Jack Elliott, Dr.

Mrs England Goes On Living:

Mrs. England Goes on Living Frances Blackwood,2013-10 This is a new release of the original 1943 edition **Mrs. England** Stacey Halls,2022-04-05 A Sunday Times bestseller Highly atmospheric and tense Richard Osman New YorkTimes bestselling author of The Thursday Murder Club Simmering with slow burning menace Mrs England is a portrait of an Edwardian marriage an enthralling tale of men and women power and control courage truth and the very darkest deception West Yorkshire 1904 When recently graduated Ruby May takes a nanny position looking after the children of Charles and Lilian England a wealthy couple from a powerful dynasty of mill owners she hopes it will be the fresh start she needs But as she adapts to life at the isolated Hardcastle House it becomes clear something is not quite right about the beautiful mysterious Mrs England Distant and withdrawn Lilian shows little interest in her children or charming husband and is far from the angel of the house Ruby was expecting As the warm vivacious Charles welcomes Ruby into the family a series of strange events forces her to question everything she thought she knew Ostracized by the servants and increasingly uneasy Ruby must face her own demons in order to prevent history from repeating itself After all there s no such thing as the perfect family she should know This captivating new feminist novel from Sunday Times bestselling author Stacey Halls is her third work of fiction and proves her one of the most exciting and compelling new storytellers of our time The Food Section Kimberly Wilmot Voss,2014-04-24 Food blogs are everywhere today but for generations information and opinions about food were found in the food sections of newspapers in communities large and small Until the early 1970s these sections were housed in the women s pages of newspapers where women could hold an authoritative voice The food editors often a mix of trained journalist and home economist reported on everything from nutrition news to features on the new chef in town They wrote recipes and solicited ideas from readers The sections reflected the trends of the time and the cooks of the community The editors were local celebrities judging cooking contests and getting calls at home about how to prepare a Thanksgiving turkey They were consumer advocates and reporters for food safety and nutrition They helped make James Beard and Julia Child household names as the editors wrote about their television appearances and reviewed their cookbooks These food editors laid the foundation for the food community that Nora Ephron described in her classic 1968 essay The Food Establishment and eventually led to the food communities of today Included in the chapters are profiles of such food editors as Jane Nickerson Jeanne Voltz and Ruth Ellen Church who were unheralded pioneers in the field as well as Cecily Brownstone Poppy Cannon and Clementine Paddleford who are well known today an analysis of their work demonstrates changes in the country s culinary history The book concludes with a look at how the women s pages folded at the same time that home economics saw its field transformed and with thoughts about the foundation that these women laid for the food journalism of today **American Women During World War II** Doris Weatherford,2009-10-16 American Women during World War II documents the lives and stories of women who contributed directly to the war effort via official and semi official

military organizations as well as the millions of women who worked in civilian defense industries ranging from aircraft maintenance to munitions manufacturing and much more. It also illuminates how the war changed the lives of women in more traditional home front roles. All women had to cope with rationing of basic household goods and most women volunteered in war-related programs. Other entries discuss institutional change as the war affected every aspect of life including schools, hospitals, and even religion. *American Women during World War II* provides a handy one-volume collection of information and images suitable for any public or professional library.

The Might and Mirth of Literature. A Treatise on Figurative Language. In which Upwards of Six Hundred Writers are Referred to, and Two Hundred and Twenty Figures Illustrated John Walker Vilant Macbeth, 2024-03-10 Reprint of the original first published in 1875 Jack Elliott, Dr., 2011-07-13 **Plants Go to War** Judith Sumner, 2019-06-17 As the first botanical history of World War II, *Plants Go to War* examines military history from the perspective of plant science. From victory gardens to drugs, timber, rubber, and fibers, plants supplied materials with key roles in victory. Vegetables provided the wartime diet both in North America and Europe, where vitamin-rich carrots, cabbages, and potatoes nourished millions. Chicle and cacao provided the chewing gum and chocolate bars in military rations. In England and Germany, herbs replaced pharmaceutical drugs; feverbark was in demand to treat malaria, and penicillin culture used a growth medium made from corn. Rubber was needed for gas masks and barrage balloons, while cotton and hemp provided clothing, canvas, and rope. Timber was used to manufacture Mosquito bombers, and wood gasification and coal replaced petroleum in European vehicles. Lebensraum, the Nazi desire for agricultural land, drove Germans eastward; troops weaponized conifers with shell bursts that caused splintering. Ironically, the Nazis condemned non-native plants but adopted useful Asian soybeans and Mediterranean herbs. Jungle warfare and camouflage required botanical knowledge, and survival manuals detailed edible plants on Pacific islands. Botanical gardens relocated valuable specimens to safe areas, and while remote locations provided opportunities for field botany, trees surviving in Hiroshima and Nagasaki live as a symbol of rebirth after vast destruction. **Adult Catalog: Title** Los Angeles County Public Library, 1970

ShadowShow Brad Strickland, 2014-04-01 In 1957, a stranger in a small Georgia town opens a movie theater where the midnight shows bring the locals' most horrific fantasies to life. Athanial Badon arrives in Gaither, Georgia, to reopen a shuttered cinema. Gaither is the epitome of postwar America, with its community Christmas pageants, white picket fences, genial dispositions, and evangelical good will toward friends, family, and neighbors. It really is the ideal place for the ShadowShow Theater. Badon promises the townspeople family entertainment that mirrors their own lives, fulfills their dreams, and reflects what really lies in their hearts. Now, night after night, when the lights go down, graphic images of murder and gore, human debasement, and violent sex cast a flickering glow on the faces of the audience. It's just the beginning of Badon's plan. He knows what they want. He's giving it to them. They deserve it. And all they have to do is watch. But the good folks of Gaither can't imagine what's coming next. A chilling tale of darkness lurking in a small Southern town, *ShadowShow* is
