## **Moving With The Ball The Migration Of Professional Footballers:**

*Moving with the Ball* Pierre Lanfranchi, Matthew Taylor, 2001-01-06 As a universal game association football has been particularly suited to the transfer of labour forces It does not require the use of a specific national language a recognized diploma or acquired qualification and the rules are standardized across the globe Thus the international football market could be considered an ideal example of a transnational and multicultural employment sector Role models throughout the history of professional football have not necessarily come from the town nation racial group or religious denomination of the majority of supporters as is seen in the cases of Maradona in Naples the German Bert Trautmann after the Second World War and more recently the Frenchman Eric Cantona in Manchester the Cameroonian Milla in France and the Argentinian Di Stefano in Madrid Football provides a particularly revealing lens through which to examine changes in national styles and stereotypes as they have been and still are reflected in the search for identities in sporting heroes In this book the authors consider the movement of football labour from the late nineteenth century to the present day within the framework of international migration as a whole Emphasis is given to the initial role of the British in the early twentieth century and the impact of the earliest South American and Yugoslav football wanderers The position of African footballers in the postwar period and the failure of America's national league in the 1970s are also discussed along with the international market for coaches and managers the development of national playing styles and the immediate consequences and future implications of the Bosman ruling

**The Politics of Football in Yugoslavia** Richard Mills, 2018-03-30 Winner of the Lord Aberdare Literary Prize for 2018 Even before Tito's Communist Party established control over the war ravaged territories which became socialist Yugoslavia his partisan forces were using football as a revolutionary tool In 1944 a team representing the incipient state was dispatched to play matches around the liberated Mediterranean This consummated a

deep relationship between football and communism that endured until this complex multi ethnic polity tore itself apart in the 1990s Starting with an exploration of the game in the short lived interwar Kingdom this book traces that liaison for the first time Based on extensive archival research and interviews it ventures across the former Yugoslavia to illustrate the myriad ways football was harnessed by an array of political forces Communists purposefully re engineered Yugoslavia s most popular sport in the tumult of the 1940s using it to integrate diverse territories and populations Subsequently the game advanced Tito s distinct brand of communism with its Cold War era policy of non alignment and experimentation with self management Yet even under tight control football was racked by corruption match fixing and violence Alternative political and national visions were expressed in the stadiums of both Yugoslavias and clubs players and supporters ultimately became perpetrators and victims in the countries violent demise In Richard Mills hands the former Yugoslavia s stadiums become vehicles to explore the relationship between sport and the state society nationalism state building inter ethnic tensions and war The book is the first in depth study of the Yugoslav game and offers a revealing new way to approach the complex history of Yugoslavia

*The Anthropology of Sport* Niko Besnier, Susan Brownell, Thomas F. Carter, 2018 Few activities bring together physicality, emotions, politics, money, and morality as dramatically as sport. In Brazil's stadiums or parks in China, on Cuba's baseball diamonds or rugby fields in Fiji, human beings test their physical limits, invest emotional energy, bet money, perform witchcraft, and ingest substances, making sport a microcosm of what life is about. *The Anthropology of Sport* explores not only what anthropological thinking tells us about sports but also what sports tell us about the ways in which the sporting body is shaped by and shapes the social, cultural, political, and historical contexts in which we live. Core themes discussed in this book include the body, modernity, nationalism, the state, citizenship, transnationalism, globalization, and gender and sexuality. Provided by publisher.

*Gridiron Capital* Lisa Uperesa, 2022-07-18 Since the 1970s, a Polynesian Pipeline has brought football players from American Samoa to Hawaii and the mainland United States to play at the collegiate and professional levels. In *Gridiron Capital*, Lisa Uperesa charts the cultural and social dynamics that have made football so central to Samoan communities. For Samoan athletes, football is not just an opportunity for upward mobility; it is a way to contribute to, support, and represent their family, village, and nation. Drawing on ethnographic fieldwork, archival research, and media analysis, Uperesa shows how the Samoan ascendancy in football is underpinned by the legacies of US empire and a set of imperial formations that mark Indigenous Pacific peoples as racialized subjects of US economic aid and development. Samoan players succeed by becoming entrepreneurs, building and commodifying their bodies and brands to enhance their football stock and market value. Uperesa offers insights into the social and physical costs of pursuing a football career, the structures that compel Pacific Islander youth toward athletic labor, and the possibilities for safeguarding their health and wellbeing in the future.
