Run to Win Annita M. Mannino, 2018-11-15 I loved David's unwavering faith, love of family and will power inspiring Mike Babcock Head Coach Detroit Red Wings 2005-2015. We never know where our journeys will lead and even when things do not go as expected, we can still discover our purpose. For eighteen-year-old David Mannino, a cancer diagnosis would suddenly change the direction of his journey and put him on a path of inspiring hope and courage. *Run to Win* is the inspiring memoir of David Mannino's challenging seven-month battle with cancer as he becomes a testimony of strength, courage, and faith. Told in his own words in Facebook posts and shared through the reflections of his mother and author Annita M. Mannino, David's journey will prick your heart and leave a permanent mark as you take a ride along with an exuberant accomplished young man who was focusing on life's next educational goals and aspiring to become a doctor only to be derailed with a life-altering diagnosis. *Run to Win* gives hope to those troubled in spirit, uplifts one's soul when in a valley, and provides confirmation of the grace and sovereignty of God our Father through the workings of the Holy Spirit. Plug into the interactions and relationships of David with family, friends, and a vast social circle, and see in David's life an example of trusting in God even when faced with the unexpected.

Miracles We Have Seen Harley Rotbart, 2016-09-13 This is a book of miracles, medical events witnessed by leading physicians for which there is no reasonable medical explanation or if there is, the explanation itself is extraordinary. These dramatic first-person essays detail spectacular serendipities, impossible cures, breathtaking resuscitations, extraordinary awakenings, and recovery from unimaginable disasters. Still, other essays give voice to cases in which the physical aspects were less dramatic than the emotional aspects, yet miraculous and

transformational for everyone involved. Positive impacts left in the wake of even the gravest of tragedies, profound triumphs of heart and spirit. Preeminent physicians in many specialties, including deans and department heads on the faculties of the top university medical schools in the country, describe in everyday language and with moving testimony their very personal reactions to these remarkable clinical experiences. Among the extraordinary cases poignantly recounted by the physicians witnessing them: A priest visiting a hospitalized patient went into cardiac arrest on the elevator which opened up on the cardiac floor, right at the foot of the cardiac specialist at just the right moment. A tiny premature baby dying from irreversible lung disease despite the most intensive care who recovered almost immediately after being taken from his hospital bed and

placed on his mother's chest President John F Kennedy's son Patrick who died shortly after birth and whose disease eventually led to research that saved generations of babies A nine year old boy who was decapitated in a horrific car accident but survived without neurological damage A woman who conceived and delivered a healthy baby despite having had both of her fallopian tubes surgically removed A young man whose only hope for survival was a heart transplant but just at the moment he developed a potentially fatal complication making a transplant impossible his own heart began healing itself A teenage girl near death after contracting full blown rabies who became the first patient ever to recover from that disease after an unexpected visit by Timothy Dolan the man who would go on to become the Archbishop of New York A Manhattan window washer who fell 47 stories and not only became the only person ever to survive a fall from that height but went on to make a full recovery Miracles We Have Seen is a book of inspiration and optimism and a compelling glimpse into the lives of physicians their humanity and determined devotion to their patients and their patients families It reminds us that what we don't know or don't understand isn't necessarily cause for fear and can even be reason for hope **The Truth in Small**

Doses Clifton Leaf, 2014-08-05 A decade ago Leaf a cancer survivor himself began to investigate why we had made such limited progress fighting this terrifying disease The result is a gripping narrative that reveals why the public's immense investment in research has been badly misspent why scientists seldom collaborate and share their data why new drugs are so expensive yet routinely fail and why our best hope for progress brilliant young scientists are now abandoning the search for a cure *Coda*, 1980 **Hermeneutic Phenomenology in Health and Social Care Research** Susan Crowther, Gill
