The Hatred of Music Pascal Quignard, 2016-03-28 Throughout Pascal Quignard's distinguished literary career music has been a recurring obsession. As a musician he organized the International Festival of Baroque Opera and Theatre at Versailles in the early 1990s and thus was instrumental in the rediscovery of much forgotten classical music. Yet in 1994 he abruptly renounced all musical activities. *The Hatred of Music* is Quignard's masterful exploration of the power of music and what history reveals about the dangers it poses. From prehistoric chants to challenging contemporary compositions Quignard reflects on music of all kinds and eras. He draws on vast cultural knowledge: the Bible, Greek mythology, early modern history, modern philosophy, the Holocaust and more to develop ten accessible treatises on music. In each of these small masterpieces the author exposes music's potential to manipulate, to mesmerize, to domesticate. Especially disturbing is his scrutiny of the role music played in the concentration camps of Nazi Germany. Quignard's provocative book takes on particular relevance today as we find ourselves surrounded by music as never before in history.

*Gratry's Philosophy*, 2020-12-31 Alphonse Joseph Auguste Gratry 1805-1872 was born in Lille, northern France, of irreligious parents and lived during a time of endless revolution. As a young man he underwent a powerful conversion in which he experienced a mystical vision of a world based on truth and justice. This determined the course of his future life. A classically educated scholar, he studied engineering at the outstanding *cole Polytechnique*, completed a doctorate on the scientific method in Strasbourg, 1840, was ordained a priest and later obtained a doctorate in letters and a licentiate in theology. Moved by the events of 1848, he published his first book in the form of a social catechism on the necessity for a systematic response to the needs of society. In a parallel initiative to that of Blessed John Henry Cardinal Newman in England, he relaunched the Congregation of the Oratory in Paris, 1852, with Pierre Petetot to raise intellectual standards among the clergy after the Revolution. A charismatic individual, well known as a distinguished logician, theologian, social thinker and outstanding educator, preacher and spiritual director, his major philosophical works appeared in the 1850s. The French Academy recognized his genius with election to the chair held by Voltaire a century earlier. Gratry fell into disfavor for his adhesion to the International Peace League on the eve of France's war with Germany and for his stand in regard to papal infallibility before Vatican I, a position largely vindicated in Vatican II, but he accepted the much narrower declaration once it was made. His most famous work, *Les Sources*, widely published until World War II, offers a plan of studies and a plan of life which reflect Gratry's philosophy of the person. The Christian Democratic Parties, the French lay movement *Le Sillon*, the Young Christian Workers (YCW) and the writings of Peter Maurin, mentor to today's Catholic Worker movement, witness to his foundational and comprehensive influence. For the first time in English we have Julian Marias's 1914-2005 clear and accessible study, 5th ed., on the core of Alphonse Gratry's philosophy. Although he lived more than a century ago (1805-1872), Gratry addresses issues of concern today: the ontology of the human person, with its body-soul unity, the intrinsic relationship of individuals to society and nature, and the problem of God.

Recognized as a master in his lifetime with the rapid reprinting of his *Logic The Knowledge of God and The Knowledge of the Soul* Gratry was relegated to near oblivion less than seventy years later with the rejection of metaphysics and the rise of Positivism Marias reclaims Gratry s place in the history of philosophy and thoroughly explains Gratry s original logic written from the point of view of the juncture of philosophy and the human spirit He shows how Gratry s theory of induction in Plato s original and foundational sense Rep VI forms the heart of his metaphysics of knowledge the science of transcendence by which the mind intellectually apprehends all reality corporeal psychic and divine Gratry thus establishes a complete ontology of the human person rational free and endowed with a three fold sense external intimate sens intime and divine dependent on unlimited being or God Gratry s original logic and metaphysics stands on its own philosophical basis but in Chapter 6 Five Interior Adventures Marias includes a parallel existential foundation drawn from Gratry s private journal This reveals how the young atheist underwent a series of near mystical experiences which gave him an inescapable awareness of God and confronted him with the moral choice for or against this reality In this extraordinarily lucid study we now have access to the complete thought of Gratry giving scholar and student as Marias observes a seemingly providential body of work needed in our time

*Applied Spirituality* Robert Colacurcio,2024-06-23 The three self contained works in this compilation are *No Urgency* or *How We Fiddle with Eternity* *Complete Not Completed* *Why This Ignorance* These works build on the earlier books in Volume I and they are more challenging They provoke at least I hope they do a more energetic pursuit of soul depth for the sake of spiritual depth Like all my books they openly rely on the spiritual technology of the Buddha However they can be on confrontationally read Because they are non sectarian in the sense that they don t require or promote a conversion to a religious viewpoint they can be practically incorporated by anyone practicing a sectarian or non sectarian path That s the nature of this spiritual technology Tibetan Buddhism doesn t even have a word for religion in its lexicon The reader is cautioned to take their time and read these books slowly not hesitating to stay where there s fruit In fact if one reads more than one chapter a day that pace will miss much As the pithy Latin expression *non multa sed multum* has it It s not knowing many things that satisfies the soul but knowing a few quality things deeply
