Nothing Happens:

What Happens When Nothing Happens Greice Schneider, 2016-06-30 Boredom and melancholy in the experience of reading Contemporary graphic novels show an interesting shift from the extraordinary to the ordinary in slice of life stories in which nothing happens Present day graphic accounts are inhabited by melancholic characters whining about the lack of meaning in life This book examines this intriguing transition and brings a historical aesthetical and narratological approach to comics in which boredom is not only a topic but also awakens a deliberate affective response in the very experience of reading This volume brings together close readings of work by Lewis Trondheim Chris Ware and Adrian Tomine With a foreword by Raphaël Baroni University of Lausanne

The Collected Poems of Octavio Paz, 1957-1987 Octavio Paz, 1991 Contains almost 200 collected poems in both Spanish and English

Causation in Grammatical Structures Bridget Copley, Fabienne Martin, 2014 This book brings together research on the topic of causation from experts in the fields of linguistics philosophy and psychology It seeks to arrive at a more sophisticated understanding both of how causal concepts are expressed in causal meanings and how those meanings in turn are organized into structures Chapters address some of the most exciting current issues in the field including the relation of causal relations the representation of defeasible causation within verb phrases and at the level of modality the difference between direct and indirect causal chains and the representation of these chains in syntax The book examines data from a wide variety of languages such as Tohono O'odham Finnish Tagalog Vietnamese Hindi and Karachay Balkar and will be of interest to syntacticians and semanticists as well as psycholinguists and philosophers from graduate level upwards

The Religion of Existence Noreen Khawaja, 2016-12-02 Keen insight reveals existentialism as one more chapter in Christianity's history Journal of the American Academy of Religion The Religion of Existence reopens an old debate on an important question What was existentialism At the heart of existentialism Noreen Khawaja argues is a story about secular thought experimenting with the traditions of European Christianity This book explores how a distinctly Protestant asceticism formed the basis for the chief existentialist ideal personal authenticity which is reflected in approaches ranging from Kierkegaard's religious theory of the self to Heidegger's phenomenology of everyday life to Sartre's global mission of atheistic humanism Through these three philosophers she argues we observe how ascetic norms have shaped one of the twentieth century's most powerful ways of thinking about identity and difference the idea that the true self is not simply given but something that each of us is responsible for producing Engaging with many central figures in modern European thought this book is of value to philosophers and historians of European philosophy scholars of modern Christianity and those working on problems at the intersection of religion and modernity

Heartbreak House George Bernard Shaw, 2024-04-26

Heartbreak House by George Bernard Shaw is a witty and incisive comedy that serves as a scathing critique of the British upper class and their complacency in the face of impending disaster. Set on the eve of World War I, the play takes place in the eccentric household of Captain Shotover, a retired seafarer whose home serves as a microcosm of British society. As various guests gather at Heartbreak House, they reveal themselves to be shallow, self-absorbed, and disconnected from the realities of the world around them. Through sharp dialogue and biting satire, Shaw exposes the moral bankruptcy of the ruling class and the folly of their pursuit of pleasure and material wealth. At its core, Heartbreak House is a cautionary tale about the consequences of moral apathy and political indifference. Shaw uses the characters and setting of the play to explore themes of power, corruption, and the decline of Western civilization, offering a searing indictment of the social and political forces that led to the cataclysm of World War I.

California Dreams and American Contradictions Monique McDade, 2023-03

In California Dreams and American Contradictions, Monique McDade examines a group of diverse women writers of the American West from an intersectional standpoint to understand the progressive narratives the West tells about itself.

Lectures Of Sidney Coleman On Quantum Field Theory: Foreword By David Kaiser Bryan Gin-gu Chen, David Derbes, David Griffiths, Brian Hill, Richard Sohn, Yuan-sen Ting, 2018-11-08

Sidney Coleman was the master teacher of quantum field theory. All of us who knew him became his students and disciples. Sidney's legendary course remains fresh and bracing because he chose his topics with a sure feel for the essential and treated them with elegant economy. Frank Wilczek, Nobel Laureate in Physics 2004, says: "Sidney Coleman was a physicist's physicist. He is largely unknown outside of the theoretical physics community and known only by reputation to the younger generation. He was an unusually effective teacher, famed for his wit, his insight, and his encyclopedic knowledge of the field to which he made many important contributions. There are many first-rate quantum field theory books: the venerable Bjorken and Drell, the more modern Itzykson and Zuber, the now standard Peskin and Schroeder, and the recent Zee, but the immediacy of Prof. Coleman's approach and his ability to present an argument simply without sacrificing rigor makes his book easy to read and ideal for the student. Part of the motivation in producing this book is to pass on the work of this outstanding physicist to later generations, a record of his teaching that he was too busy to leave himself."

Here Am I! Adrio König, 2011-08-01

Adrio König is among those theologians in South Africa who are attempting to break away from a traditional fundamentalist approach to the Bible, typical of an older Dutch generation raised on the Neo-Calvinism of Abraham Kuyper. This younger generation of Reformed theologians from South Africa wants to make use of a far wider theological spectrum than merely the Netherlands. This book, focusing on the doctrine of God, is an excellent example of contemporary theological thinking by an outstanding member of this generation. König strongly asserts that his book is unlike most doctrines of God in that it is not about God in himself, as is most scholastic and classical Protestant theology, but rather about God in certain relationships.

While God does exist over and above his relationships and his actions and is thus more and greater than his deeds and relationships it is only through his deeds and relationships that we know God Konig goes on to explore specifically four relationships God to the gods God to man God to history and God to the future Fundraising Consultants E.
