your views about life yourself your culture and the cultures of other peoples of the world As a teacher I am aware of the need to educate people especially our children on the cultures of other peoples I have therefore included discussion on the socio cultural issues and cross cultural issues from an ethnographic perspective and incorporated strategies for teaching this culture and the cultures of other ethnic groups You really do not need to study the culture of every group before you can begin to teach in a multicultural classroom The idea is that once you have mastered the strategy for teaching the culture of one ethnic group you can teach the culture of any ethnic group This is necessary because as Takaki 1993 notes all students in America today need to know much more about the origins and history of the particular cultures which as Americans they will encounter during their lives Finally it is my heart s desire to impress upon you the teacher the fact that every student that enters your classroom like the little boy in this story comes with a dream It is your responsibility to keep every student s dream alive to focus every one of them and to motivate each of them to achieve his or her purposes All children want to succeed They too dream America As Dr Hanson observes I Too Dream America gives readers a tantalizing glimpse into a world few Americans have experienced or imagined As he relates his youthful experiences in Nigeria we are simultaneously intrigued and astonished by the sense of participation his stories deliver He makes it possible for readers to share his adventures successes and tragedies as participants in his vivid memories of a unique African cultural heritage Dr Allen notes It captures the spirit of voice of every parent teacher and child who would like to understand the culture of other countries It is a look at the African culture through the eyes of a native who has come to America and now lives the American dream It gives direction to teachers parents and students on how to understand and appreciate the culture and contributions of every child that shows up on the steps of an American school seeking an education that would lead him or her to the American dream It brings to life the desires of every parent and the aspirations of every child

Dell'Olio, Tony Donk, 2007-02-26 Models of Teaching Connecting Student Learning with Standards features classic and contemporary models of teaching appropriate to elementary and secondary settings Authors Jeanine M Dell Olio and Tony Donk use detailed case studies to discuss 10 models of teaching and demonstrate how they can be connected to state content standards and benchmarks as well as technology standards This book provides readers with the theoretical and practical understandings of how to use models of teaching to both meet and exceed the growing expectations for research based instructional practices and student achievement

A Kind and Just Parent William Ayers, 1998-06-01 Most people know juvenile offenders only from daily headlines and the images portrayed by the media are extreme and violent predators and even superpredators Distorted and incomplete these pictures shape the way Americans think and feel about city kids poor kids children of color *A Kind and Just Parent* gives us a transformative view of kids caught up in the justice system that we could never get from nightly news and newspaper stories William Ayers has spent five years as teacher and observer in Chicago s Juvenile Court prison the nation s first and largest institution of juvenile justice founded by legendary reformer

Jane Addams to act as a kind and just parent for kids in need Today immensely confused and confusing it serves as a perfect microcosm of the way American justice deals with children Through brilliant storytelling Ayers captures the lives and personalities of young people caught up in the juvenile justice system The book follows a year in the life of the prison school Its characters are three dimensional funny quirky sometimes violent and often vulnerable We see young people talking about their lives analyzing their own situations and thinking about their friends and their futures We watch them throughout a school year and meet some remarkable teachers From the intimate perspective of a teacher Ayers gives us portraits history and analysis that help us to understand not only what brought these kids into the court system but why people find it hard to think straight about them and what we might do to keep their younger brothers and sisters from landing in the same place Unsensational yet wrenching *A Kind and Just Parent* is a riveting look at kids and crime It will change the way Americans think about juvenile crime and juvenile justice
