is sustained rather than disappears within the two systems in one city
