Enjoy the reading     **The Network Marketing Bible** Michael Mathiesen, 2013-06-14. The Network Marketing Bible, written by a successful network marketer, is the authoritative work on the subject of how to make money by simply investing a few hundred dollars in order to make thousands of dollars per month in just a few months. Today, however, there are a plague of opportunities out there, and each of them claims to be the best and fastest way to make millions. Which ones do you choose? This book sorts through all of the noise and comes down with The Ten Commandments of Network Marketing and good MLMs, which thou shalt not disobey under penalty of being damned to obscurity and poverty forever. The Author of this book, Mike Mathiesen, has three decades of making his

living over the Internet and he has made great money and been highly successful marketing various products on the Web. However today due to the horrible economy and lack of real jobs that pay anything in America today there are now millions of desperate Americans who need to pay their bills and feed their families and who are grasping at the first opportunity that comes their way. And so they are willing to say and do things that should never be said or done. Therefore be careful and JOIN only the best. And more importantly to be successful today you need a system that gets you found more often so that other folks like yourself can JOIN YOU. This book gives you such a system and even a sure fired way to get your company website on the First Page of Google Search Results in a new Bonus Chapter. Don't break these Ten Commandments of a successful networker: join the right management team and a few others all detailed in the book and thou shalt not fail. The Bible shows you the way how to find the right path and stay on it. How to make yourself heard above the din: identify the right product, an easy to use and duplicatable marketing system, the right upline support and much much more. The reason to spend a few hours with this book is that it could save the reader many thousands of hours pursuing the wrong opportunity. There are currently too many people peddling pills, potions and drinks that are over priced and underwhelming in effectiveness. When someone tells you that you are going to make tons of money your first week in the business whatever business they are talking about you need to hang up on them because no one is making that kind of money any more. People just don't have the discretionary money to gamble on an opportunity as they did a few years ago and so this kind of appeal to your sense of desperation is not the way to go. It will result in a horrible heartbreak when you realize how much money you have wasted in buying products that everyone already has and doesn't need any more. Calm down all you English Teachers I know never end a sentence with a proposition. And it's not the money wasted that should concern you when you get these calls. It's the amount of time you will have wasted in trying to make this scam business work. It never will and you will have burned all your bridges and ruined your reputation as you try desperately to find another sucker like you. They will not appear. Where you will be taken to is a new paradigm for network marketing where you will be one of the few who are marketing a product that everyone wants, needs and has to have three times a day, a product that cannot spoil, a product that people respond to because they are forced to consume it every day and therefore if you can merely show them how to get some of this from you over the Internet instead of their local provider as they are accustomed to doing you make money every month. When they see the same opportunity to get their friends to do the same they make money too. No more wasted time or money because you have merely re directed some of their spending.
