Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade. Democrats nearly selected a self-described socialist who ran on a populist platform against the influence of big money in politics. While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don't have to pin our hopes for greater participation on any one candidate. All of us have a say if we learn master and practice the skills of effective citizenship. One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can't fight City Hall. That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn't care what people like them thought. Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles. They describe effective citizenship skills and provide tips from civic experts. Even more importantly they offer numerous examples of everyday Americans who have used their skills to make democracy respond. The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy. By the end of the book you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you not the other way around. **Pemimpin 2015 (Issue 3)** JCI Malaysia, **Having Their Say** Kristie Bunton, 2021-04-16 After Natalie Maines of The Dixie Chicks expressed her opposition to the Iraq War and President Bush in a country music concert she was told to shut up and sing. When NFL player Colin Kaepernick protested police brutality by kneeling during the national anthem he was applauded by

some and demonized by others Both had their careers irrevocably altered by speaking out for their beliefs This book examines the ethical issues that arise when famous people speak out on issues often unrelated to the performances that brought those figures to public attention It analyzes several celebrity speakers singers Taylor Swift and the Chicks satirist Jon Stewart actor Tom Hanks and athletes Serena Williams Stephen Curry Colin Kaepernick and Naomi Osaka and demonstrates that justifiable speaking requires celebrity speakers journalists and audiences to consider ethical issues regarding platform intent and harm Celebrity speakers must exercise ethical care in a digital world where audiences equate celebrity status with authority and expertise about public issues Finally this book considers how people who are not famous can understand their ethical responsibilities for speaking out about public issues in their own spheres of influence
