Mrs. Snow's Practical Cook Book Mary B. Snow, 2015-06-14 Excerpt from Mrs Snow s Practical Cook Book For Home and Schools In the economy of nature nothing is lost All waste by the aid of heat is converted into fuel for cooking food for plants then into food for man and animals and animals as condensed vegetable furnishes food for man all containing some chemical properties dependant one upon the other all for the use of man To prepare food so as to get the most nutrition and not impose too much labor upon the digestive system should be understood by every housekeeper What the physician does after we are sick the cook should do before hand then there would be no need of a physician This book is not intended as an inexhaustless treatise upon cooking but a selection of recipes such as is needed in any well regulated family They have been repeatedly tried with success in school at home or by the kind friends who have contributed their favorite With instruction given at the heading of each chapter it is hoped that failures will be unknown Bequests for information gladly granted Small rules have been given for individual trial or for classes in cooking Different nations have their special food and different people have hobbies regarding uncooked vegetable meat or fruit diet but a mixed diet has been proven best and care should be exercised especially for growing children A knowledge of heat and digestion should be understood as well as pure water Make the dining room the brightest place in the home make food attractive give time to eat slowly rest a little and this will prove a good world after all About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Cook Book A genuine civilization and good cooking are more closely related than is usually appreciated Savages live on food either wholly or partially raw and have not the faintest conception of the routine of meals variety of diet and combination of flavors that are to us absolute necessities They gorge themselves when food is plentiful and starve when it is scarce They eat the coarsest and grossest substances without subjecting them to the refining effects of fire or the transforming influence of condiments herbs or extracts They know nothing of the subtle combinations by which the palate may be tickled and the digestive powers stimulated to easy and effective work To their habits of eating may be ascribed in great measure their imperfect physical development their mental dullness and their moral obtuseness Improve their diet and you have taken the

first step towards a better life Philanthropists and missionaries of all kinds are beginning to understand that no appeal can be effectually made to the higher nature until the stomach has first been revived and that all reforms in the individual must proceed from this center to the head and heart Coarse food even though perfectly digested produces coarse natures Indigestible food is even worse in its effect for it results in actual disease and disease of such a character as to influence in marked degree the whole mental outlook A sour stomach is apt to produce a sour temper Melancholy suspicion envy false and distorted views of men and things follow dyspepsia as the shadow follows substance The effect of diet in stimulating evil passions is well known Its effect also in disease is acknowledged and respected About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Homestyle Favorites, New and Revised Cookbook Committee,2003 Contains over 1300 home tested recipes plus short histories of New Waverly and the New Waverly Public Library Mrs. Wilson's New Cook Book Mary Elizabeth Lyles Wilson,1924 *Reliable Cook Book* Mrs. Charles F.
