know what really happened the night his dad died on the train tracks And that sucks But life goes on And as it does Justin discovers that some things are just unknowable He learns that time and space and memory are grander and weirder than he ever thought and that small moments can hold big things if you're paying attention Just like his math teacher said even when you think you have all the information there will be more There is always more Set during the Gulf War era Like Nothing Amazing Ever Happened is a story about learning to go on after loss told with a warmth that could thaw the coldest

5 x 8 3 in When Bodies Remember Didier Fassin, 2007-03-14 In this book France's leading medical anthropologist takes on one of the most tragic stories of the global AIDS crisis the failure of the ANC government to stem the tide of the AIDS epidemic in South Africa Didier Fassin traces the deep roots of the AIDS crisis to apartheid and before that to the colonial period One person in ten is infected with HIV in South Africa and President Thabo Mbeki has initiated a global controversy by funding questionable medical research casting doubt on the benefits of preventing mother-to-child transmission and embracing dissidents who challenge the viral theory of AIDS Fassin contextualizes Mbeki's position by sensitively exploring

issues of race and genocide that surround this controversy Basing his discussion on vivid ethnographical data collected in the townships of Johannesburg he passionately demonstrates that the unprecedented epidemiological crisis in South Africa is a demographic catastrophe as well as a human tragedy one that cannot be understood without reference to the social history of the country in particular to institutionalized racial inequality as the fundamental principle of government during the past century
